191.910. 1. The attorney general shall have authority to investigate alleged or suspected violations of sections 191.900 to 191.910, and shall have all powers provided by sections 407.040 to 407.090, RSMo, in connection with investigations of alleged or suspected violations of sections 191.900 to 191.910, as if the acts enumerated in subsections 1 to 3 of section 191.905 are unlawful acts proscribed by chapter 407, RSMo, provided that if the attorney general exercises such powers, the provisions of section 407.070, RSMo, shall also be applicable; and may exercise all of the powers provided by subsections 1 and 2 of section 578.387, RSMo, in connection with investigations of alleged or suspected violations of sections 191.900 to 191.910, as if the acts enumerated in subsections 1 to 3 of section 191.905 involve “public assistance” as defined by section 578.375, RSMo. The attorney general and his or her authorized investigators shall be authorized to serve all subpoenas and civil process related to the enforcement of sections 191.900 to 191.910 and chapter 407, RSMo. In order for the attorney general to commence a state prosecution for violations of sections 191.900 to 191.910, the attorney general shall prepare and forward a report of the violations to the appropriate prosecuting attorney. Upon receiving a referral, the prosecuting attorney shall either commence a prosecution based on the report by the filing of a complaint, information, or indictment within sixty days of receipt of said report or shall file a written statement with the attorney general explaining why criminal charges should not be brought. This time period may be extended by the prosecuting attorney with the agreement of the attorney general for an additional sixty days. If the prosecuting attorney commences a criminal prosecution, the attorney general or his designee shall be permitted

by the court to participate as a special assistant prosecuting attorney in settlement negotiations and all court proceedings, subject to the authority of the prosecuting attorney, for the purpose of providing such assistance as may be necessary. If the prosecuting attorney fails to commence a prosecution and fails to file a written statement listing the reasons why criminal charges should not be brought within the appropriate time period, or declines to prosecute on the basis of inadequate office resources, the attorney general shall have authority to commence prosecutions for violations of sections 191.900 to 191.910. In cases where a defendant pursuant to a common scheme or plan has committed acts which constitute or would constitute violations of sections 191.900 to 191.910 in more than one state, the attorney general shall have the authority to represent the state of Missouri in any plea agreement which resolves all criminal prosecutions within and without the state, and such agreement shall be binding on all state prosecutors.

2. In any investigation, hearing or other proceeding pursuant to sections 191.900 to 191.910, any record in the possession or control of a health care provider, or in the possession or control of another person on behalf of a health care provider, including but not limited to any record relating to patient care, business or accounting records, payroll records and tax records, whether written or in an electronic format, shall be made available by the health care provider to the attorney general or the court, and shall be admissible into evidence, regardless of any statutory or common law privilege which such health care provider, record custodian or patient might otherwise invoke or assert. The provisions of section 326.151, RSMo, shall not apply to actions brought pursuant to sections 191.900 to 191.910. The attorney general shall not disclose any record obtained pursuant to this section, other than in connection with a proceeding instituted or pending in any court or administrative agency. The access, provision, use, and disclosure of records or

material subject to the provisions of 42 U.S.C. section 290dd-2 shall be subject to said section, as may be amended from time to time, and to regulations promulgated pursuant to said section.

3. No person knowingly with the intent to defraud the medical assistance program shall destroy or conceal such records as are necessary to fully disclose the nature of the health care for which a claim was submitted or payment was received under a medical assistance program, or such records as are necessary to fully disclose all income and expenditures upon which rates of payment were based under a medical assistance program. Upon submitting a claim for or upon receiving payment for health care under a medical assistance program, a person shall not destroy or conceal any records for five years after the date on which payment was received, if payment was received, or for five years after the date on which the claim was submitted, if payment was not received. Any provider who knowingly destroys or conceals such records is guilty of a class A misdemeanor.

4. Sections 191.900 to 191.910 shall not be construed to prohibit or limit any other criminal or civil action against a health care provider for the violation of any other law. Any complaint, investigation or report received or completed pursuant to sections 198.070 and 198.090, RSMo, subsection 2 of section 205.967, RSMo, sections 375.991 to 375.994, RSMo, section 578.387, RSMo, or sections 660.300 and 660.305, RSMo, which indicates a violation of sections 191.900 to 191.910, shall be referred to the attorney general. A referral to the attorney general pursuant to this subsection shall not preclude the agencies charged with enforcing the foregoing sections from conducting investigations, providing protective services or taking administrative action regarding the complaint, investigation or report referred to the attorney general, as may be provided by such sections; provided that all material developed by the attorney general in the course of an investigation pursuant to sections 191.900 to

191.910 shall not be subject to subpoena, discovery, or other legal or administrative process in the course of any such administrative action. Sections 191.900 to 191.910 take precedence over the provisions of sections 198.070 and 198.090, RSMo, subsection 2 of section 205.967, RSMo, sections 375.991 to 375.994, RSMo, section 578.387, RSMo, and sections 660.300 and 660.305, RSMo, to the extent such provisions are inconsistent or overlap.

191.914. 1. Any person who intentionally files a false report or claim alleging a violation of sections 191.900 to 191.910 is guilty of a class A misdemeanor. Any person who previously has been convicted of making a false report or claim under this section and who is subsequently convicted of making a false report or claim under this section is guilty of a class D felony and shall be punished as provided by law.

2. Any person who receives any compensation in exchange for knowingly failing to report any violation of subsections 1 to 3 of section 191.905 is guilty of a class D felony.”; and

Further amend said bill, page 84, section 473.398, line 9 of said page, by inserting after all of said line the following:

“Section 1. 1. Beginning September 1, 2007, an advisory working group is hereby created for the purpose of conducting a study to determine whether an office of inspector general shall be established. 3. A chair of the advisory working group shall be selected by the members of the advisory working group.

4. The advisory working group shall meet as necessary.

Section 2. Any funds remaining after the appropriation of funds to the attorney general or the prosecuting or circuit attorney pursuant to 191.905.11, which have been appropriated to the state agency responsible for administering the medical assistance program, shall be used to increase MO HealthNet provider reimbursement until the average MO HealthNet provider reimbursement equals the average Medicare provider reimbursement for comparable services.”; and

“135.535. 1. A corporation, limited liability corporation, partnership or sole proprietorship, which moves its operations from outside Missouri or outside a distressed community into a distressed community, or which commences operations in a distressed community on or after January 1, 1999, and in either case has more than seventy-five percent of its employees at the facility in the distressed community, and which has fewer than one hundred employees for whom payroll taxes are paid, and which is a manufacturing, biomedical, medical devices, scientific research, animal research, computer software design or development, computer programming, including Internet, web hosting, and other information technology, wireless or wired or other telecommunications or a professional firm shall receive a forty percent credit against income taxes owed pursuant to chapter 143, 147 or 148, RSMo, other than taxes withheld pursuant to sections 143.191 to 143.265, RSMo, for each of the three years after such move, if approved by the department of economic development, which shall issue a certificate of eligibility if the department determines that the taxpayer is eligible for such credit. The maximum amount of credits per taxpayer set forth in this subsection shall not exceed one hundred twenty-five thousand dollars

for each of the three years for which the credit is claimed. The department of economic development, by means of rule or regulation promulgated pursuant to the provisions of chapter 536, RSMo, shall assign appropriate North American Industry Classification System numbers to the companies which are eligible for the tax credits provided for in this section. Such three-year credits shall be awarded only one time to any company which moves its operations from outside of Missouri or outside of a distressed community into a distressed community or to a company which commences operations within a distressed community. A taxpayer shall file an application for certification of the tax credits for the first year in which credits are claimed and for each of the two succeeding taxable years for which credits are claimed.

2. Employees of such facilities physically working and earning wages for that work within a distressed community whose employers have been approved for tax credits pursuant to subsection 1 of this section by the department of economic development for whom payroll taxes are paid shall also be eligible to receive a tax credit against individual income tax, imposed pursuant to chapter 143, RSMo, equal to one and one-half percent of their gross salary paid at such facility earned for each of the three years that the facility receives the tax credit provided by this section, so long as they were qualified employees of such entity. The employer shall calculate the amount of such credit and shall report the amount to the employee and the department of revenue.

3. A tax credit against income taxes owed pursuant to chapter 143, 147 or 148, RSMo, other than the taxes withheld pursuant to sections 143.191 to 143.265, RSMo, in lieu of the credit against income taxes as provided in subsection 1 of this section, may be taken by such an entity in a distressed community in an amount of forty percent of the amount of funds expended for computer equipment and its maintenance, medical

laboratories and equipment, research laboratory equipment, manufacturing equipment, fiber optic equipment, high speed telecommunications, wiring or software development expense up to a maximum of seventy-five thousand dollars in tax credits for such equipment or expense per year per entity and for each of three years after commencement in or moving operations into a distressed community.

4. Tax credits allowed pursuant to this subsection or subsection 1 of this section may be carried back to any of the three prior tax years and carried forward to any of the five tax years.

5. An existing corporation, partnership or sole proprietorship that is located within a distressed community and that relocates employees from another facility outside of the distressed community to its facility within the distressed community, and an existing business located within a distressed community that hires new employees for that facility may both be eligible for the tax credits allowed by subsections 1 and 3 of this section. To be eligible for such tax credits, such a business, during one of its tax years, shall employ within a distressed community at least twice as many employees as were employed at the beginning of that tax year. A business hiring employees shall have no more than one hundred employees before the addition of the new employees. This subsection shall only apply to a

business which is a manufacturing, biomedical, medical devices, scientific research, animal research, computer software design or development, computer programming or telecommunications business, or a professional firm.

The department of economic development in approving taxpayers for the credit as provided for in subsection 6 of this section shall use information provided by the department of revenue regarding taxes paid in the previous year, or projected taxes for those entities newly established in the state, as the method of determining when this maximum will be reached and shall maintain a record of the order of approval. Any tax credit not used in the period for which the credit was approved may be carried over until the full credit has been allowed.

8. A Missouri employer relocating into a distressed community and having employees covered by a collective bargaining agreement at the facility from which it is relocating shall not be eligible for the credits in subsection 1, 3, 4 or 5 of this section, and its employees shall not be eligible

for the credit in subsection 2 of this section if the relocation violates or terminates a collective bargaining agreement covering employees at the facility, unless the affected collective bargaining unit concurs with the move.

9. Notwithstanding any provision of law to the contrary, no taxpayer shall earn the tax credits allowed in this section and the tax credits otherwise allowed in section 135.110, or the tax credits, exemptions, and refund otherwise allowed in sections 135.200, 135.220, 135.225 and 135.245, respectively, for the same business for the same tax period.

135.562. 1. 2. 3. Tax credits issued pursuant to this section may be refundable in an amount not to exceed two thousand five hundred dollars per tax year.

4. Eligible costs for which the credit may be

- (8) Modifying hardware of doors; or**
- (9) Modifying bathrooms.**

5. The tax credits allowed, including the maximum amount that may be claimed, pursuant to this section shall be reduced by one-third to the extent a taxpayer has already deducted such costs from such taxpayer's federal adjusted gross income or applied any other state or federal income tax credit to such costs.

6. A taxpayer shall claim a credit allowed by this section in the same taxable year as the credit is issued, and at the time such taxpayer files his or her Missouri income tax return; provided that, such return is timely filed.

7. The department may, in consultation with the department of social services, promulgate such rules or regulations as are necessary to administer the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date or to disapprove and annul a rule are subsequently held

unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2007, shall be invalid and void.

9. The provisions of this section shall expire December 31, 2013.

10. In no event shall the aggregate amount of all tax credits allowed pursuant to this section exceed one hundred thousand dollars in any given fiscal year. The tax credits issued pursuant to this section shall be on a first-come, first-served filing basis.”; and

If any individual with an ownership interest in the property fails to satisfy the eligibility requirements of an individual eligible owner or if the combined income of all individuals with interest in the property exceeds the maximum upper limit, then all individuals with an ownership interest in such property shall be deemed ineligible owners regardless of such other individual's ability to individually meet the eligibility requirements; or

(c) In the case of property held in trust, the eligible owner and recipient of the tax credit shall be the trust itself provided the previous owner of the homestead or the previous owner's spouse: is the settlor of the trust with respect to the homestead; currently resides in such homestead; and but for the transfer of such property would have satisfied the age, ownership, and maximum upper limit requirements for income as defined in subdivisions (7) and (8) of this subsection;

No individual shall be an eligible owner if the individual has not paid their property tax liability, if any, in full by the payment due date in any of the three prior tax years, except that a late payment of a property tax liability in any prior year shall not disqualify a potential eligible owner if such owner paid in full the tax liability and any and all penalties, additions and interest that arose as a result of such late payment; no individual shall be an eligible owner if such person filed a valid claim for the senior citizens property tax relief credit pursuant to sections 135.010 to 135.035, RSMo;

(5) "Homestead", as such term is defined pursuant to section 135.010, RSMo, except as limited by provisions of this section to the contrary. No property shall be considered a homestead if such property was improved since the most recent annual assessment by more than five percent of the prior year appraised value, except where an eligible owner of the property has made

such improvements to accommodate a disabled person;

(6) "Homestead exemption limit", a percentage increase, rounded to the nearest hundredth of a percent, which shall be equal to the percentage increase to tax liability, not including improvements, of a homestead from one tax year to the next that exceeds a certain percentage set pursuant to subsection 10 of this section. For applications filed in 2005 or 2006, the homestead exemption limit shall be based on the increase to tax liability from 2004 to 2005. For applications filed between April 1, 2005, and September 30, 2006, an eligible owner, who otherwise satisfied the requirements of this section, shall not apply for the homestead exemption credit more than once during such period. For applications filed after 2006, the homestead exemption limit shall be based on the increase to tax liability from two years prior to application to the year immediately prior to application;

(7) "Income", federal adjusted gross income, and in the case of ownership of the homestead by trust, the income of the settlor applicant shall be imputed to the income of the trust for purposes of determining eligibility with regards to the maximum upper limit;

(8) "Maximum upper limit", in the calendar year 2005, the income sum of seventy thousand dollars; in each successive calendar year this amount shall be raised by the incremental increase in the general price level, as defined pursuant to article X, section 17 of the Missouri Constitution.

3. Pursuant to article X, section 6(a) of the Constitution of Missouri, if in the prior tax year, the property tax liability on any parcel of subclass (1) real property increased by more than the homestead exemption limit, without regard for any prior credit received due to the provisions of this section, then any eligible owner of the property shall receive a homestead exemption credit to be applied in the current tax year property tax liability to offset the prior year increase to tax liability that

exceeds the homestead exemption limit, except as eligibility for the credit is limited by the provisions of this section. The amount of the credit shall be listed separately on each taxpayer's tax bill for the current tax year, or on a document enclosed with the taxpayer's bill. The homestead exemption credit shall not affect the process of setting the tax rate as required pursuant to article X, section 22 of the Constitution of Missouri and section 137.073 in any prior, current, or subsequent tax year.

4. If application is made in 2005, any potential eligible owner may apply for the homestead exemption credit by completing an application through their local assessor's office. Applications may be completed between April first and September thirtieth of any tax year in order for the taxpayer to be eligible for the homestead exemption credit in the tax year next following the calendar year in which the homestead exemption credit application was completed. The application shall be on forms provided to the assessor's office by the department. Forms also shall be made available on the department's Internet site and at all permanent branch offices and all full-time, temporary, or fee offices maintained by the department of revenue. The applicant shall attest under penalty of perjury:

- (1) To the applicant's age;
- (2) That the applicant's prior year income was less than the maximum upper limit;
- (3) To the address of the homestead property; and
- (4) That any improvements made to the homestead, not made to accommodate a disabled person, did not total more than five percent of the prior year appraised value. The applicant shall also include with the application copies of receipts indicating payment of property tax by the applicant for the homestead property for the two prior tax years.

5. If application is made in 2005, the assessor, upon request for an application, shall:

(1) Certify the parcel number and owner of record as of January first of the homestead, including verification of the acreage classified as residential on the assessor's property record card;

(2) Obtain appropriate prior tax year levy codes for each homestead from the county clerks for inclusion on the form;

(3) Record on the application the assessed valuation of the homestead for the current tax year, and any new construction or improvements for the current tax year; and

(4) Sign the application, certifying the accuracy of the assessor's entries.

6. If application is made after 2005, any potential eligible owner may apply for the homestead exemption credit by completing an application. Applications may be completed between April first and October fifteenth of any tax year in order for the taxpayer to be eligible for the homestead exemption credit in the tax year next following the calendar year in which the homestead exemption credit application was completed. The application shall be on forms provided by the department. Forms also shall be made available on the department's Internet site and at all permanent branch offices and all full-time, temporary, or fee offices maintained by the department of revenue. The applicant shall attest under penalty of perjury:

- (1) To the applicant's age;
- (2) That the applicant's prior year income was less than the maximum upper limit;
- (3) To the address of the homestead property;
- (4) That any improvements made to the homestead, not made to accommodate a disabled person, did not total more than five percent of the prior year appraised value; and

(5) The applicant shall also include with the application copies of receipts indicating payment of property tax by the applicant for the homestead property for the three prior tax years.

7. Each applicant shall send the application to the department by September thirtieth of each year for the taxpayer to be eligible for the homestead exemption credit in the tax year next following the calendar year in which the application was completed.

8. If application is made in 2005, upon receipt of the applications, the department shall calculate the tax liability, adjusted to exclude new construction or improvements verify compliance with the maximum income limit, verify the age of the applicants, and make adjustments to these numbers as necessary on the applications. The department also shall disallow any application where the applicant has also filed a valid application for the senior citizens property tax credit, pursuant to sections 135.010 to 135.035, RSMo. Once adjusted tax liability, age, and income are verified, the director shall determine eligibility for the credit, and provide a list of all verified eligible owners to the county collectors or county clerks in counties with a township form of government by December fifteenth of each year. By January fifteenth, the county collectors or county clerks in counties with a township form of government shall provide a list to the department of any verified eligible owners who failed to pay the property tax due for the tax year that ended immediately prior. Such eligible owners shall be disqualified from receiving the credit in the current tax year.

9. If application is made after 2005, upon receipt of the applications, the department shall calculate the tax liability, verify compliance with the maximum income limit, verify the age of the applicants, and make adjustments to these numbers as necessary on the applications. The department also shall disallow any application where the applicant also has filed a valid application for the senior citizens property tax credit under sections 135.010 to 135.035, RSMo. Once adjusted tax liability, age, and income are verified, the director shall determine eligibility for the credit and provide a list of all verified eligible owners to the

county assessors or county clerks in counties with a township form of government by December fifteenth of each year. By January fifteenth, the county assessors shall provide a list to the department of any verified eligible owners who made improvements not for accommodation of a disability to the homestead and the dollar amount of the assessed value of such improvements. If the dollar amount of the assessed value of such improvements totaled more than five percent of the prior year appraised value, such eligible owners shall be disqualified from receiving the credit in the current tax year.

10. The director shall calculate the level of appropriation necessary to set the homestead exemption limit at five percent when based on a year of general reassessment or at two and one-half percent when based on a year without general reassessment for the homesteads of all verified eligible owners, and provide such calculation to the speaker of the house of representatives, the president pro tempore of the senate, and the director of the office of budget and planning in the office of administration by January thirty-first of each year. **For all years after 2007, the director shall calculate the levels of appropriation necessary to set the homestead exemption limit anywhere between one hundredth of one percent and five percent when based on a year of general reassessment or anywhere between one hundredth of one percent and two and one-half percent when based on a year without general reassessment for the homesteads of all verified eligible owners, and provide such calculation to the speaker of the house of representatives, the president pro tempore of the senate, and the director of the office of budget and planning in the office of administration by January thirty-first of each year.**

11. For applications made in 2005, the general assembly shall make an appropriation for the funding of the homestead exemption credit that is signed by the governor, then the director shall, by

July thirty-first of such year, set the homestead exemption limit. The limit shall be a single, statewide percentage increase to tax liability, rounded to the nearest hundredth of a percent, which, if applied to all homesteads of verified eligible owners who applied for the homestead exemption credit in the immediately prior tax year, would cause all but one-quarter of one percent of the amount of the appropriation, minus any withholding by the governor, to be distributed during that fiscal year. The remaining one-quarter of one percent shall be distributed to the county assessment funds of each county on a proportional basis, based on the number of eligible owners in each county; such one-quarter percent distribution shall be delineated in any such appropriation as a separate line item in the total appropriation. If no appropriation is made by the general assembly during any tax year or no funds are actually distributed pursuant to any appropriation therefor, then no homestead preservation credit shall apply in such year.

12. After setting the homestead exemption limit for applications made in 2005, the director shall apply the limit to the homestead of each verified eligible owner and calculate the credit to be associated with each verified eligible owner's homestead, if any. The director shall send a list of those eligible owners who are to receive the homestead exemption credit, including the amount of each credit, the certified parcel number of the homestead, and the address of the homestead property, to the county collectors or county clerks in counties with a township form of government by August thirty-first. Pursuant to such calculation, the director shall instruct the state treasurer as to how to distribute the appropriation and assessment fund allocation to the county collector's funds of each county or the treasurer ex officio collector's fund in counties with a township form of government where recipients of the homestead exemption credit are located, so as to exactly offset each homestead exemption credit being issued, plus the one-quarter of one percent distribution for

the county assessment funds. As a result of the appropriation, in no case shall a political subdivision receive more money than it would have received absent the provisions of this section plus the one-quarter of one percent distribution for the county assessment funds. Funds, at the direction of the county collector or the treasurer ex officio collector in counties with a township form of government, shall be deposited in the county collector's fund of a county or the treasurer ex officio collector's fund or may be sent by mail to the collector of a county, or the treasurer ex officio collector in counties with a township form of government, not later than October first in any year a homestead exemption credit is appropriated as a result of this section and shall be distributed as moneys in such funds are commonly distributed from other property tax revenues by the collector of the county or the treasurer ex officio collector of the county in counties with a township form of government, so as to exactly offset each homestead exemption credit being issued. In counties with a township form of government, the county clerk shall provide the treasurer ex officio collector a summary of the homestead exemption credit for each township for the purpose of distributing the total homestead exemption credit to each township collector in a particular county.

13. If, in any given year after 2005, the general assembly shall make an appropriation for the funding of the homestead exemption credit that is signed by the governor, then the director shall, by July thirty-first of such year, set the homestead exemption limit. The limit shall be a single, statewide percentage increase to tax liability, rounded to the nearest hundredth of a percent, which, if applied to all homesteads of verified eligible owners who applied for the homestead exemption credit in the immediately prior tax year, would cause all of the amount of the appropriation, minus any withholding by the governor, to be distributed during that fiscal year. If no appropriation is made by the general assembly during any tax year or no funds are actually

distributed pursuant to any appropriation therefor, then no homestead preservation credit shall apply in such year.

14. After setting the homestead exemption limit for applications made after 2005, the director shall apply the limit to the homestead of each verified eligible owner and calculate the credit to be associated with each verified eligible owner's homestead, if any. The director shall send a list of those eligible owners who are to receive the homestead exemption credit, including the amount of each credit, the certified parcel number of the homestead, and the address of the homestead property, to the county collectors or county clerks in counties with a township form of government by August thirty-first. Pursuant to such calculation, the director shall instruct the state treasurer as to how to distribute the appropriation to the county collector's fund of each county where recipients of the homestead exemption credit are located, so as to exactly offset each homestead exemption credit being issued. As a result of the appropriation, in no case shall a political subdivision receive more money than it would have received absent the provisions of this section. Funds, at the direction of the collector of the county or treasurer ex officio collector in counties with a township form of government, shall be deposited in the county collector's fund of a county or may be sent by mail to the collector of a county, or treasurer ex officio collector in counties with a township form of government, not later than October first in any year a homestead exemption credit is appropriated as a result of this section and shall be distributed as moneys in such funds are commonly distributed from other property tax revenues by the collector of the county or the treasurer ex officio collector of the county in counties with a township form of government, so as to exactly offset each homestead exemption credit being issued.

15. The department shall promulgate rules for implementation of this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated

in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2004, shall be invalid and void. Any rule promulgated by the department shall in no way impact, affect, interrupt, or interfere with the performance of the required statutory duties of any county elected official, more particularly including the county collector when performing such duties as deemed necessary for the distribution of any homestead appropriation and the distribution of all other real and personal property taxes.

16. In the event that an eligible owner dies or transfers ownership of the property after the homestead exemption limit has been set in any given year, but prior to January first of the year in which the credit would otherwise be applied, the credit shall be void and any corresponding moneys, pursuant to subsection 12 of this section, shall lapse to the state to be credited to the general revenue fund. In the event the collector of the county or the treasurer ex officio collector of the county in counties with a township form of government determines prior to issuing the credit that the individual is not an eligible owner because the individual did not pay the prior three years' property tax liability in full, the credit shall be void and any corresponding moneys, under subsection 11 of this section, shall lapse to the state to be credited to the general revenue fund.

17. This section shall apply to all tax years beginning on or after January 1, 2005. This subsection shall become effective June 28, 2004.

18. In accordance with the provisions of sections 23.250 to 23.298, RSMo, and unless

otherwise authorized pursuant to section 23.253, RSMo:

(1) Any new program authorized under the provisions of this section shall automatically sunset six years after the effective date of this section; and

(2) This section shall terminate on September first of the year following the year in which any new program authorized under this section is sunset, and the revisor of statutes shall designate such sections and this section in a revision bill for repeal.”; and

Further amend the title and enacting clause accordingly.

Senator Callahan moved that the above amendment be adopted, which motion prevailed.

3. The tax credits allowed by this section shall be claimed by the eligible applicant at the time such applicant files a return for the tax year in which the storage and dispensing facilities were placed in service at a qualified alternative fuel vehicle refueling property, and

shall be applied against the income tax liability imposed by chapter 143, RSMo, chapter 147, RSMo, or chapter 148, RSMo, after all other credits provided by law have been applied. The cumulative amount of tax credits which may be claimed by eligible applicants claiming all credits authorized in this section shall not exceed the following amounts:

(1) In taxable year 2008, three million dollars;

(2) In taxable year 2009, two million dollars; and

4. If the amount of the tax credit exceeds the eligible applicant's tax liability, the difference shall not be refundable. Tax credits allowed under this section may be assigned, transferred, sold, or otherwise conveyed.

5. An alternative fuel vehicle refueling property, for which an eligible applicant receives tax credits under this section, which ceases to sell alternative fuel shall cause the forfeiture of such eligible applicant's tax credits provided under this section for the taxable year in which the alternative fuel vehicle refueling property ceased to sell alternative fuel and for future taxable years with no recapture of tax credits obtained by an eligible applicant with respect to such applicant's tax years which ended before the sale of alternative fuel ceased.

6. The director of revenue shall establish the procedure by which the tax credits in this section may be claimed, and shall establish a procedure by which the cumulative amount of tax credits is apportioned equally among all eligible applicants claiming the credit. To the

maximum extent possible, the director of revenue shall establish the procedure described in this subsection in such a manner as to ensure that eligible applicants can claim all the tax credits possible up to the cumulative amount of tax credits available for the taxable year. No eligible applicant claiming a tax credit under this section shall be liable for any interest or penalty for filing a tax return after the date fixed for filing such return as a result of the apportionment procedure under this subsection.

7. Any eligible applicant desiring to claim a tax credit under this section shall submit the appropriate application for such credit with the department. The application for a tax credit under this section shall include any information required by the department. The department shall review the applications and certify to the department of revenue each eligible applicant that qualifies for the tax credit.

8. The department and the department of revenue may promulgate rules to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2007, shall be invalid and void.

9. Pursuant to section 23.253, RSMo, of the Missouri sunset act:

(1) The provisions of the new program authorized under this section shall automatically sunset six years after the effective

date of this section unless reauthorized by an act of the general assembly; and

(2) If such program is reauthorized, the program authorized under this section shall automatically sunset twelve years after the effective date of the reauthorization of this section; and

(3) This section shall terminate on December thirty-first of the calendar year immediately following the calendar year in which the program authorized under this section is sunset.”; and

Further amend said bill, page 88, section 143.006, line 19, by inserting immediately after all of said line the following:

4. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. 2. The amount of credits claimed per taxpayer annually shall not exceed five hundred dollars. The minimum amount of tax credits a taxpayer may claim shall not be less than fifty dollars. A taxpayer shall claim the credit allowed by this section at the time such taxpayer files a return. In the event the amount of the tax credit provided under this section exceeds a taxpayer's income tax liability, no refund shall result, but such excess tax credits may be carried forward to any of the taxpayer's three subsequent tax years. The aggregate amount of tax credits which may be redeemed in any fiscal year shall not exceed five hundred thousand dollars. The tax credit shall be available regardless of whether the taxpayer opts to take a standard deduction. The department of revenue is authorized to adopt any rule or regulations deemed necessary for the effective administration of this section. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the

grant of rulemaking authority and any rule proposed or adopted after August 28, 2007, shall be invalid and void.

3. Pursuant to section 23.253, RSMo, of the Missouri sunset act:

(1) The provisions of the new program authorized under this section shall sunset automatically six years after the effective date of this section unless reauthorized by an act of the general assembly; and

(2) If such program is reauthorized, the program authorized under this section shall sunset automatically twelve years after the effective date of the reauthorization of this section; and

(3) This section shall terminate on September first of the calendar year immediately following the calendar year in which the program authorized under this section is sunset.

4. The department may promulgate rules to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly under chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2007, shall be invalid and void.”; and

Further amend the title and enacting clause accordingly.

Senator Scott moved that the above amendment be adopted, which motion prevailed.

[(10)] **(11)** A statement that the proposed district shall not be an undue burden on any owner of property within the district and is not unjust or unreasonable.

5. (1) As an alternative to the methods described in subsections 1 and 2 of this section, if two or more local transportation authorities have adopted resolutions calling for the joint establishment of a district, the governing body of any one such local transportation authority may file a petition in the circuit court of any county in which the proposed project is located requesting the creation of a district.

(2) The proposed district area shall be contiguous and may contain all or any portion of one or more municipalities and counties. Property separated only by public streets, easements, or rights-of-way or connected by a single public street, easement, or right-of-way shall be considered contiguous.

(3) The petition shall set forth:

(i) A proposal for funding the district initially, pursuant to the authority granted in sections 238.200 to 238.275, together with a request that the imposition of the funding proposal be submitted to the qualified voters residing within the limits of the proposed district; provided, however, the funding method of special assessments may also be approved as provided in subsection 1 of section 238.230; and

(j) A statement that the proposed district shall not be an undue burden on any owner of property within the district and is not unjust or unreasonable.

238.208. **1.** The owners of property adjacent to a transportation district formed under the Missouri transportation development district act may petition the court by unanimous petition to add their property to the district. If the property owners within the transportation development district unanimously approve of the addition of property, the adjacent properties in the petition shall be added to the district. Any property added under this section shall be subject to all projects, taxes, and special assessments in effect as of the

date of the court order adding the property to the district. The owners of the added property shall be allowed to vote at the next election scheduled for the district to fill vacancies on the board and on any other question submitted to them by the board under this chapter. The owners of property added under this section shall have one vote per acre in the same manner as provided in subdivision (2) of subsection 2 of section 238.220.

2. The owners of all of the property located in a transportation development district formed under this chapter may, by unanimous petition filed with the board of directors of the district, remove any property from the district, so long as such removal will not materially affect any obligations of the district.

238.225. 1. Before construction or funding of any project, the district shall submit the proposed project, [together with the proposed plans and specifications,] to the commission for its prior approval [of the project]. If the commission by minute finds that the project will improve or is a necessary or desirable extension of the state highways and transportation system, the commission may **preliminarily** approve the project subject to the district **providing plans and specifications for the proposed project and** making any revisions in the plans and specifications required by the commission and the district and commission entering into a mutually satisfactory agreement regarding development and future maintenance of the project. **After such preliminary approval, the district may impose and collect such taxes and assessments as may be included in the commission's preliminary approval.** After the commission approves the final construction plans and specifications, the district shall obtain prior commission approval of any modification of such plans or specifications.

2. If the proposed project is not intended to be merged into the state highways and transportation system under the commission's jurisdiction, the district shall also submit the proposed project and proposed plans and specifications to the local

transportation authority that will become the owner of the project for its prior approval.

3. In those instances where a local transportation authority is required to approve a project and the commission determines that it has no direct interest in that project, the commission may decline to consider the project. Approval of the project shall then vest exclusively with the local transportation authority subject to the district making any revisions in the plans and specifications required by the local transportation authority and the district and the local transportation authority entering into a mutually satisfactory agreement regarding development and future maintenance of the project. After the local transportation authority approves the final construction plans and specifications, the district shall obtain prior approval of the local transportation authority before modifying such plans or specifications.

238.230. 1. If approved by:

(1) A majority of the qualified voters voting on the question in the district; or

(2) The owners of record of all of the real property located within the district who shall indicate their approval by signing a special assessment petition;

the district may make one or more special assessments for those project improvements which specially benefit the properties within the district. Improvements which may confer special benefits within a district include but are not limited to improvements which are intended primarily to serve traffic originating or ending within the district, to reduce local traffic congestion or circuitry of travel, or to improve the safety of motorists or pedestrians within the district.

2. The ballot question shall be substantially in the following form:

Shall the Transportation Development District be authorized to levy special assessments against property benefited within the

district for the purpose of providing revenue for the development of a project (or projects) in the district (insert general description of the project or projects, if necessary), said special assessments to be levied ratably against each tract, lot or parcel of property within the district which is benefited by such project in proportion to the (insert method of allocating special assessments), in an amount not to exceed \$ per annum per (insert unit of measurement)?

3. The special assessment petition shall be substantially in the following form:

The Transportation Development District shall be authorized to levy special assessments against property benefited within the district for the purpose of providing revenue for the development of a project (or projects) in the district (insert general description of the project or projects, if necessary), said special assessments to be levied pro rata against each tract, lot or parcel or property within the district which is benefited by such project in proportion to the (insert method of allocating special assessments), in an amount not to exceed \$..... per annum per (insert unit of measurement).

4. If a proposal for making a special assessment fails, the district board of directors may, with the prior approval of the commission or the local transportation authority which will assume ownership of the completed project, delete from the project any portion which was to be funded by special assessment and which is not otherwise required for project integrity.

5. A district may establish different classes of real property within the district for purposes of levying differing rates of special assessments. The levy rate for special assessments may vary for each class or subclass based on the level of benefit derived by each class or subclass of real property from projects funded by the district.

238.275. 1. Within six months after development and initial maintenance costs of its completed project have been paid, the district shall

pursuant to contract transfer ownership and control of the project to the commission or a local transportation authority which shall be responsible for all future maintenance costs pursuant to contract. **Such transfer may be made sooner with the consent of the recipient.**

2. At such time as a district has completed its project and has transferred ownership of the project to the commission or other local transportation authority for maintenance, or at such time as the board determines that it is unable to complete its project due to lack of funding or for any other reason, the board shall submit for a vote in an election held throughout the district the question of whether the district should be abolished. The question shall be submitted in substantially the following form:

Shall the Transportation Development District be abolished?

3. The district board shall not propose the question to abolish the district while there are outstanding claims or causes of action pending against the district, while the district liabilities exceed its assets, or while the district is insolvent, in receivership or under the jurisdiction of the bankruptcy court. Prior to submitting the question to abolish the district to a vote, the state auditor shall audit the district to determine the financial status of the district, and whether the district may be abolished pursuant to law.

4. While the district still exists, it shall continue to accrue all revenues to which it is entitled at law.

5. Upon receipt of certification by the appropriate election authorities that the majority of those voting within the district have voted to abolish the district, and if the state auditor has determined that the district's financial condition is such that it may be abolished pursuant to law, then the board shall:

(1) Sell any remaining district real or personal property it wishes, and then transfer the proceeds

and any other real or personal property owned by the district, including revenues due and owing the district, to the commission or any appropriate local transportation authority assuming maintenance and control of the project, for its further use and disposition;

(2) Terminate the employment of any remaining district employees, and otherwise conclude its affairs;

(3) At a public meeting of the district, declare by a majority vote that the district has been abolished effective that date; and

(4) Cause copies of that resolution under seal to be filed with the secretary of state, the director of revenue, the commission, and with each local transportation authority affected by the district. Upon the completion of the final act specified in this subsection, the legal existence of the district shall cease.”; and

Further amend the title and enacting clause accordingly.

Senator Scott moved that the above amendment be adopted, which motion prevailed.

If an individual holds such an interest, then that individual shall refrain from any further official involvement in regard to such redevelopment plan, redevelopment project or redevelopment area, from voting on any matter pertaining to such redevelopment plan, redevelopment project or redevelopment area, or communicating with other members concerning any matter pertaining to that redevelopment plan, redevelopment project or redevelopment area. Furthermore, no such member or employee shall acquire any interest, direct or indirect, in any property in a redevelopment area or proposed redevelopment area after either (a) such individual obtains knowledge of such plan or project, or (b) first public notice of such plan, project or area pursuant to section 99.830, whichever first occurs;

(14) Charge as a redevelopment cost the reasonable costs incurred by its clerk or other official in administering the redevelopment project. The charge for the clerk's or other official's costs shall be determined by the municipality based on a recommendation from the commission, created pursuant to this section.

2. Prior to adoption of an ordinance approving the designation of a redevelopment area or approving a redevelopment plan or redevelopment project, the municipality shall create a commission of nine persons if the municipality is a county or a city not within a county and not a first class county with a charter form of government with a population in excess of nine hundred thousand, and eleven persons if the municipality is not a county and not in a first class county with a charter form of government having a population of more than nine hundred thousand, and twelve persons if the municipality is located in or is a first class county with a charter form of government having a population of more than nine hundred thousand, to be appointed as follows:

(1) In all municipalities two members shall be appointed by the school boards whose districts are included within the redevelopment plan or redevelopment area. Such members shall be appointed in any manner agreed upon by the affected districts;

3. The commission, subject to approval of the governing body of the municipality, may exercise the powers enumerated in sections 99.800 to 99.865, except final approval of plans, projects and designation of redevelopment areas. commission shall vote on all proposed redevelopment plans, redevelopment projects and designations of redevelopment areas, and amendments thereto, within thirty days following completion of the hearing on any such plan, project or designation and shall make recommendations to the governing body within ninety days of the hearing referred to in section 99.825 concerning the adoption of or amendment to redevelopment plans and redevelopment projects and the designation of redevelopment areas. The requirements of subsection 2 of this section and this subsection shall not apply to redevelopment projects upon which the required hearings have been duly held prior to August 31, 1991.”; and

Further amend the title and enacting clause accordingly.

Senator Green moved that the above amendment be adopted, which motion prevailed.

Senator Green offered **SA 14**:

SENATE AMENDMENT NO. 14

Amend Senate Substitute for Senate Committee Substitute for House Committee Substitute for House Bill No. 327, Page 13, Section 32.115, Line 9 of said page, by inserting after all of said line the following:

“99.805. As used in sections 99.800 to 99.865, unless the context clearly requires otherwise, the following terms shall mean:

(1) “Blighted area”, an area which, by reason of the predominance of defective or inadequate street layout, unsanitary or unsafe conditions, deterioration of site improvements, improper subdivision or obsolete platting, or the existence of conditions which endanger life or property by fire and other causes, or any combination of such factors, retards the provision of housing accommodations or constitutes an economic or social liability or a menace to the public health, safety, morals, or welfare in its present condition and use;

(2) “Collecting officer”, the officer of the

municipality responsible for receiving and processing payments in lieu of taxes or economic activity taxes from taxpayers or the department of revenue;

(3) “Conservation area”, any improved area within the boundaries of a redevelopment area located within the territorial limits of a municipality in which fifty percent or more of the structures in the area have an age of thirty-five years or more. Such an area is not yet a blighted area but is detrimental to the public health, safety, morals, or welfare and may become a blighted area because of any one or more of the following factors: dilapidation; obsolescence; deterioration; illegal use of individual structures; presence of structures below minimum code standards; abandonment; excessive vacancies; overcrowding of structures and community facilities; lack of ventilation, light or sanitary facilities; inadequate utilities; excessive land coverage; deleterious land use or layout; depreciation of physical maintenance; and lack of community planning. A conservation area shall meet at least three of the factors provided in this subdivision for projects approved on or after December 23, 1997;

(4) “Economic activity taxes”, the total additional revenue from taxes which are imposed by a municipality and other taxing districts, and which are generated by economic activities within a redevelopment area over the amount of such taxes generated by economic activities within such redevelopment area in the calendar year prior to the adoption of the ordinance designating such a redevelopment area, while tax increment financing remains in effect, but excluding personal property taxes, taxes imposed on sales or charges for sleeping rooms paid by transient guests of hotels and motels, licenses, fees or special assessments. For redevelopment projects or redevelopment plans approved after December 23, 1997, if a retail establishment relocates within one year from one facility to another facility within the same county and the governing body of the municipality finds that the relocation is a direct beneficiary of tax

increment financing, then for purposes of this definition, the economic activity taxes generated by the retail establishment shall equal the total additional revenues from economic activity taxes which are imposed by a municipality or other taxing district over the amount of economic activity taxes generated by the retail establishment in the calendar year prior to its relocation to the redevelopment area;

(5) “Economic development area”, any area or portion of an area located within the territorial limits of a municipality, which does not meet the requirements of subdivisions (1) and (3) of this section, and in which the governing body of the municipality finds that redevelopment will not be solely used for development of commercial businesses which unfairly compete in the local economy and is in the public interest because it will:

(a) Discourage commerce, industry or manufacturing from moving their operations to another state; or

(b) Result in increased employment in the municipality; or

(c) Result in preservation or enhancement of the tax base of the municipality;

(6) “Gambling establishment”, an excursion gambling boat as defined in section 313.800, RSMo, and any related business facility including any real property improvements which are directly and solely related to such business facility, whose sole purpose is to provide goods or services to an excursion gambling boat and whose majority ownership interest is held by a person licensed to conduct gambling games on an excursion gambling boat or licensed to operate an excursion gambling boat as provided in sections 313.800 to 313.850, RSMo. This subdivision shall be applicable only to a redevelopment area designated by ordinance adopted after December 23, 1997;

(7) **“Greenfield area”, any vacant, unimproved, or agricultural property that is**

located wholly outside the incorporated limits of a city, town, or village, or that is substantially surrounded by contiguous properties with agricultural zoning classifications or uses unless said property was annexed into the incorporated limits of a city, town, or village ten years prior to the adoption of the ordinance approving the redevelopment plan for such greenfield area;

(8) “Municipality”, a city, village, or incorporated town or any county of this state. For redevelopment areas or projects approved on or after December 23, 1997, “municipality” applies only to cities, villages, incorporated towns or counties established for at least one year prior to such date;

[(8)] (9) “Obligations”, bonds, loans, debentures, notes, special certificates, or other evidences of indebtedness issued by a municipality to carry out a redevelopment project or to refund outstanding obligations;

[(9)] (10) “Ordinance”, an ordinance enacted by the governing body of a city, town, or village or a county or an order of the governing body of a county whose governing body is not authorized to enact ordinances;

[(10)] (11) “Payment in lieu of taxes”, those estimated revenues from real property in the area selected for a redevelopment project, which revenues according to the redevelopment project or plan are to be used for a private use, which taxing districts would have received had a municipality not adopted tax increment allocation financing, and which would result from levies made after the time of the adoption of tax increment allocation financing during the time the current equalized value of real property in the area selected for the redevelopment project exceeds the total initial equalized value of real property in such area until the designation is terminated pursuant to subsection 2 of section 99.850;

[(11)] (12) “Redevelopment area”, an area designated by a municipality, in respect to which

the municipality has made a finding that there exist conditions which cause the area to be classified as a blighted area, a conservation area, an economic development area, an enterprise zone pursuant to sections 135.200 to 135.256, RSMo, or a combination thereof, which area includes only those parcels of real property directly and substantially benefited by the proposed redevelopment project;

[(12)] (13) “Redevelopment plan”, the comprehensive program of a municipality for redevelopment intended by the payment of redevelopment costs to reduce or eliminate those conditions, the existence of which qualified the redevelopment area as a blighted area, conservation area, economic development area, or combination thereof, and to thereby enhance the tax bases of the taxing districts which extend into the redevelopment area. Each redevelopment plan shall conform to the requirements of section 99.810;

[(13)] (14) “Redevelopment project”, any development project within a redevelopment area in furtherance of the objectives of the redevelopment plan; any such redevelopment project shall include a legal description of the area selected for the redevelopment project;

(1) Motor fuel used for nonhighway purposes including fuel for farm tractors or stationary engines owned or leased and operated by any person and used exclusively for agricultural purposes and including, beginning January 1,

After December 31, 2000, the refund may be claimed only by the consumer and may not be claimed by the ultimate vender unless bulk sales of gasoline are made to a farmer after January 1, 2006, as provided in this subdivision and the farmer provides an exemption certificate to the ultimate vender, in which case the ultimate vender may make a claim for refund under section 142.824 but shall be liable for any erroneous refund;

(a) Exported by a supplier who is licensed in the destination state or through the bulk transfer system;

(b) Removed by a licensed distributor for immediate export to a state for which all the applicable taxes and fees (however nominated in that state) of the destination state have been paid to the supplier, as a trustee, who is licensed to remit tax to the destination state; or which is destined for use within the destination state by the federal government for which an exemption has been made available by the destination state subject to procedural rules and regulations promulgated by the director; or

(c) Acquired by a licensed distributor and which the tax imposed by this chapter has previously been paid or accrued either as a result of being stored outside of the bulk transfer system immediately prior to loading or as a diversion across state boundaries properly reported in conformity with this chapter and was subsequently exported from this state on behalf of the distributor;

The exemption pursuant to paragraph (a) of this subdivision shall be claimed by a deduction on the report of the supplier which is otherwise responsible for remitting the tax upon removal of the product from a terminal or refinery in this state. Exempt use of undyed kerosene shall be governed by rules and regulations of the director. (5) Motor fuel used solely and exclusively as fuel to propel motor vehicles on the public roads and highways of this state when leased or owned and when being operated by a federally recognized Indian tribe in the performance of essential

[(5)] (6) Motor fuel sold within an Indian reservation or within Indian country by a federally recognized Indian tribe to a member of that tribe and used in motor vehicles owned by a member of the tribe within Indian country. The exemption for use pursuant to this subdivision shall be claimed by a refund claim filed by the consumer who shall provide evidence of an allocation of use satisfactory to the director;

[(7)] (8) Motor fuel acquired by a consumer out-of-state and carried into this state, retained within and consumed from the same vehicle fuel supply tank within which it was imported, except interstate motor fuel users;

[(8)] (9) Motor fuel which was purchased tax-paid and which was lost or destroyed as a direct result of a sudden and unexpected casualty or which had been accidentally contaminated so as to be unsalable as highway fuel as shown by proper documentation as required by the director. The exemption pursuant to this subdivision shall

be refunded to the person or entity owning the motor fuel at the time of the contamination or loss. Such person shall notify the director in writing of such event and the amount of motor fuel lost or contaminated within ten days from the date of discovery of such loss or contamination, and within thirty days after such notice, shall file an affidavit sworn to by the person having immediate custody of such motor fuel at the time of the loss or contamination, setting forth in full the circumstances and the amount of the loss or contamination and such other information with respect thereto as the director may require;

Journal of the Senate

FIRST REGULAR SESSION

FIFTY-THIRD DAY—THURSDAY, APRIL 12, 2007

The Senate met pursuant to adjournment.

President Kinder in the Chair.

Reverend Carl Gauck offered the following prayer:

“The present moment holds infinite riches, but you will only enjoy them to the extent of your faith and love. The more a soul loves, the more it longs, the more it hopes, the more it finds.” (Jean-Pierre De Caussade)

Gracious God, this day holds much for us to do and think about and then to act upon and it will be busy and have distractions; but we would ask that after they are completed, You would help us shift our minds and hearts to our important relationships with those You have given us to love. Help us use this weekend to enrich our souls and draw closer to You and our families as we celebrate the possibilities You provide us. In Your Holy Name we pray. Amen.

SENATE AMENDMENT NO. 2

Amend Senate Substitute No. 2 for Senate Committee Substitute for Senate Bill No. 204, Page 1, Section A, Line 3, by inserting immediately after said line the following:

"142.031. 1. As used in this section the following terms shall mean:

(1) "Biodiesel", fuel as defined in ASTM Standard D-6751 or its subsequent standard specifications for biodiesel fuel (B100) blend stock for distillate fuels;

(2) "Missouri qualified biodiesel producer", a facility that produces biodiesel, is registered with the United States Environmental Protection Agency according to the requirements of 40 CFR 79, and:

(a) Is at least fifty-one percent owned by agricultural producers who are residents of this state and who are actively engaged in agricultural production for commercial purposes; or

(b) At least eighty percent of the feedstock used by the facility originates in the state of Missouri. For purposes of this section, "feedstock" means a Missouri agricultural product as defined in

section 348.400, RSMo.

2. The "Missouri Qualified Biodiesel Producer Incentive Fund" is hereby created and subject to appropriations shall be used to provide economic subsidies to Missouri qualified biodiesel producers pursuant to this section. The director of the department of agriculture shall administer the fund pursuant to this section.

3. A Missouri qualified biodiesel producer shall be eligible for a monthly grant from the fund provided that one hundred percent of the feedstock originates in the United States. However, the director may waive the feedstock requirements on a month-to-month basis if the facility provides verification that adequate feedstock is not available. A Missouri qualified biodiesel producer shall only be eligible for the grant for a total of sixty months unless such producers during the sixty months fail, due to a lack of appropriations, to receive the full amount from the fund for which the producers were eligible, in which case such producers shall continue to be eligible for up to twenty-four additional months or until they have received the maximum amount of funding for which such producers were eligible during the original sixty-month time period. The amount of the grant is determined by calculating the estimated gallons of qualified biodiesel produced during the preceding month from [Missouri] agricultural products, as certified by the department of agriculture, and applying such figure to the per-gallon incentive credit established in this subsection. Each Missouri qualified biodiesel producer shall be eligible for a total grant in any fiscal year equal to thirty cents per gallon for the first fifteen million gallons of qualified biodiesel produced from [Missouri] agricultural products in the fiscal year plus ten cents per gallon for the next fifteen million gallons of qualified biodiesel produced from [Missouri] agricultural products in the fiscal year. All such qualified biodiesel produced by a Missouri qualified biodiesel producer in excess of thirty million gallons shall not be applied to the computation of a grant

pursuant to this subsection. The department of agriculture shall pay all grants for a particular month by the fifteenth day after receipt and approval of the application described in subsection 4 of this section.

4. In order for a Missouri qualified biodiesel producer to obtain a grant from the fund, an application for such funds shall be received no later than fifteen days following the last day of the month for which the grant is sought. The application shall include:

(1) The location of the Missouri qualified biodiesel producer;

(2) The average number of citizens of Missouri employed by the Missouri qualified biodiesel producer in the preceding month, if applicable;

(3) The number of bushel equivalents of Missouri agricultural commodities **and non-Missouri agricultural commodities** used by the Missouri qualified biodiesel producer in the production of biodiesel in the preceding month;

(4) The number of gallons of qualified biodiesel the producer manufactures during the month for which the grant is applied;

(5) A copy of the qualified biodiesel producer license required pursuant to subsection 5 of this section, name and address of surety company, and amount of bond to be posted pursuant to subsection 5 of this section; and

(6) Any other information deemed necessary by the department of agriculture to adequately ensure that such grants shall be made only to Missouri qualified biodiesel producers.

5. The director of the department of agriculture, in consultation with the department of revenue, shall promulgate rules and regulations necessary for the administration of the provisions of this section.

6. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created

under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2002, shall be invalid and void.

7. This section shall expire on December 31, 2009. However, Missouri qualified biodiesel producers receiving any grants awarded prior to December 31, 2009, shall continue to be eligible for the remainder of the original sixty-month time period under the same terms and conditions of this section unless such producer during such sixty months failed, due to a lack of appropriations, to receive the full amount from the fund for which he or she was eligible. In such case, such producers shall continue to be eligible for up to twenty-four additional months or until they have received the maximum amount of funding for which they were eligible during the original sixty-month time period.”; and

Further amend the title and enacting clause accordingly.

Senator Mayer moved that the above amendment be adopted, which motion prevailed.

Senator Rupp assumed the Chair.

Senator Shoemyer offered **SA 3**:

SENATE AMENDMENT NO. 3

(3) "Incremental cost", the difference in cost between blended biodiesel fuel and conventional petroleum-based diesel fuel at the time the blended biodiesel fuel is purchased.

2. On or before October 1, 2003, the Missouri department of transportation shall develop a program that provides for the opportunity to use fuel with at least the biodiesel content of B-20 in its vehicle fleet and heavy equipment that use diesel fuel. Such program shall have the following goals, provided that such program and goals do not prohibit the department from generating and selling EPA credits pursuant to section 414.407:

(1) On or before July 1, 2004, at least fifty percent of the department's vehicle fleet and heavy equipment that use diesel fuel shall use fuel with at least the biodiesel content of B-20, if such fuel is commercially available;

(2) On or before July 1, 2005, at least seventy-five percent of the department's vehicle fleet and heavy equipment that use diesel fuel shall use fuel with at least the biodiesel content of B-20, if such fuel is commercially available.

“194.119. 1. As used in this section, the term “right of sepulcher” means the right to choose and control the burial, cremation, or other final disposition of a dead human body.

2. For purposes of this chapter and chapters 193, 333, and 436, RSMo, and in all cases relating to the custody, control, and disposition of deceased human remains, including the common law right of sepulcher, where not otherwise defined, the term “next-of-kin” means the following persons in the priority listed if such person is eighteen years of age or older, is mentally competent, and is willing to assume responsibility for the costs of disposition:

(1) **An attorney-in-fact under a durable power of attorney that expressly refers to granting the right of sepulcher;**

(2) The surviving spouse;

[(2)] (3) Any surviving child of the deceased.

If a surviving child is less than eighteen years of age and has a legal or natural guardian, such child shall not be disqualified on the basis of the child's age and such child's legal or natural guardian, if any, shall be entitled to serve in the place of the child unless such child's legal or natural guardian was subject to an action in dissolution from the deceased. In such event the person or persons who may serve as next-of-kin shall serve in the order provided in subdivisions (3) to (8) of this subsection;

[(3)] (4) (a) Any surviving parent of the deceased; or

(b) If the deceased is a minor, a surviving parent who has custody of the minor; or

(c) If the deceased is a minor and the deceased's parents have joint custody, the parent whose residence is the minor child's residence for purposes of mailing and education;

[(4)] (5) Any surviving sibling of the deceased;

[(5) Any person designated by the deceased to act as next-of-kin pursuant to a valid designation of right of sepulcher as provided in subsection 8 of this section;]

(6) The next nearest surviving relative of the deceased by consanguinity or affinity;

(7) Any person or friend who assumes financial responsibility for the disposition of the deceased's remains if no next-of-kin assumes such responsibility;

(8) The county coroner or medical examiner; provided however that such assumption of responsibility shall not make the coroner, medical examiner, the county, or the state financially responsible for the cost of disposition.

3. The next-of-kin of the deceased shall be entitled to control the final disposition of the remains of any dead human being consistent with all applicable laws, including all applicable health codes.

4. A funeral director or establishment is entitled to rely on and act according to the lawful instructions of any person claiming to be the next-of-kin of the deceased; provided however, in any civil cause of action against a funeral director or establishment licensed pursuant to this chapter for actions taken regarding the funeral arrangements for a deceased person in the director's or establishment's care, the relative fault, if any, of such funeral director or establishment may be reduced if such actions are taken in reliance upon a person's claim to be the deceased person's next-of-kin.

5. Any person who desires to exercise the right of sepulcher and who has knowledge of an individual or individuals with a superior right to control disposition shall notify such individual or individuals prior to making final arrangements.

6. If an individual with a superior claim is personally served with written notice from a person with an inferior claim that such person desires to exercise the right of sepulcher and the

individual so served does not object within forty-eight hours of receipt, such individual shall be deemed to have waived such right. An individual with a superior right may also waive such right at any time if such waiver is in writing and dated.

7. If there is more than one person in a class who are equal in priority and the funeral director has no knowledge of any objection by other members of such class, the funeral director or establishment shall be entitled to rely on and act according to the instructions of the first such person in the class to make arrangements; provided that such person assumes responsibility for the costs of disposition and no other person in such class provides written notice of his or her objection.

[8. Any person may designate an individual to be his or her closest next-of-kin, regardless of blood or marital relationship, by means of a written instrument that is signed, dated, and verified. Such designation of right of sepulcher shall be witnessed by two persons, and shall contain the names and last known address of each person entitled to be next-of-kin but for the execution of the designation of right of sepulcher and who are higher in priority than the person so designated.]; and

Further amend the title and enacting clause accordingly.

the property line of such properties shall be 0.20 inches per second or five millimeters per second peak particle velocity. To maintain a reasonable degree of compliance that all vibrations will be below this value, a minimum set back from property lines of one thousand feet shall be maintained so that unknown variables do not significantly alter the vibration level at the property line at areas not monitored. For aboveground blasting, a maximum of one hundred fifteen decibels linear peak air blast shall be allowed.

2. Monitoring of vibration levels and air blast, including control of seismograph and positioning of such, shall be conducted by an independent seismologist, and the cost of the monitoring shall be paid by the company or entity conducting the blasting. The number of seismographs shall be determined by the seismologist but shall not be fewer than one per one thousand feet of the applicable property line. Weekly reports with no more than a weeks delay of the blast levels shall be given to local government and any neighborhood organizations that have been created to deal with the blasting issue. Any neighborhood organization shall have significant input into the selection of the independent seismologist.

3. For violations of this section, single fines shall be imposed. As used in this section, “single fine” means the gross value of half of a single day blast production based on the average production within the past thirty days. Within a one-hundred-twenty-day period, fines for violating this section shall be as follows:

(1) A first violation for vibrations between 0.20 inches per second to 0.30 inches per second shall result in a single fine. A violation for vibrations of 0.30 inches per second to 0.40 inches per second shall result in a double single fine. A violation for vibrations above 0.40 inches per second shall result in a four times single fine and a suspension of blasting for one hundred

twenty days.

(2) A second violation for vibrations between 0.20 inches per second to 0.30 inches per second shall result in a double single fine. A second violation for vibrations of 0.30 inches per second to 0.40 inches per second shall result in a four times single fine and a suspension of blasting for one hundred twenty days.

(3) A third violation shall result in a four times single fine and a suspension of blasting for one hundred twenty days.

4. A portion of the fines, as determined by local government, shall go to local school districts or neighborhood organizations to provide public benefits, including but not limited to scholarships and community improvements.

5. The provisions of this section shall become effective on August 28, 2008. Any payments to entities prior to such date shall remain in effect and are not refundable.”; and

Journal of the Senate

FIRST REGULAR SESSION

FIFTY-SIXTH DAY—WEDNESDAY, APRIL 18, 2007

The Senate met pursuant to adjournment.

President Kinder in the Chair.

Reverend Carl Gauck offered the following prayer:

“It is neither safe nor honest to act contrary to conscience! Here I stand; I cannot do otherwise, so help me God! Amen.”
(Martin Luther, April 18, 1521)

Lord, You know that sometimes we are hesitant to let people really know what it is we believe and stand for, so help us, O Lord, to determine under Your rule to make a difference in the world as we share our faith wherever we go. Let us act boldly so that our efforts tell others what is truly important to us and for what we will stand and willingly be counted. In Your Holy Name we pray. Amen.

SENATE AMENDMENT NO. 1

Amend Senate Substitute for Senate Committee Substitute for Senate Bill No. 563, Page 1, Section A, Line 3 of said page, by inserting after all of said line the following:

“393.140. The commission shall:

(1) Have general supervision of all gas corporations, electrical corporations, water corporations and sewer corporations having authority under any special or general law or under any charter or franchise to lay down, erect or maintain wires, pipes, conduits, ducts or other fixtures in, over or under the streets, highways and public places of any municipality, for the purpose of furnishing or distributing water or gas or of furnishing or transmitting electricity for light, heat or power, or maintaining underground conduits or ducts for electrical conductors, or for the purpose of collecting, carrying, treating, or disposing of sewage, and all gas plants, electric plants, water systems and sewer systems owned, leased or operated by any gas corporation, electrical corporation, water corporation, or sewer corporation.

(2) Investigate and ascertain, from time to time, the quality of gas or water supplied and sewer service furnished by persons and corporations, examine or investigate the methods employed by such persons and corporations in manufacturing, distributing and supplying gas or electricity for light, heat or power and in transmitting the same, and in supplying and distributing water for any purpose whatsoever, and in furnishing a sewer system, and have power to order such reasonable improvements as will best promote the public interest, preserve the public health and protect those using such gas, electricity, water, or sewer system, and those employed in the manufacture and distribution thereof, and have

power to order reasonable improvements and extensions of the works, wires, poles, pipes, lines, conduits, ducts and other reasonable devices, apparatus and property of gas corporations, electrical corporations, water corporations, and sewer corporations.

(3) Have power, by order, to fix from time to time standards for the measurement of the purity or illuminating power of gas to be manufactured, distributed or sold by persons or corporations for lighting, heating or power purposes, to prescribe from time to time the efficiency of the electric supply system, of the current supplied and of the lamps furnished by the persons or corporations generating and selling electric current, and to fix from time to time standards for the measurement of the purity or pressure of water to be distributed or sold by persons or corporations for any purpose whatsoever, and to fix from time to time the standards for designing, constructing, operating and maintaining sewer systems of sewer corporations, including sewers, sewage pumping stations, sewage treatment works, primary treatment facilities, sludge digestion and disposal facilities, secondary treatment facilities, disinfection facilities, and any and all facilities related thereto; provided, however, that such standards shall be supplemental to and in no way set standards lesser than the minimum standards adopted by the state water pollution board, and by order to require gas so manufactured, distributed or sold to equal the standards so fixed by it, and to prescribe from time to time the reasonable minimum and maximum pressure at which gas shall be delivered by said persons or corporations. For the purpose of determining whether the gas manufactured, distributed or sold by such persons or corporations for lighting, heating or power purposes conforms to the standards of illuminating power, purity and pressure, and for the purpose of determining whether the efficiency of the electric supply system, of the current supplied and of the lamps furnished, and for the purpose of determining whether the water furnished or sold

conforms to the standard of purity and pressure, and for the purpose of determining whether the sewer system conforms to the standards for designing, constructing, operating and maintaining sewer systems, and conforms to the orders issued by the commission, the commission shall have power, of its own motion, to examine and investigate the plants and methods employed in manufacturing, delivering and supplying gas, electricity or water, and the collecting, carrying, treating and disposing of sewage, and shall have access, through its members or persons employed and authorized by it, to make such examinations and investigations to all parts of the manufacturing plants owned, used or operated for the manufacture, transmission or distribution of gas or electricity by any such person or corporation, and to all parts of the systems owned, used or operated for the supplying and distribution of water and the collecting, carrying, treating and disposing of sewage by any such person or corporation. Any employee or agent of the commission who divulges any fact or information which may come to his knowledge during the course of any such inspection or examination, except insofar as he may be directed by the commission, or by a court or judge thereof, or authorized by law, shall be guilty of a misdemeanor.

(4) Promulgate rules by January 1, 2008, under the authority of section 386.125, RSMo, that establish:

(a) Minimum standards for the management of vegetation in, and adjacent to, the utility system easement or right-of-way of electrical corporations. Such standards may be prescriptive standards, performance standards, or both; and

(b) Reporting requirements for electrical corporations under the requirements of paragraph (a) of this subdivision. Any reports issued by an electrical corporation under this subdivision shall be made available to the public.

(5) Conduct inspection and monitoring activities as necessary to ensure and enforce compliance by electrical corporations with the standards developed under subdivision 4 of this section.

(6) Have power, in its discretion, to prescribe uniform methods of keeping accounts, records and books, to be observed by gas corporations, electrical corporations, water corporations and sewer corporations engaged in the manufacture, sale or distribution of gas and electricity for light, heat or power, or in the distribution and sale of water for any purpose whatsoever, or in the collection, carriage, treatment and disposal of sewage for municipal, domestic or other necessary beneficial purpose. It may also, in its discretion, prescribe, by order, forms of accounts, records and memoranda to be kept by such persons and corporations. Notice of alterations by the commission in the required method or form of keeping a system of accounts shall be given to such persons or corporations by the commission at least six months before the same shall take effect. Any other and additional forms of accounts, records and memoranda kept by such corporation shall be subject to examination by the commission.

[(5)] (7) Examine all persons and corporations under its supervision and keep informed as to the methods, practices, regulations and property employed by them in the transaction of their business. Whenever the commission shall be of the opinion, after a hearing had upon its own motion or upon complaint, that the rates or charges or the acts or regulations of any such persons or corporations are unjust, unreasonable, unjustly discriminatory or unduly preferential or in any wise in violation of any provision of law, the commission shall determine and prescribe the just and reasonable rates and charges thereafter to be in force for the service to be furnished, notwithstanding that a higher rate or charge has heretofore been authorized by statute, and the just and reasonable acts and regulations to be done and observed; and

whenever the commission shall be of the opinion, after a hearing had upon its own motion or upon complaints, that the property, equipment or appliances of any such person or corporation are unsafe, insufficient or inadequate, the commission shall determine and prescribe the safe, efficient and adequate property, equipment and appliances thereafter to be used, maintained and operated for the security and accommodation of the public and in compliance with the provisions of law and of their franchises and charters.

[(6)] (8) Require every person and corporation under its supervision and it shall be the duty of every person and corporation to file with the commission an annual report, verified by the oath of the president, treasurer, general manager or receiver, if any, thereof. The verification shall be made by said official holding office at the time of the filing of said report, and if not made upon the knowledge of the person verifying the same, shall set forth the sources of his information and the grounds of his belief as to any matters not stated to be verified upon his knowledge. The report shall show in detail the amount of its authorized capital stock and the amount thereof issued and outstanding; the amount of its authorized bonded indebtedness and the amount of its bonds and other forms of evidence of indebtedness issued and outstanding; its receipts and expenditures during the preceding year; the amount paid as dividends upon its stock and as interest upon its bonds; the names of its officers and the aggregate amount paid as salaries to them and the amount paid as wages to its employees; the location of its plant or plants and system, with a full description of its property and franchises, stating in detail how each franchise stated to be owned was acquired; and such other facts pertaining to the operation and maintenance of the plant and system, and the affairs of such person or corporation as may be required by the commission. Such reports shall be in the form, cover the period and be filed at the time prescribed by the commission. The commission may, from time to time, make changes

and additions in such forms. When any such report is defective or believed to be erroneous, the commission shall notify the person or corporation making such report to amend the same within a time prescribed by the commission. Any such person or corporation which shall neglect to make any such report or which shall fail to correct any such report within the time prescribed by the commission shall be liable to a penalty of one hundred dollars and an additional penalty of one hundred dollars for each day after the prescribed time for which it shall neglect to file or correct the same, to be sued for in the name of the state of Missouri. The amount recovered in any such action shall be paid to the public school fund of the state. The commission may extend the time prescribed for cause shown.

[(7)] (9) Have power, either through its members or inspectors or employees duly authorized by it, to enter in or upon and to inspect the property, buildings, plants, factories, powerhouses, ducts, conduits and offices of any such corporations or persons.

[(8)] (10) Have power to examine the accounts, books, contracts, records, documents and papers of any such corporation or person, and have power, after hearing, to prescribe by order the accounts in which particular outlays and receipts shall be entered, charged or credited.

[(9)] (11) Have power to compel, by subpoena duces tecum, the production of any accounts, books, contracts, records, documents, memoranda and papers. In lieu of requiring production of originals by subpoena duces tecum the commission or any commissioner may require sworn copies of any such books, records, contracts, documents and papers, or parts thereof, to be filed with it. The commission may require of all such corporations or persons specific answers to questions upon which the commission may need information, and may also require such corporations or persons to file periodic reports in the form, covering the period and filed at the time prescribed by the

commission. If such corporation or person shall fail to make specific answer to any question or shall fail to make a periodic report when required by the commission as herein provided within the time and in the form prescribed by the commission for the making and filing of any such report or answer, such corporation or person shall forfeit to the state the sum of one hundred dollars for each and every day it shall continue to be in default with respect to such report or answer. Such forfeiture shall be recovered in an action brought by the commission in the name of the state of Missouri. The amount recovered in any such action shall be paid to the public school fund of the state.

[(10)] (12) Have power in all parts of the state, either as a commission or through its members, to subpoena witnesses, take testimony and administer oaths to witnesses in any proceeding or examination instituted before it, or conducted by it, in reference to any matter under sections 393.110 to 393.285.

[(11)] (13) Have power to require every gas corporation, electrical corporation, water corporation, and sewer corporation to file with the commission and to print and keep open to public inspection schedules showing all rates and charges made, established or enforced or to be charged or enforced, all forms of contract or agreement and all rules and regulations relating to rates, charges or service used or to be used, and all general privileges and facilities granted or allowed by such gas corporation, electrical corporation, water corporation, or sewer corporation; but this subdivision shall not apply to state, municipal or federal contracts. Unless the commission otherwise orders, no change shall be made in any rate or charge, or in any form of contract or agreement, or any rule or regulation relating to any rate, charge or service, or in any general privilege or facility, which shall have been filed and published by a gas corporation, electrical corporation, water corporation, or sewer corporation in compliance with an order or decision of the commission,

except after thirty days' notice to the commission and publication for thirty days as required by order of the commission, which shall plainly state the changes proposed to be made in the schedule then in force and the time when the change will go into effect. The commission for good cause shown may allow changes without requiring the thirty days' notice under such conditions as it may prescribe. No corporation shall charge, demand, collect or receive a greater or less or different compensation for any service rendered or to be rendered than the rates and charges applicable to such services as specified in its schedule filed and in effect at the time; nor shall any corporation refund or remit in any manner or by any device any portion of the rates or charges so specified, nor to extend to any person or corporation any form of contract or agreement, or any rule or regulation, or any privilege or facility, except such as are regularly and uniformly extended to all persons and corporations under like circumstances. The commission shall have power to prescribe the form of every such schedule, and from time to time prescribe by order such changes in the form thereof as may be deemed wise. The commission shall also have power to establish such rules and regulations, to carry into effect the provisions of this subdivision, as it may deem necessary, and to modify and amend such rules or regulations from time to time.

[(12)] (14) In case any electrical corporation, gas corporation, water corporation or sewer corporation engaged in carrying on any other business than owning, operating or managing a gas plant, electric plant, water system or sewer system which other business is not otherwise subject to the jurisdiction of the commission, and is so conducted that its operations are to be substantially kept separate and apart from the owning, operating, managing or controlling of such gas plant, electric plant, water system or sewer system, said corporation in respect to such other business shall not be subject to any of the provisions of this chapter and shall not be required to procure the

consent or authorization of the commission to any act in such other business or to make any report in respect thereof. But this subdivision shall not restrict or limit the powers of the commission in respect to the owning, operating, managing or controlling by such corporation of such gas plant, electric plant, water system or sewer system, and said powers shall include also the right to inquire as to, and prescribe the apportionment of, capitalization, earnings, debts and expenses fairly and justly to be awarded to or borne by the ownership, operation, management or control of such gas plant, electric plant, water system or sewer system as distinguished from such other business. In any such case if the owning, operating, managing or controlling of such gas plant, electric plant, water system or sewer system by any such corporation is wholly subsidiary and incidental to the other business carried on by it and is inconsiderable in amount and not general in its character, the commission may by general rules exempt such corporation from making full reports and from the keeping of accounts as to such subsidiary and incidental business.”; and

Further amend the title and enacting clause accordingly.

“143.121. 1. The Missouri adjusted gross income of a resident individual shall be the taxpayer's federal adjusted gross income subject to the modifications in this section.

2. There shall be added to the taxpayer's federal adjusted gross income:

(a) The amount of any federal income tax refund received for a prior year which resulted in a Missouri income tax benefit;

(b) Interest on certain governmental obligations excluded from federal gross income by Section 103 of the Internal Revenue Code. The previous sentence shall not apply to interest on obligations of the state of Missouri or any of its political subdivisions or authorities and shall not apply to the interest described in subdivision (a) of subsection 3 of this section. The amount added pursuant to this paragraph shall be reduced by the amounts applicable to such interest that would have been deductible in computing the taxable income of the taxpayer except only for the application of Section 265 of the Internal Revenue Code. The reduction shall only be made if it is at least five hundred dollars;

(c) The amount of any deduction that is included in the computation of federal taxable income pursuant to Section 168 of the Internal Revenue Code as amended by the Job Creation and Worker Assistance Act of 2002 to the extent the amount deducted relates to property purchased on or after July 1, 2002, but before July 1, 2003, and to the extent the amount deducted exceeds the amount that would have been deductible pursuant to Section 168 of the Internal Revenue Code of 1986 as in effect on January 1, 2002; and

(d) The amount of any deduction that is included in the computation of federal taxable income for net operating loss allowed by Section 172 of the Internal Revenue Code of 1986, as

Any amount of net operating loss taken against federal taxable income but disallowed for Missouri income tax purposes pursuant to this paragraph after June 18, 2002, may be carried forward and taken against any income on the Missouri income tax return for a period of not more than twenty years from the year of the initial loss.

3. There shall be subtracted from the taxpayer's federal adjusted gross income the following amounts to the extent included in federal adjusted gross income:

(a) Interest or dividends on obligations of the United States and its territories and possessions or of any authority, commission or instrumentality of the United States to the extent exempt from Missouri income taxes pursuant to the laws of the United States. The reduction in the previous sentence shall only apply to the extent that such expenses including amortizable bond premiums are deducted in determining the taxpayer's federal adjusted gross income or included in the taxpayer's Missouri itemized deduction. The reduction shall only be made if the expenses total at least five hundred dollars;

If any taxpayer with a federal adjusted gross income of less than two hundred thousand dollars incurs tuition or fee expenses for enrollment of at least half time at a higher education institution, such taxpayer shall subtract from such taxpayer's federal adjusted gross income an amount equal to one hundred percent of such costs the taxpayer paid during the taxable year.

4. The department may promulgate such rules or regulations as are necessary to administer the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. (3) Select qualified recipients to receive academic scholarships, make such awards of academic scholarships to qualified recipients and determine the manner and method of payment to the recipient.

4. A student shall be eligible for initial or renewed academic scholarship if he or she is in compliance with the eligibility requirements set forth in section 173.215 excluding the requirement of financial need and undergraduate status, and in addition meets the following requirements:

Journal of the Senate

FIRST REGULAR SESSION

FIFTY-SEVENTH DAY—THURSDAY, APRIL 19, 2007

The Senate met pursuant to adjournment.

Senator Koster in the Chair.

Reverend Carl Gauck offered the following prayer:

“For the Lord is righteous; he loves righteous deeds; the upright shall behold his face.” (Psalm 11:7)

We know, O Lord that we are tired and that opens us up to say and do things we regret later; so help us do that which is righteous in Your sight and may our actions and deeds proclaim faithfulness to Your teaching as we complete the work before us so that we can return to those we love. May we never give up on those You have given us to love. Help us to do that which is right with them and for them and so to behold Your face. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

Journal of the Senate

FIRST REGULAR SESSION

FIFTY-EIGHTH DAY—MONDAY, APRIL 23, 2007

The Senate met pursuant to adjournment.

President Kinder in the Chair.

Reverend Carl Gauck offered the following prayer:

“Out of the depths I cry to you, O Lord.” (Psalm 130:1)

We join those who remember and mourn the deaths at Virginia Tech this day; knowing You, Our God, is present in the sadness that has touched our nation and brought fear to all parents of students home and away. Walk with the victims’ families and all who grieve, and let them know of Your presence and comforting care. Guide and direct our way this week and the work that must be done; treating each other with respect and courtesy, for we know each is Your child of great worth. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

The Journal for Thursday, April 19, 2007 was read and approved.

Further amend said bill by amending the title, enacting clause, and intersectional references accordingly.

(4) “Volunteer firefighter”, any firefighter in this state who is in the service of any fire department or fire protection district, including but not limited to any municipal, volunteer, rural, or subscription fire department or organization, or volunteer fire protection association, who receives no monetary compensation for the firefighter's services.

2. For all taxable years beginning on or after January 1, 2007, a taxpayer shall be allowed a tax credit as provided in this section. The tax credit authorized in this section shall be claimed as follows:

(1) The taxpayer may claim a tax credit in the amount of one hundred eighty dollars if the taxpayer has completed at least twelve hours of any firefighter training program approved by the office of the state fire marshal up to three years before or in the tax year for which the tax credit is claimed. The taxpayer may claim the tax credit authorized in this subdivision in each

subsequent tax year if the taxpayer completes at least twelve hours of any firefighter training program approved by the office of the state fire marshal, to include but not be limited to hazardous materials training and incident management systems training in such subsequent tax year; or

HOUSE AMENDMENT NO. 5

Amend House Committee Substitute for Senate Bill No. 30, Page 7, Section 71.012, by inserting after all of said section the following:

“82.875. 1. The governing body of any home rule city with more than one hundred thirteen thousand two hundred but fewer than one hundred thirteen thousand three hundred inhabitants may impose, by order or ordinance, a sales tax on all retail sales made within the city which are subject to sales tax under chapter 144, RSMo. The tax authorized in this section shall not exceed one percent of the gross receipts of such retail sales, may be imposed in increments of one-eighth of one percent, and shall be imposed solely for the purpose of funding police services provided by the police department of the city. The tax authorized in this section shall be in addition to all other sales taxes imposed by law, and shall be stated separately from all other charges and taxes.

2. No such order or ordinance adopted under this section shall become effective unless the governing body of the city submits to the voters residing within the city at a state general, primary, or special election a proposal to authorize the governing body of the city to impose a tax under this section. If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the question, then the tax shall become effective on the first day of the second calendar quarter

after the director of revenue receives notification of adoption of the local sales tax. If a majority of the votes cast on the question by the qualified voters voting thereon are opposed to the question, then the tax shall not become effective unless and until the question is resubmitted under this section to the qualified voters and such question is approved by a majority of the qualified voters voting on the question.

3. All revenue collected under this section by the director of the department of revenue on behalf of any city, except for one percent for the cost of collection which shall be deposited in the state's general revenue fund, shall be deposited in a special trust fund, which is hereby created and shall be known as the “City Police Services Sales Tax Fund”, and shall be used solely for the designated purposes. Moneys in the fund shall not be deemed to be state funds, and shall not be commingled with any funds of the state. The director may make refunds from the amounts in the trust fund and credited to the city for erroneous payments and overpayments made, and may redeem dishonored checks and drafts deposited to the credit of such city. Any funds in the special trust fund which are not needed for current expenditures shall be invested in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

4. The governing body of any city that has adopted the sales tax authorized in this section may submit the question of repeal of the tax to the voters on any date available for elections for the city. If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the repeal, that repeal shall become effective on December thirty-first of the calendar year in which such repeal was approved. If a majority of the votes cast on the question by the qualified voters voting thereon are opposed to the repeal, then the sales tax

authorized in this section shall remain effective until the question is resubmitted under this section to the qualified voters and the repeal is approved by a majority of the qualified voters voting on the question.

5. Whenever the governing body of any city that has adopted the sales tax authorized in this section receives a petition, signed by a number of registered voters of the city equal to at least two percent of the number of registered voters of the city voting in the last gubernatorial election, calling for an election to repeal the sales tax imposed under this section, the governing body shall submit to the voters of the city a proposal to repeal the tax. If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the repeal, the repeal shall become effective on December thirty-first of the calendar year in which such repeal was approved. If a majority of the votes cast on the question by the qualified voters voting thereon are opposed to the repeal, then the sales tax authorized in this section shall remain effective until the question is resubmitted under this section to the qualified voters and the repeal is approved by a majority of the qualified voters voting on the question.

6. If the tax is repealed or terminated by any means, all funds remaining in the special trust fund shall continue to be used solely for the designated purposes, and the city shall notify the director of the department of revenue of the action at least ninety days before the effective date of the repeal and the director may order retention in the trust fund, for a period of one year, of two percent of the amount collected after receipt of such notice to cover possible refunds or overpayment of the tax and to redeem dishonored checks and drafts deposited to the credit of such accounts. After one year has elapsed after the effective date of abolition of the tax in such city, the director shall remit the balance in the account to the city and close

the account of that city. The director shall notify each city of each instance of any amount refunded or any check redeemed from receipts due the city.”; and

Further amend said bill by amending the title, enacting clause, and intersectional references accordingly.

HOUSE AMENDMENT NO. 6

Amend House Committee Substitute for Senate Bill No. 30, Page 26, Section 208.755, by inserting after all of said section the following:

“238.410. 1. Any county transit authority established pursuant to section 238.400 may impose a sales tax of up to one percent on all retail sales made in such county which are subject to taxation under the provisions of sections 144.010 to 144.525, RSMo. The tax authorized by this section shall be in addition to any and all other sales taxes allowed by law, except that no sales tax imposed under the provisions of this section shall be effective unless the governing body of the county, on behalf of the transit authority, submits to the voters of the county, at a county or state general, primary or special election, a proposal to authorize the transit authority to impose a tax.

2. The ballot of submission shall contain, but need not be limited to, the following language:

Shall the Transit Authority impose a countywide sales tax of (insert amount) in order to provide revenues for the operation of transportation facilities operated by the transit authority?

☐ YES

☐ NO

If you are in favor of the question, place an “X” in the box opposite “YES”. If you are opposed to the question, place an “X” in the box opposite “NO”.

If a majority of the votes cast on the proposal by the qualified voters voting thereon are in favor of the proposal, then the tax shall become effective on the first day of the second calendar quarter following notification to the department of revenue

of adoption of the tax. If a majority of the votes cast by the qualified voters voting are opposed to the proposal, then the transit authority shall have no power to impose the sales tax authorized by this section unless and until another proposal to authorize the transit authority to impose the sales tax authorized by this section has been submitted and such proposal is approved by a majority of the qualified voters voting thereon.

3. All revenue received by the transit authority from the tax authorized under the provisions of this section shall be deposited in a special trust fund and shall be used solely by the transit authority for construction, purchase, lease, maintenance and operation of transportation facilities located within the county for so long as the tax shall remain in effect. Any funds in such special trust fund which are not needed for current expenditures may be invested by the transit authority in accordance with applicable laws relating to the investment of county funds.

4. No transit authority imposing a sales tax pursuant to this section may repeal or amend such sales tax unless such repeal or amendment is submitted to and approved by the voters of the county in the same manner as provided in subsection 1 of this section for approval of such tax. Whenever the governing body of any county in which a sales tax has been imposed in the manner provided by this section receives a petition, signed by ten percent of the registered voters of such county voting in the last gubernatorial election, calling for an election to repeal such sales tax, the governing body shall submit to the voters of such county a proposal to repeal the sales tax imposed under the provisions of this section. If a majority of the votes cast on the proposal by the registered voters voting thereon are in favor of the proposal to repeal the sales tax, then such sales tax is repealed. If a majority of the votes cast by the registered voters voting thereon are opposed to the proposal to repeal the sales tax, then such sales tax shall remain in effect.

5. The sales tax imposed under the provisions of this section shall impose upon all sellers a tax for the privilege of engaging in the business of selling tangible personal property or rendering taxable services at retail to the extent and in the manner provided in sections 144.010 to 144.525, RSMo, and the rules and regulations of the director of revenue issued pursuant thereto; except that the rate of the tax shall be the rate approved pursuant to this section. The amount reported and returned to the director of revenue by the seller shall be computed on the basis of the combined rate of the tax imposed by sections 144.010 to 144.525, RSMo, and the tax imposed by this section, plus any amounts imposed under other provisions of law.

6. After the effective date of any tax imposed under the provisions of this section, the director of revenue shall perform all functions incident to the administration, collection, enforcement, and operation of the tax, and the director of revenue shall collect in addition to the sales tax for the state of Missouri the additional tax authorized under the authority of this section. The tax imposed under this section and the tax imposed under the sales tax law of the state of Missouri shall be collected together and reported upon such forms and under such administrative rules and regulations as may be prescribed by the director of revenue. In order to permit sellers required to collect and report the sales tax to collect the amount required to be reported and remitted, but not to change the requirements of reporting or remitting tax or to serve as a levy of the tax, and in order to avoid fractions of pennies, the applicable provisions of section 144.285, RSMo, shall apply to all taxable transactions.

7. All applicable provisions contained in sections 144.010 to 144.525, RSMo, governing the state sales tax and section 32.057, RSMo, the uniform confidentiality provision, shall apply to the collection of the tax imposed by this section, except as modified in this section. All exemptions

granted to agencies of government, organizations, persons and to the sale of certain articles and items of tangible personal property and taxable services under the provisions of sections 144.010 to 144.525, RSMo, are hereby made applicable to the imposition and collection of the tax imposed by this section. The same sales tax permit, exemption certificate and retail certificate required by sections 144.010 to 144.525, RSMo, for the administration and collection of the state sales tax shall satisfy the requirements of this section, and no additional permit or exemption certificate or retail certificate shall be required; except that the director of revenue may prescribe a form of exemption certificate for an exemption from the tax imposed by this section. All discounts allowed the retailer under the provisions of the state sales tax law for the collection of and for payment of taxes under chapter 144, RSMo, are hereby allowed and made applicable to any taxes collected under the provisions of this section. The penalties provided in section 32.057, RSMo, and sections 144.010 to 144.525, RSMo, for a violation of those sections are hereby made applicable to violations of this section.

8. For the purposes of a sales tax imposed pursuant to this section, all retail sales shall be deemed to be consummated at the place of business of the retailer, except for tangible personal property sold which is delivered by the retailer or his agent to an out-of-state destination or to a common carrier for delivery to an out-of-state destination and except for the sale of motor vehicles, trailers, boats and outboard motors, which is provided for in subsection 12 of this section. In the event a retailer has more than one place of business in this state which participates in the sale, the sale shall be deemed to be consummated at the place of business of the retailer where the initial order for the tangible personal property is taken, even though the order must be forwarded elsewhere for acceptance, approval of credit, shipment or billing. A sale by a retailer's employee shall be deemed to be

consummated at the place of business from which he works.

9. All sales taxes collected by the director of revenue under this section on behalf of any transit authority, less one percent for cost of collection which shall be deposited in the state's general revenue fund after payment of premiums for surety bonds as provided in this section, shall be deposited in the state treasury in a special trust fund, which is hereby created, to be known as the "County Transit Authority Sales Tax Trust Fund". The moneys in the county transit authority sales tax trust fund shall not be deemed to be state funds and shall not be commingled with any funds of the state. The director of revenue shall keep accurate records of the amount of money in the trust fund which was collected in each transit authority imposing a sales tax under this section, and the records shall be open to the inspection of officers of the county and the public. Not later than the tenth day of each month the director of revenue shall distribute all moneys deposited in the trust fund during the preceding month to the transit authority which levied the tax.

10. The director of revenue may authorize the state treasurer to make refunds from the amounts in the trust fund and credited to any transit authority for erroneous payments and overpayments made, and may authorize the state treasurer to redeem dishonored checks and drafts deposited to the credit of such transit authorities. If any transit authority abolishes the tax, the transit authority shall notify the director of revenue of the action at least ninety days prior to the effective date of the repeal and the director of revenue may order retention in the trust fund, for a period of one year, of two percent of the amount collected after receipt of such notice to cover possible refunds or overpayment of the tax and to redeem dishonored checks and drafts deposited to the credit of such accounts. After one year has elapsed after the effective date of abolition of the tax in such transit authority, the director of revenue shall authorize

the state treasurer to remit the balance in the account to the transit authority and close the account of that transit authority. The director of revenue shall notify each transit authority of each instance of any amount refunded or any check redeemed from receipts due the transit authority. The director of revenue shall annually report on his management of the trust fund and administration of the sales taxes authorized by this section. He shall provide each transit authority imposing the tax authorized by this section with a detailed accounting of the source of all funds received by him for the transit authority.

11. The director of revenue and any of his deputies, assistants and employees, who shall have any duties or responsibilities in connection with the collection, deposit, transfer, transmittal, disbursement, safekeeping, accounting, or recording of funds which come into the hands of the director of revenue under the provisions of this section shall enter a surety bond or bonds payable to any and all transit authorities in whose behalf such funds have been collected under this section in the amount of one hundred thousand dollars; but the director of revenue may enter into a blanket bond or bonds covering himself and all such deputies, assistants and employees. The cost of the premium or premiums for the surety bond or bonds shall be paid by the director of revenue from the share of the collection retained by the director of revenue for the benefit of the state.

12. Sales taxes imposed pursuant to this section and use taxes on the purchase and sale of motor vehicles, trailers, boats, and outboard motors shall not be collected and remitted by the seller, but shall be collected by the director of revenue at the time application is made for a certificate of title, if the address of the applicant is within a county where a sales tax is imposed under this section. The amounts so collected, less the one percent collection cost, shall be deposited in the county transit authority sales tax trust fund. The purchase or sale of motor vehicles, trailers, boats,

and outboard motors shall be deemed to be consummated at the address of the applicant. As used in this subsection, the term "boat" shall only include motorboats and vessels as the terms "motorboat" and "vessel" are defined in section 306.010, RSMo.

13. In any county where the transit authority sales tax has been imposed, if any person is delinquent in the payment of the amount required to be paid by him under this section or in the event a determination has been made against him for taxes and penalty under this section, the limitation for bringing suit for the collection of the delinquent tax and penalty shall be the same as that provided in sections 144.010 to 144.525, RSMo. Where the director of revenue has determined that suit must be filed against any person for the collection of delinquent taxes due the state under the state sales tax law, and where such person is also delinquent in payment of taxes under this section, the director of revenue shall notify the transit authority to which delinquent taxes are due under this section by United States registered mail or certified mail at least ten days before turning the case over to the attorney general. The transit authority, acting through its attorney, may join in such suit as a party plaintiff to seek a judgment for the delinquent taxes and penalty due such transit authority. In the event any person fails or refuses to pay the amount of any sales tax due under this section, the director of revenue shall promptly notify the transit authority to which the tax would be due so that appropriate action may be taken by the transit authority.

14. Where property is seized by the director of revenue under the provisions of any law authorizing seizure of the property of a taxpayer who is delinquent in payment of the tax imposed by the state sales tax law, and where such taxpayer is also delinquent in payment of any tax imposed by this section, the director of revenue shall permit the transit authority to join in any sale of property to pay the delinquent taxes and penalties due the

state and to the transit authority under this section. The proceeds from such sale shall first be applied to all sums due the state, and the remainder, if any, shall be applied to all sums due such transit authority under this section.

15. The transit authority created under the provisions of sections 238.400 to 238.412 shall notify any and all affected businesses of the change in tax rate caused by the imposition of the tax authorized by sections 238.400 to 238.412.

16. In the event that any transit authority in any county with a charter form of government and with more than two hundred fifty thousand but fewer than three hundred fifty thousand inhabitants submits a proposal in any election to increase the sales tax under this section, and such proposal is approved by the voters, the county shall be reimbursed for the costs of submitting such proposal from the funds derived from the tax levied under this section.”; and

following:

“135.010. As used in sections 135.010 to 135.030 the following words and terms mean:

(1) “Claimant”, a person or persons claiming a credit under sections 135.010 to 135.030. If the persons are eligible to file a joint federal income tax return and reside at the same address at any time during the taxable year, then the credit may only be allowed if claimed on a combined Missouri income tax return or a combined claim return reporting their combined incomes and property taxes. A claimant shall not be allowed a property tax credit unless the claimant or spouse has attained the age of sixty-five on or before the last day of the calendar year and the claimant or spouse was a resident of Missouri for the entire year, or the claimant or spouse is a veteran of any branch of the armed forces of the United States or this state who became one hundred percent disabled as a result of such service, or the claimant or spouse is disabled as defined in subdivision (2) of this section, and such claimant or spouse provides proof of such disability in such form and manner, and at such times, as the director of revenue may require, or if the claimant has reached the age of sixty on or before the last day of the calendar year and such claimant received surviving spouse Social Security benefits during the calendar year and the claimant provides proof, as required by the director of revenue, that the claimant received surviving spouse Social Security benefits during the calendar year for which the credit will be claimed. A claimant shall not be allowed a property tax credit if the claimant filed a valid claim for a credit under section 137.106, RSMo, in the year following the year for which the property tax credit is claimed. The residency requirement shall be deemed to have been fulfilled for the purpose of determining the eligibility of a surviving spouse for a property tax credit if a person of the age of sixty-five years or older who would have otherwise met the requirements for a property tax credit dies before the last day of the calendar year. The residency

requirement shall also be deemed to have been fulfilled for the purpose of determining the eligibility of a claimant who would have otherwise met the requirements for a property tax credit but who dies before the last day of the calendar year;

(2) "Disabled", the inability to engage in any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than twelve months. A claimant shall not be required to be gainfully employed prior to such disability to qualify for a property tax credit;

(3) "Gross rent", amount paid by a claimant to a landlord for the rental, at arm's length, of a homestead during the calendar year, exclusive of charges for health and personal care services and food furnished as part of the rental agreement, whether or not expressly set out in the rental agreement. If the director of revenue determines that the landlord and tenant have not dealt at arm's length, and that the gross rent is excessive, then [he] **the director** shall determine the gross rent based upon a reasonable amount of rent. Gross rent shall be deemed to be paid only if actually paid prior to the date a return is filed. The director of revenue may prescribe regulations requiring a return of information by a landlord receiving rent, certifying for a calendar year the amount of gross rent received from a tenant claiming a property tax credit and shall, by regulation, provide a method for certification by the claimant of the amount of gross rent paid for any calendar year for which a claim is made. The regulations authorized by this subdivision may require a landlord or a tenant or both to provide data relating to health and personal care services and to food. Neither a landlord nor a tenant may be required to provide data relating to utilities, furniture, home furnishings or appliances;

(4) "Homestead", the dwelling in Missouri owned or rented by the claimant and not to exceed five acres of land surrounding it as is reasonably

necessary for use of the dwelling as a home. It may consist of part of a multidwelling or multipurpose building and part of the land upon which it is built. "Owned" includes a vendee in possession under a land contract and one or more tenants by the entireties, joint tenants, or tenants in common and includes a claimant actually in possession if he was the immediate former owner of record, if a lineal descendant is presently the owner of record, and if the claimant actually pays all taxes upon the property. It may include a mobile home;

(5) "Income", Missouri adjusted gross income as defined in section 143.121, RSMo, less [two] **four** thousand dollars as an exemption for the claimant's spouse residing at the same address, and increased, where necessary, to reflect the following:

(a) Social Security, railroad retirement, and veterans payments and benefits unless the claimant is a one hundred percent service-connected, disabled veteran or a spouse of a one hundred percent service-connected, disabled veteran. The one hundred percent service-connected disabled veteran shall not be required to list veterans payments and benefits;

(b) The total amount of all other public and private pensions and annuities;

(c) Public relief, public assistance, and unemployment benefits received in cash, other than benefits received under this chapter;

(d) No deduction being allowed for losses not incurred in a trade or business;

(e) Interest on the obligations of the United States, any state, or any of their subdivisions and instrumentalities;

(6) "Property taxes accrued", property taxes paid, exclusive of special assessments, penalties, interest, and charges for service levied on a claimant's homestead in any calendar year. Property taxes shall qualify for the credit only if actually paid prior to the date a return is filed. The director of revenue shall require a tax receipt or

other proof of property tax payment. If a homestead is owned only partially by claimant, then “property taxes accrued” is that part of property taxes levied on the homestead which was actually paid by the claimant. For purposes of this subdivision, property taxes are “levied” when the tax roll is delivered to the director of revenue for collection. If a claimant owns a homestead part of the preceding calendar year and rents it or a different homestead for part of the same year, “property taxes accrued” means only taxes levied on the homestead both owned and occupied by the claimant, multiplied by the percentage of twelve months that such property was owned and occupied as the homestead of the claimant during the year. When a claimant owns and occupies two or more different homesteads in the same calendar year, property taxes accrued shall be the sum of taxes allocable to those several properties occupied by the claimant as a homestead for the year. If a homestead is an integral part of a larger unit such as a farm, or multipurpose or multidwelling building, property taxes accrued shall be that percentage of the total property taxes accrued as the value of the homestead is of the total value. For purposes of this subdivision “unit” refers to the parcel of property covered by a single tax statement of which the homestead is a part;

(7) “Rent constituting property taxes accrued”, twenty percent of the gross rent paid by a claimant and spouse in the calendar year.

135.030. 1. As used in this section:

(1) [The term “maximum upper limit” shall, in the calendar year 1989, be the sum of thirteen thousand five hundred dollars. For each calendar year through December 31, 1992, the maximum upper limit shall be increased by five hundred dollars per year. For calendar years after December 31, 1992, and prior to calendar year 1998, the maximum upper limit shall be the sum used on December 31, 1992.] For each calendar year after December 31, 1997, **and before calendar year 2007**, the term “maximum upper limit” shall be the sum of twenty-five thousand dollars. **For the**

calendar year beginning on January 1, 2007, the maximum upper limit shall be the sum of thirty thousand dollars, and for all subsequent calendar years such limit shall be increased in one-hundred-dollar increments on the first day of January in each year by the same percentage of increase in the Consumer Price Index for All Urban Consumers, as published by the Bureau of Labor Statistics of the United States Department of Labor, or its successor index;

(2) [The term “minimum base” shall, in the calendar year 1989, be the sum of five thousand dollars. For each succeeding calendar year through December 31, 1992, the minimum base shall be increased, in one hundred-dollar increments, by the same percentage as the increase in the general price level as measured by the Consumer Price Index for All Urban Consumers for the United States, or its successor index, as defined and officially recorded by the United States Department of Labor, or its successor agency, or five percent, whichever is greater. The increase in the index shall be that as first published by the Department of Labor for the calendar year immediately preceding the year in which the minimum base is calculated. For calendar years after December 31, 1992, and prior to calendar year 1998, the minimum base shall be the sum used on December 31, 1992.] For each calendar year after December 31, 1997, **and before calendar year 2007**, the term “minimum base” shall be the sum of thirteen thousand dollars. **For the calendar year beginning on January 1, 2007, the minimum base shall be the sum of eighteen thousand dollars, and for all subsequent calendar years such base shall be increased in one-hundred-dollar increments on the first day of January in each year by the same percentage of increase in the Consumer Price Index for All Urban Consumers, as published by the Bureau of Labor Statistics of the United States Department of Labor, or its successor index.**

2. When calculating the **maximum upper limit and the minimum base** for purposes of this

section, whenever the increase in the Consumer Price Index used in the calculation would result in a figure which is greater than one one-hundred-dollar increment but less than another one-hundred-dollar increment, the director of revenue shall always round that figure off to the next higher one-hundred-dollar increment when determining the table of credits under this section.

3. If the income on a return is equal to or less than the maximum upper limit for the calendar year for which the return is filed, the property tax credit shall be determined from a table of credits based upon the amount by which the total property tax described in section 135.025 exceeds the percent of income in the following list:

If the income on the return is: The percent is:

Not over the minimum base	0 percent with credit not to exceed actual property tax or rent equivalent paid up to \$750
Over the minimum base but not over the maximum upper limit	[1/16] 1/32 percent accumulative per \$300 from 0 percent to 4 percent.

The director of revenue shall prescribe a table based upon the preceding sentences. The property tax shall be in increments of twenty-five dollars and the income in increments of three hundred dollars. The credit shall be the amount rounded to the nearest whole dollar computed on the basis of the property tax and income at the midpoints of each increment. As used in this subsection, the term "accumulative" means an increase by continuous or repeated application of the percent to the income increment at each three hundred dollar level.

4. Notwithstanding [the provision of] subsection 4 of section 32.057, RSMo, the

department of revenue or any duly authorized employee or agent shall determine whether any taxpayer filing a report or return with the department of revenue who has not applied for the credit allowed pursuant to section 135.020 may qualify for the credit, and shall notify any qualified claimant of [his or her] **the claimant's** potential eligibility, where the department determines such potential eligibility exists.

135.634. 1. As used in this section, the following terms mean:

(1) "Tax credit", a credit against the tax otherwise due under chapter 143, RSMo, excluding withholding tax imposed by sections 143.191 to 143.265, RSMo;

(2) "Taxpayer", any individual subject to the tax imposed in chapter 143, RSMo, excluding withholding tax imposed by sections 143.191 to 143.265, RSMo, and who is eligible for the federal earned income credit.

2. For all taxable years beginning on or after January 1, 2007, a taxpayer shall be allowed a tax credit for income earned by the taxpayer. The tax credit amount shall be equal to twenty percent of the amount of any federal earned income credit claimed by the taxpayer in the tax year for which the tax credit is claimed. The amount of the tax credit issued shall not exceed the amount of the taxpayer's state tax liability for the tax year for which the credit is claimed. No amount of credit that the taxpayer is prohibited by this section from claiming in a tax year shall be refundable, nor shall any tax credit granted under this section be transferred, sold, or assigned.

3. The department of revenue may promulgate rules to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if

applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2007, shall be invalid and void.

4. Under section 23.253, RSMo, of the Missouri Sunset Act:

(1) The provisions of the new program authorized under this section shall automatically sunset on December thirty-first six years after the effective date of this section unless reauthorized by an act of the general assembly; and

(2) If such program is reauthorized, the program authorized under this section shall automatically sunset on December thirty-first twelve years after the effective date of the reauthorization of this section; and

(3) This section shall terminate on September first of the calendar year immediately following the calendar year in which the program authorized under this section is sunset.”; and

Further amend said bill, Section 143.006, Page 9, Line 15, by inserting after all of said section, the following:

“143.126. 1. As used in this section, “taxpayer” means any resident individual who is sixty-five years of age or older and whose Missouri adjusted gross income is either:

(1) Forty thousand dollars or less if the taxpayer's filing status is single, head of household, or married filing separately; or

(2) Fifty thousand dollars or less if the taxpayer's filing status is married filing combined.

2. For all taxable years beginning on or after January 1, 2007, any taxpayer shall be allowed to subtract from the taxpayer's Missouri adjusted gross income to determine Missouri taxable income an amount equal to the amount of any Social Security benefits or Social Security disability benefits received by the taxpayer and that are included in federal adjusted gross income under Section 86 of the Internal Revenue Code of 1986, as amended.

3. The director of the department of revenue may promulgate rules to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2007, shall be invalid and void.

4. Under section 23.253, RSMo, of the Missouri sunset act:

(1) The provisions of the new program authorized under this section shall automatically sunset six years after the effective date of this section unless reauthorized by an act of the general assembly; and

(2) If such program is reauthorized, the program authorized under this section shall automatically sunset twelve years after the effective date of the reauthorization of this section; and

(3) This section shall terminate on December thirty-first of the calendar year immediately following the calendar year in

which the program authorized under this section is sunset.”; and

[For applications filed in 2005 or 2006, the homestead exemption limit shall be based on the increase to tax liability from 2004 to 2005. For applications filed between April 1, 2005, and September 30, 2006, an eligible owner, who otherwise satisfied the requirements of this section, shall not apply for the homestead exemption credit more than once during such period.] For applications filed [after 2006] **in 2007**, the homestead exemption limit shall be based on the increase to tax liability from two years prior to application to the year immediately prior to application. **For applications filed after 2007, the homestead exemption limit shall be based on the increase to tax liability from the base year to the year prior to the application year. Pursuant to article X, section 6(a) of the Constitution of Missouri, if in the prior tax year, the property tax liability on any parcel of subclass (1) real property increased by more than the homestead exemption limit, without regard for any prior credit received due to the provisions of this section, then any eligible owner of the property shall receive a homestead exemption credit to be applied in the current tax year property tax liability to offset the prior year increase to tax liability that exceeds the homestead exemption limit, except as eligibility for the credit is limited by the provisions of this section. The amount of the credit shall be listed separately on each taxpayer's tax bill for the current tax year, or on a document enclosed with the taxpayer's bill. The homestead exemption credit shall not affect the process of setting the tax rate as required pursuant to article X, section 22 of the Constitution of Missouri and section 137.073 in any prior, current, or subsequent tax year.

4. [If application is made in 2005, any potential eligible owner may apply for the homestead exemption credit by completing an application through their local assessor's office. 5. If application is made in 2005, the assessor, upon request for an application, shall:

(2) Obtain appropriate prior tax year levy codes for each homestead from the county clerks for inclusion on the form;

(3) Record on the application the assessed valuation of the homestead for the current tax year, and any new construction or improvements for the current tax year; and

(4) Sign the application, certifying the accuracy of the assessor's entries.

6. If application is made after 2005,] Any potential eligible owner may apply for the homestead exemption credit by completing an application. Applications may be completed between April first and October fifteenth of any tax

year in order for the taxpayer to be eligible for the homestead exemption credit in the tax year next following the calendar year in which the homestead exemption credit application was completed. The application shall be on forms provided by the department. Forms also shall be made available on the department's Internet site and at all permanent branch offices and all full-time, temporary, or fee offices maintained by the department of revenue. The applicant shall also include with the application copies of receipts indicating payment of property tax by the applicant for the homestead property for the three prior tax years.

[7.] **5.** Each applicant shall send the application to the department by [September thirtieth] **October fifteenth** of each year for the taxpayer to be eligible for the homestead exemption credit in the tax year next following the calendar year in which the application was completed.

[8. If application is made in 2005, upon receipt of the applications, the department shall calculate the tax liability, adjusted to exclude new construction or improvements verify compliance with the maximum income limit, verify the age of the applicants, and make adjustments to these numbers as necessary on the applications. The department also shall disallow any application where the applicant has also filed a valid application for the senior citizens property tax

credit, pursuant to sections 135.010 to 135.035, RSMo. Once adjusted tax liability, age, and income are verified, the director shall determine eligibility for the credit, and provide a list of all verified eligible owners to the county collectors or county clerks in counties with a township form of government by December fifteenth of each year. By January fifteenth, the county collectors or county clerks in counties with a township form of government shall provide a list to the department of any verified eligible owners who failed to pay the property tax due for the tax year that ended immediately prior. Such eligible owners shall be disqualified from receiving the credit in the current tax year.

9. If application is made after 2005,] **6.** Upon receipt of the applications, the department shall calculate the tax liability, verify compliance with the maximum income limit, verify the age of the applicants, and make adjustments to these numbers as necessary on the applications. The department also shall disallow any application where the applicant also has filed a valid application for the senior citizens property tax credit under sections 135.010 to 135.035, RSMo. Once adjusted tax liability, age, and income are verified, the director shall determine eligibility for the credit and provide a list of all verified eligible owners to the county assessors or county clerks in counties with a township form of government by December fifteenth of each year. By January fifteenth, the county assessors shall provide a list to the department of any verified eligible owners who made improvements not for accommodation of a disability to the homestead and the dollar amount of the assessed value of such improvements. If the dollar amount of the assessed value of such improvements totaled more than five percent of the prior year appraised value, such eligible owners shall be disqualified from receiving the credit in the current tax year.

[10.] **7.** The director shall calculate the level of appropriation necessary [to] **and** set the homestead exemption limit at five percent when

based on a year of general reassessment or at two and one-half percent when based on a year without general reassessment for the homesteads of all verified eligible owners, and provide such calculation to the speaker of the house of representatives, the president pro tempore of the senate, and the director of the office of budget and planning in the office of administration by January thirty-first of each year.

[11. For applications made in 2005, the general assembly shall make an appropriation for the funding of the homestead exemption credit that is signed by the governor, then the director shall, by July thirty-first of such year, set the homestead exemption limit. The limit shall be a single, statewide percentage increase to tax liability, rounded to the nearest hundredth of a percent, which, if applied to all homesteads of verified eligible owners who applied for the homestead exemption credit in the immediately prior tax year, would cause all but one-quarter of one percent of the amount of the appropriation, minus any withholding by the governor, to be distributed during that fiscal year. The remaining one-quarter of one percent shall be distributed to the county assessment funds of each county on a proportional basis, based on the number of eligible owners in each county; such one-quarter percent distribution shall be delineated in any such appropriation as a separate line item in the total appropriation.]

8. If no appropriation is made by the general assembly during any tax year or no funds are actually distributed pursuant to any appropriation therefor, then no homestead preservation credit shall apply in such year.

[12. After setting the homestead exemption limit for applications made in 2005, the director shall apply the limit to the homestead of each verified eligible owner and calculate the credit to be associated with each verified eligible owner's homestead, if any. The director shall send a list of those eligible owners who are to receive the homestead exemption credit, including the amount

of each credit, the certified parcel number of the homestead, and the address of the homestead property, to the county collectors or county clerks in counties with a township form of government by August thirty-first. Pursuant to such calculation, the director shall instruct the state treasurer as to how to distribute the appropriation and assessment fund allocation to the county collector's funds of each county or the treasurer ex officio collector's fund in counties with a township form of government where recipients of the homestead exemption credit are located, so as to exactly offset each homestead exemption credit being issued, plus the one-quarter of one percent distribution for the county assessment funds. As a result of the appropriation, in no case shall a political subdivision receive more money than it would have received absent the provisions of this section plus the one-quarter of one percent distribution for the county assessment funds. Funds, at the direction of the county collector or the treasurer ex officio collector in counties with a township form of government, shall be deposited in the county collector's fund of a county or the treasurer ex officio collector's fund or may be sent by mail to the collector of a county, or the treasurer ex officio collector in counties with a township form of government, not later than October first in any year a homestead exemption credit is appropriated as a result of this section and shall be distributed as moneys in such funds are commonly distributed from other property tax revenues by the collector of the county or the treasurer ex officio collector of the county in counties with a township form of government, so as to exactly offset each homestead exemption credit being issued. In counties with a township form of government, the county clerk shall provide the treasurer ex officio collector a summary of the homestead exemption credit for each township for the purpose of distributing the total homestead exemption credit to each township collector in a particular county.

13.] 9. If, in any given year after 2005, the general assembly shall make an appropriation for

the funding of the homestead exemption credit that is signed by the governor, then the director shall[, by July thirty-first of such year, set the homestead exemption limit. The limit shall be a single, statewide percentage increase to tax liability, rounded to the nearest hundredth of a percent, which, if applied to all homesteads of verified eligible owners who applied for the homestead exemption credit in the immediately prior tax year, would cause all of the amount of the appropriation, minus any withholding by the governor, to be distributed during that fiscal year] **determine the apportionment percentage by equally apportioning the appropriation among all eligible applicants on a percentage basis.** If no appropriation is made by the general assembly during any tax year or no funds are actually distributed pursuant to any appropriation therefor, then no homestead preservation credit shall apply in such year.

[14.] **10.** After [setting the homestead exemption limit for applications made after 2005, the director shall apply the limit to the homestead of each verified eligible owner and] **determining the apportionment percentage, the director shall** calculate the credit to be associated with each verified eligible owner's homestead, if any. The director shall send a list of those eligible owners who are to receive the homestead exemption credit, including the amount of each credit, the certified parcel number of the homestead, and the address of the homestead property, to the county collectors or county clerks in counties with a township form of government by August thirty-first. Pursuant to such calculation, the director shall instruct the state treasurer as to how to distribute the appropriation to the county collector's fund of each county where recipients of the homestead exemption credit are located, so as to exactly offset each homestead exemption credit being issued. As a result of the appropriation, in no case shall a political subdivision receive more money than it would have received absent the provisions of this section. Funds, at the direction of the collector of the

county or treasurer ex officio collector in counties with a township form of government, shall be deposited in the county collector's fund of a county or may be sent by mail to the collector of a county, or treasurer ex officio collector in counties with a township form of government, not later than October first in any year a homestead exemption credit is appropriated as a result of this section and shall be distributed as moneys in such funds are commonly distributed from other property tax revenues by the collector of the county or the treasurer ex officio collector of the county in counties with a township form of government, so as to exactly offset each homestead exemption credit being issued.

[15.] **11.** The department shall promulgate rules for implementation of this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2004, shall be invalid and void. Any rule promulgated by the department shall in no way impact, affect, interrupt, or interfere with the performance of the required statutory duties of any county elected official, more particularly including the county collector when performing such duties as deemed necessary for the distribution of any homestead appropriation and the distribution of all other real and personal property taxes.

[16.] **12.** In the event that an eligible owner dies or transfers ownership of the property after the homestead exemption limit has been set in any given year, but prior to January first of the year in which the credit would otherwise be applied, the

credit shall be void and any corresponding moneys[, pursuant to subsection 12 of this section,] shall lapse to the state to be credited to the general revenue fund. In the event the collector of the county or the treasurer ex officio collector of the county in counties with a township form of government determines prior to issuing the credit that the individual is not an eligible owner because the individual did not pay the prior three years' property tax liability in full, the credit shall be void and any corresponding moneys[, under subsection 11 of this section,] shall lapse to the state to be credited to the general revenue fund.

[17. This section shall apply to all tax years beginning on or after January 1, 2005. This subsection shall become effective June 28, 2004.

18.] **13.** In accordance with the provisions of sections 23.250 to 23.298, RSMo, and unless otherwise authorized pursuant to section 23.253, RSMo:

(1) Any new program authorized under the provisions of this section shall automatically sunset six years after the effective date of this section; and

(2) This section shall terminate on September first of the year following the year in which any new program authorized under this section is sunset, and the revisor of statutes shall designate such sections and this section in a revision bill for repeal.”; and

FOR HOUSE AMENDMENT NO. 16

Amend House Committee Substitute for Senate Bill No. 30, Section 143.006, Page 9, Line

15, by inserting after all of said section, the following:

“143.121. 1. The Missouri adjusted gross income of a resident individual shall be the taxpayer's federal adjusted gross income subject to the modifications in this section.

2. There shall be added to the taxpayer's federal adjusted gross income:

(a) The amount of any federal income tax refund received for a prior year which resulted in a Missouri income tax benefit;

(b) Interest on certain governmental obligations excluded from federal gross income by Section 103 of the Internal Revenue Code. The previous sentence shall not apply to interest on obligations of the state of Missouri or any of its political subdivisions or authorities and shall not apply to the interest described in subdivision (a) of subsection 3 of this section. The amount added pursuant to this paragraph shall be reduced by the amounts applicable to such interest that would have been deductible in computing the taxable income of the taxpayer except only for the application of Section 265 of the Internal Revenue Code. The reduction shall only be made if it is at least five hundred dollars;

(c) The amount of any deduction that is included in the computation of federal taxable income pursuant to Section 168 of the Internal Revenue Code as amended by the Job Creation and Worker Assistance Act of 2002 to the extent the amount deducted relates to property purchased on or after July 1, 2002, but before July 1, 2003, and to the extent the amount deducted exceeds the amount that would have been deductible pursuant to Section 168 of the Internal Revenue Code of 1986 as in effect on January 1, 2002; and

(d) The amount of any deduction that is included in the computation of federal taxable income for net operating loss allowed by Section 172 of the Internal Revenue Code of 1986, as amended, other than the deduction allowed by

Section 172(b)(1)(G) and Section 172(i) of the Internal Revenue Code of 1986, as amended, for a net operating loss the taxpayer claims in the tax year in which the net operating loss occurred or carries forward for a period of more than twenty years and carries backward for more than two years. Any amount of net operating loss taken against federal taxable income but disallowed for Missouri income tax purposes pursuant to this paragraph after June 18, 2002, may be carried forward and taken against any income on the Missouri income tax return for a period of not more than twenty years from the year of the initial loss.

3. There shall be subtracted from the taxpayer's federal adjusted gross income the following amounts to the extent included in federal adjusted gross income:

(a) Interest or dividends on obligations of the United States and its territories and possessions or of any authority, commission or instrumentality of the United States to the extent exempt from Missouri income taxes pursuant to the laws of the United States. The amount subtracted pursuant to this paragraph shall be reduced by any interest on indebtedness incurred to carry the described obligations or securities and by any expenses incurred in the production of interest or dividend income described in this paragraph. The reduction in the previous sentence shall only apply to the extent that such expenses including amortizable bond premiums are deducted in determining the taxpayer's federal adjusted gross income or included in the taxpayer's Missouri itemized deduction. The reduction shall only be made if the expenses total at least five hundred dollars;

(b) The portion of any gain, from the sale or other disposition of property having a higher adjusted basis to the taxpayer for Missouri income tax purposes than for federal income tax purposes on December 31, 1972, that does not exceed such difference in basis. If a gain is considered a long-term capital gain for federal income tax

purposes, the modification shall be limited to one-half of such portion of the gain;

(c) The amount necessary to prevent the taxation pursuant to this chapter of any annuity or other amount of income or gain which was properly included in income or gain and was taxed pursuant to the laws of Missouri for a taxable year prior to January 1, 1973, to the taxpayer, or to a decedent by reason of whose death the taxpayer acquired the right to receive the income or gain, or to a trust or estate from which the taxpayer received the income or gain;

(d) Accumulation distributions received by a taxpayer as a beneficiary of a trust to the extent that the same are included in federal adjusted gross income;

(e) The amount of any state income tax refund for a prior year which was included in the federal adjusted gross income;

(f) The portion of capital gain specified in section 135.357, RSMo, that would otherwise be included in federal adjusted gross income;

(g) The amount that would have been deducted in the computation of federal taxable income pursuant to Section 168 of the Internal Revenue Code as in effect on January 1, 2002, to the extent that amount relates to property purchased on or after July 1, 2002, but before July 1, 2003, and to the extent that amount exceeds the amount actually deducted pursuant to Section 168 of the Internal Revenue Code as amended by the Job Creation and Worker Assistance Act of 2002;

(h) For all tax years beginning on or after January 1, 2005, the amount of any income received for military service while the taxpayer serves in a combat zone which is included in federal adjusted gross income and not otherwise excluded therefrom. As used in this section, "combat zone" means any area which the President of the United States by Executive Order designates as an area in which armed forces of the United States are or have engaged in combat. Service is

performed in a combat zone only if performed on or after the date designated by the President by Executive Order as the date of the commencing of combat activities in such zone, and on or before the date designated by the President by Executive Order as the date of the termination of combatant activities in such zone; [and]

(i) For all tax years ending on or after July 1, 2002, with respect to qualified property that is sold or otherwise disposed of during a taxable year by a taxpayer and for which an addition modification was made under paragraph (c) of subsection 2 of this section, the amount by which addition modification made under paragraph (c) of subsection 2 of this section on qualified property has not been recovered through the additional subtractions provided in paragraph (g) of this subsection;

(j) For all tax years beginning on or after January 1, 2007, the amount of any tuition the taxpayer pays for a student who has completed high school to attend any public or private institution, except any private institution that has an employee or consultant that is a member of the Missouri General Assembly or that has an employee that is a registered sex offender, of postsecondary education, including a university, college, vocational and technical school, and other postsecondary institutions, located within this state.

4. There shall be added to or subtracted from the taxpayer's federal adjusted gross income the taxpayer's share of the Missouri fiduciary adjustment provided in section 143.351.

5. There shall be added to or subtracted from the taxpayer's federal adjusted gross income the modifications provided in section 143.411.

6. In addition to the modifications to a taxpayer's federal adjusted gross income in this section, to calculate Missouri adjusted gross income there shall be subtracted from the taxpayer's federal adjusted gross income any gain recognized pursuant to Section 1033 of the Internal

Revenue Code of 1986, as amended, arising from compulsory or involuntary conversion of property as a result of condemnation or the imminence thereof.”; and

Further amend said bill by amending the title, enacting clause, and intersectional references accordingly.

Journal of the Senate

FIRST REGULAR SESSION

FIFTY-NINTH DAY—TUESDAY, APRIL 24, 2007

The Senate met pursuant to adjournment.

Senator Rupp in the Chair.

Reverend Carl Gauck offered the following prayer:

“Of all the tasks of government, the most basic is to protect its citizens against violence.” (John Foster Dulles)

O merciful God, although we live in a violent, sinful world, we once again look at what we can do to protect our citizens; we know that there will be yet darker days for You have taught us that the “...human heart is deceitful above all things.” Yet we also know that You will be ultimately victorious and will comfort Your people. So walk with us these days and let us look and find and celebrate those who do what is righteous and right and walk that road with them. In Your Holy Name we pray. Amen.

Journal of the Senate

FIRST REGULAR SESSION

SIXTIETH DAY—WEDNESDAY, APRIL 25, 2007

The Senate met pursuant to adjournment.

President Kinder in the Chair.

Reverend Carl Gauck offered the following prayer:

“People grow old only by deserting their ideals. Years may wrinkle the skin but to give up interest wrinkles the soul...You are as young as your faith and as old as our doubt; as young as your hope, as old as your despair.” (General Douglas MacArthur)

Loving Father, we know that whatever our physical age we realize that we “are as old as our doubts” so help us continue as a people of faith and help us stay young in our hopefulness about what is ahead of us these weeks ahead. Let us never desert the ideals that brought us into public service and help us stay youthful in our optimism for the future You are leading us into. In Your Holy Name we pray. Amen.

Amend House Amendment No. 4 to House Committee Substitute for Senate Bill No. 81, Page 1, Line 6 by deleting the word “cent” and inserting in lieu thereof the word “percent”; and

Further amend said bill by amending the title, enacting clause, and intersectional references accordingly.

HOUSE AMENDMENT NO. 4

Amend House Committee Substitute for Senate Bill No. 81, Section 67.1003, Page 3, Line 39, by inserting after all of said line the following:

“67.1016. 1. The governing body of any county of the second, third, or fourth classification may impose, by order or ordinance, a tax on the charges for all sleeping rooms paid by the transient guests of hotels or motels situated in the county or a portion thereof. The tax shall be not more than one cent per occupied room per night, and shall be imposed solely for the purpose of promoting tourism related activities in the county. The tax authorized in this section shall be in addition to the charge for the sleeping room and all other taxes imposed by law, and shall be stated separately from all other charges and taxes.

2. No such order or ordinance shall become effective unless the governing body of the county submits to the voters of the county at a state general, primary, or special election a proposal to authorize the governing body of the

county to impose a tax under this section. If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the question, then the tax shall become effective on the first day of the second calendar quarter following the calendar quarter in which the election was held. If a majority of the votes cast on the question by the qualified voters voting thereon are opposed to the question, then the tax shall not become effective unless and until the question is resubmitted under this section to the qualified voters of the county and such question is approved by a majority of the qualified voters voting on the question.

3. All revenue generated by the tax shall be collected by the county collector of revenue, shall be deposited in a special trust fund, and shall be used solely for the designated purposes. If the tax is repealed, all funds remaining in the special trust fund shall continue to be used solely for the designated purposes. Any funds in the special trust fund that are not needed for current expenditures may be invested by the governing body in accordance with applicable laws relating to the investment of other county funds. Any interest and moneys earned on such investments shall be credited to the fund.

4. Upon adoption of the tax under this section, there shall be established in each county adopting the tax a “Tourism Commission”, to consist of five members appointed by the governing body of the county. No more than one member of the tourism commission shall be a member of the governing body of the county. Of the initial members appointed, two shall hold office for one year, two shall hold office for two years, and one shall hold office for three years. Members appointed after expiration of the initial terms shall be appointed to a three-year term. Each member may be reappointed. Vacancies shall be filled by appointment by the governing body of the county for the remainder of the unexpired term. The members shall not receive compensation for their services, but may

be reimbursed for their actual and necessary expenses incurred in service of the tourism commission.

5. The governing body of any county that has adopted the tax authorized in this section may submit the question of repeal of the tax to the voters on any date available for elections for the county. If a majority of the votes cast on the proposal are in favor of repeal, that repeal shall become effective on December thirty-first of the calendar year in which such repeal was approved. If a majority of the votes cast on the question by the qualified voters voting thereon are opposed to the repeal, then the tax authorized in this section shall remain effective until the question is resubmitted under this section to the qualified voters of the county, and the repeal is approved by a majority of the qualified voters voting on the question.

6. Whenever the governing body of any county that has adopted the tax authorized in this section receives a petition, signed by a number of registered voters of the county equal to at least two percent of the number of registered voters of the county voting in the last gubernatorial election, calling for an election to repeal the tax imposed under this section, the governing body shall submit to the voters of the county a proposal to repeal the tax. If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the repeal, that repeal shall become effective on December thirty-first of the calendar year in which such repeal was approved. If a majority of the votes cast on the question by the qualified voters voting thereon are opposed to the repeal, then the tax shall remain effective until the question is resubmitted under this section to the qualified voters of the county and the repeal is approved by a majority of the qualified voters voting on the question.

7. As used in this section, “transient guests” means a person or persons who occupy a room or rooms in a hotel or motel for thirty-one days

or less during any calendar quarter.”; and,

Further amend said bill by amending the title, enacting clause, and intersectional references accordingly.

The Senate met pursuant to adjournment.

Senator Gross in the Chair.

Reverend Carl Gauck offered the following prayer:

“So let us not grow weary in doing what is right, for we will reap at harvest time, if we don’t give up.” (Galatians 6:9)

O Lord, it has been another long and trying week and the pressures increase in that we have fewer and fewer days left to accomplish all that is needed to be accomplished. Give us the strength to persist in the spite of life’s obstacles and do what is needful and right. And may we return to those who love us knowing that they have persisted to do what was needed while we have been working diligently here and let us be thankful for them. In Your Holy Name we pray. Amen.

The educational needs of each child under the jurisdiction of the juvenile court or family court under subdivisions (1), (2), or (5) of subsection 1 of section 211.031, RSMo, shall be considered as part of the function of the child's family support team pursuant to policy of the department of social services. Such needs shall include, but not be limited to, the assumption that regular full school days of education are warranted. For the purposes of this section, "full school day" shall mean six hours in which the child is under the guidance and direction of teachers in the education process. The local school district shall be invited to have representation on the child's family support team. If the school district designates a representative, the representative shall be a full

participant in the family support team.

2. Nothing in this section shall be construed to infringe upon the rights or due process provisions of the federal Individuals with Disabilities Education Act. Nothing in this section shall be construed to impede the ability of the family support team or the facility staff from making a referral for special education services, if appropriate, when a child is placed in a facility described in this section without an individualized education program or without a pending referral for such services. If a child is referred for such services, the provisions of the Individuals with Disabilities Education Act shall apply and control while the referral is pending and through the evaluation process, including provisions for educational decision-makers and educational surrogates. Nothing in this section shall be construed to deny any child domiciled in Missouri appropriate and necessary free public education services.

3. When the department of social services by contract places a child for treatment in a licensed residential care facility setting for children as defined in section 210.481, RSMo, such facility shall be responsible for the educational needs of the child if the child at the time of placement does not have an individualized education program or a pending referral for special education services under sections 162.670 to 162.999, RSMo.

(1) Such facilities operating an on-site school for which they hire their own education staff shall:

(a) Provide, on site at such facility , a full school day of education for each child placed in such facility by the department of social services unless the child's plan of treatment and care supports his or her ability to attend public school; and

(b) Be reimbursed by the local school district for the cost of education services

provided to children placed in their care by the department of social services, as approved by the department of elementary and secondary education, when the facility provides education services. The local school district shall be compensated under section 167.126 for such education services.

No child placed in the facilities for treatment described in this subdivision shall be considered by the local school district as homebound for purposes of education unless the family support team under subsection 1 of this section has approved homebound instruction. A full school day of education shall be provided unless fewer hours of instruction per day are approved by the family support team under subsection 1 of this section. Nothing in this subsection shall create an obligation for a licensed residential care facility to have on-site classrooms, to operate an on-site school, or to hire its own education staff.

(2) When such facilities have on-site classrooms but do not hire their own education staff, the local school district:

(a) Shall provide, on site at such facility or at an alternative location agreed upon pursuant to subsection 6 of this section, a full school day of education for each child placed in such facility for care by the department of social services unless the child's plan of treatment and care supports his or her ability to attend public school;

(b) Shall be compensated under section 167.126 for such education services as approved by the department of elementary and secondary education; and

(c) May consider such education services as homebound instruction but shall provide each homebound child with a full school day of education unless fewer hours of instruction per day are approved by the family support team under subsection 1 of this section.

Nothing in this subdivision shall create an obligation for a licensed residential care facility to have on-site classrooms, to operate an on-site school, or to hire its own education staff.

(3) When such facilities do not operate an on-site school or have on-site classrooms, the local school district shall:

(a) Provide a full school day of education for each child placed in such facility for care by the department of social services; and

(b) Be compensated for such education services under section 167.126, as approved by the department of elementary and secondary education.

If the child's behavior or plan of treatment and care does not support the child's being educated in a regular education class, education services shall be provided in an alternative setting approved by the family support team under subsection 1 of this section. A full school day of education shall be provided unless fewer hours of instruction per day are approved by the family support team under subsection 1 of this section. Nothing in this subdivision shall create an obligation for a licensed residential care facility to have on-site classrooms, to operate an on-site school, or to hire its own education staff.

4. Notwithstanding any other provision of law, a child placed for treatment by the department of social services in a licensed residential care facility setting for children as defined in section 210.481, RSMo, who does not have an individualized education program for special education services or a pending referral for such services under sections 162.670 to 162.999, RSMo, whose plan of treatment and care supports his or her ability to attend public school but who is then suspended or otherwise demonstrates school failure based on behavior or academic performance shall then be provided a full school day of education according to subsection 3 of this section.

5. Nothing in this section shall prevent a licensed residential care facility setting for children as defined in section 210.481, RSMo, from contracting with school districts for education services. Nothing in this section shall prevent a school district from contracting with a licensed residential care facility setting for children as defined in section 210.481, RSMo, for education services.

6. (1) Any residential treatment facility public school district shall work with the district and develop an educational plan that describes in general how and where educational services will be provided to school-aged residents of the treatment facility under a variety of possible circumstances. The educational plan shall be developed jointly by the appropriate staff of both the treatment facility and the public school district, and the plan shall be signed annually by the administration of both parties verifying their support for the plan.

(2) It is the intent that the educational plan follow the provisions of this section, but treatment facilities and school districts may develop provisions for educational services not included in this section if both parties agree on the provisions and if the provisions offer a full-day educational program for the students involved.

(3) It is understood as a condition of the plan that both the treatment facility and school district shall be fully reimbursed, as allowed by law in accordance with the availability of funds, for their portions of the cost of providing educational services through such sources as basic state aid, local district bill-back, and excess cost reimbursement, as well as other possible sources and that a school district shall not be required to provide more total reimbursement to a treatment facility than it receives from all such sources. The local school district shall make all needed requests and

applications for such reimbursement.

(4) Each treatment facility and school district shall furnish a signed copy of their educational plan to the department of elementary and secondary education and to the department of social services no later than June 1 of each year.

(5) If the treatment facility and the school district cannot reach an agreement on the education plan under this subsection, the differences shall be resolved by an arbitration panel made up of one representative from the department of elementary and secondary education, one representative from the children's division of the department of social services, and one person appointed by the governor every three years, with the advice and consent of the senate, serving at the pleasure of the governor. A final decision shall be made by August 15. Costs for the arbitration panel shall be shared equally by the treatment facility and the school district.” ; and

SENATE AMENDMENT NO. 2

Amend Senate Committee Substitute for House Committee Substitute for House Bill No. 795, Page 17, Section 94.837, Line 40, by inserting immediately after said line the following:

“479.010. Violations of municipal ordinances shall be [tried] heard and determined only before divisions of the circuit court as hereinafter provided in this chapter. “Heard and determined”, for purposes of this chapter, shall mean any process under which the court in

question retains the final authority to make factual determinations pertaining to allegations of a municipal ordinance violation, including, but not limited to, the use of a system of administrative adjudication as provided in section 479.011, preliminary to a determination by appeal to the court in question.

479.011. 1. Any city not within a county **or any home rule city with more than four hundred thousand inhabitants and located in more than one county** may establish, by order or ordinance, an administrative system for adjudicating parking and other **civil**, nonmoving municipal code violations consistent with applicable state law. Such administrative adjudication system shall be subject to practice, procedure, and pleading rules established by the state supreme court, circuit court, or municipal court. This section shall not be construed to affect the validity of other administrative adjudication systems authorized by state law and created before August 28, 2004.

2. The order or ordinance creating the administrative adjudication system shall designate the administrative tribunal and its jurisdiction, including the code violations to be reviewed. The administrative tribunal may operate under the supervision of the municipal court, parking commission, or other entity designated by order or ordinance and in a manner consistent with state law. The administrative tribunal shall adopt policies and procedures for administrative hearings, and filing and notification requirements for appeals to the municipal or circuit court, subject to the approval of the municipal or circuit court.

3. The administrative adjudication process authorized in this section shall ensure a fair and impartial review of contested municipal code violations, and shall afford the parties due process of law. The formal rules of evidence shall not apply in any administrative review or hearing authorized in this section. Evidence, including hearsay, may be admitted only if it is the type of

evidence commonly relied upon by reasonably prudent persons in the conduct of their affairs. The code violation notice, property record, and related documentation in the proper form, or a copy thereof, shall be prima facie evidence of the municipal code violation. The officer who issued the code violation citation need not be present.

4. An administrative tribunal may not impose incarceration or any fine in excess of the amount allowed by law. Any sanction, fine or costs, or part of any fine, other sanction, or costs, remaining unpaid after the exhaustion of, or the failure to exhaust, judicial review procedures under chapter 536, RSMo, shall be a debt due and owing the city, and may be collected in accordance with applicable law.

5. Any final decision or disposition of a code violation by an administrative tribunal shall constitute a final determination for purposes of judicial review[.]. **Such determination is** subject to review under chapter 536, RSMo, **or, at the request of the defendant made within ten days, a trial de novo in the circuit court.** After expiration of the judicial review period under chapter 536, RSMo, unless stayed by a court of competent jurisdiction, the administrative tribunal's decisions, findings, rules, and orders may be enforced in the same manner as a judgment entered by a court of competent jurisdiction. Upon being recorded in the manner required by state law or the uniform commercial code, a lien may be imposed on the real or personal property of any defendant entering a plea of nolo contendere, pleading guilty to, or found guilty of a municipal code violation in the amount of any debt due the city under this section and enforced in the same manner as a judgment lien under a judgment of a court of competent jurisdiction.”; and

Journal of the Senate

FIRST REGULAR SESSION

SIXTY-SECOND DAY—MONDAY, APRIL 30, 2007

The Senate met pursuant to adjournment.

Senator Rupp in the Chair.

Reverend Carl Gauck offered the following prayer:

“Let no evil talk come out of your mouth, but only what is useful for building up, as there is need, so that your words may give grace to those who hear.” (Ephesians 4:29)

Gracious God, we begin our final three weeks with much to do. And so we pray today that we use this time to encourage and not discourage the building up of others so that our words make others stronger and our efforts assist in what is truly beneficial to the people of this state, with laws that are truly helpful. And we pray for Senator Coleman’s son, James, in surgery this day, that You will guide the hands of the surgeons and touch him with Your healing power, making him whole and healthy. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

4. If the child is physically or mentally incapacitated from supporting himself and insolvent and unmarried, the court may extend the parental support obligation past the child's eighteenth birthday.

5. If when a child reaches age eighteen, the child is enrolled in and attending a secondary school program of instruction, the parental support obligation shall continue, if the child continues to attend and progresses toward completion of said program, until the child completes such program or reaches age twenty-one, whichever first occurs. If the child is enrolled in an institution of vocational or higher education not later than October first

following graduation from a secondary school or completion of a graduation equivalence degree program and so long as the child enrolls for and completes at least twelve hours of credit each semester, not including the summer semester, at an institution of vocational or higher education and achieves grades sufficient to reenroll at such institution, the parental support obligation shall continue until the child completes his or her education, or until the child reaches the age of [twenty-two] **twenty-one**, whichever first occurs. To remain eligible for such continued parental support, at the beginning of each semester the child shall submit to each parent a transcript or similar official document provided by the institution of vocational or higher education which includes the courses the child is enrolled in and has completed for each term, the grades and credits received for each such course, and an official document from the institution listing the courses which the child is enrolled in for the upcoming term and the number of credits for each such course. **When enrolled in at least twelve credit hours, if the child receives two failing grades in any one semester, payment of child support may be terminated and shall not be eligible for reinstatement. If the child fails to produce the required documents, payment of child support may terminate without the accrual of any child support arrearage and shall not be eligible for reinstatement.** If the circumstances of the child manifestly dictate, the court may waive the October first deadline for enrollment required by this subsection. [If the child has pursued a path of continuous attendance and has demonstrated evidence of a plan to continue to do so, the court may enter a judgment abating support for a period of up to five months for any semester in which the child completes at least six but less than twelve credit hours; however, such five-month period of abatement shall only be granted one time for each child.] If the child is enrolled in such an institution, the child or parent obligated to pay support may petition the court to amend the order to direct the obligated parent to make the payments directly to

the child. As used in this section, an “institution of vocational education” means any postsecondary training or schooling for which the student is assessed a fee and attends classes regularly. “Higher education” means any junior college, community college, college, or university at which the child attends classes regularly. A child who has been diagnosed with a [learning] **developmental disability, as defined in section 630.005, RSMo,** or whose physical disability or diagnosed health problem limits the child's ability to carry the number of credit hours prescribed in this subsection, shall remain eligible for child support so long as such child is enrolled in and attending an institution of vocational or higher education, and the child continues to meet the other requirements of this subsection. **However, a parent who has a child diagnosed after age eighteen with a developmental or physical disability or diagnosed health care problem shall not be required to pay support after age twenty-one. Diagnosis prior to or after age eighteen shall be completed by two licensed physicians, one selected by each parent. Both physicians shall be in agreement for the diagnosis to be considered in the child support case. If a diagnosis of a developmental or physical disability or health care problem occurs prior to the dissolution of the marriage between a child's parents, then the original diagnosis made by a licensed physician prior to the dissolution of marriage will be sufficient for the diagnosis to be considered in the child support case.** A child who is employed at least fifteen hours per week during the semester may take as few as nine credit hours per semester and remain eligible for child support so long as all other requirements of this subsection are complied with.

6. The court shall consider ordering a parent to waive the right to claim the tax dependency exemption for a child enrolled in an institution of vocational or higher education in favor of the other parent if the application of state and federal tax

laws and eligibility for financial aid will make an award of the exemption to the other parent appropriate.

7. The general assembly finds and declares that it is the public policy of this state that frequent, continuing and meaningful contact with both parents after the parents have separated or dissolved their marriage is in the best interest of the child except for cases where the court specifically finds that such contact is not in the best interest of the child. In order to effectuate this public policy, a court with jurisdiction shall enforce visitation, custody and child support orders in the same manner. A court with jurisdiction may abate, in whole or in part, any past or future obligation of support and may transfer the physical and legal or physical or legal custody of one or more children if it finds that a parent has, without good cause, failed to provide visitation or physical and legal or physical or legal custody to the other parent pursuant to the terms of a judgment of dissolution, legal separation or modifications thereof. The court shall also award, if requested and for good cause shown, reasonable expenses, attorney's fees and court costs incurred by the prevailing party.

8. The Missouri supreme court shall have in effect a rule establishing guidelines by which any award of child support shall be made in any judicial or administrative proceeding. Said guidelines shall contain specific, descriptive and numeric criteria which will result in a computation of the support obligation. The guidelines shall address how the amount of child support shall be calculated when an award of joint physical custody results in the child or children spending substantially equal time with both parents. [Not later than October 1, 1998,] The Missouri supreme court shall publish child support guidelines and specifically list and explain the relevant factors and assumptions that were used to calculate the child support guidelines. Any rule made pursuant to this subsection shall be reviewed by the promulgating body not less than once every four years to ensure

that its application results in the determination of appropriate child support award amounts.

9. There shall be a rebuttable presumption, in any judicial or administrative proceeding for the award of child support, that the amount of the award which would result from the application of the guidelines established pursuant to subsection 8 of this section is the correct amount of child support to be awarded. A written finding or specific finding on the record in a judicial or administrative proceeding that the application of the guidelines would be unjust or inappropriate in a particular case, after considering all relevant factors, including the factors set out in subsection 1 of this section, is required if requested by a party and shall be sufficient to rebut the presumption in the case. The written finding or specific finding on the record shall detail the specific relevant factors that required a deviation from the application of the guidelines.

10. Pursuant to this or any other chapter, when a court determines the amount owed by a parent for support provided to a child by another person, other than a parent, prior to the date of filing of a petition requesting support, or when the director of the **family support** division [of child support enforcement] establishes the amount of state debt due pursuant to subdivision (2) of subsection 1 of section 454.465, RSMo, the court or director shall use the guidelines established pursuant to subsection 8 of this section. The amount of child support resulting from the application of the guidelines shall be applied retroactively for a period prior to the establishment of a support order and the length of the period of retroactivity shall be left to the discretion of the court or director. There shall be a rebuttable presumption that the amount resulting from application of the guidelines under subsection 8 of this section constitutes the amount owed by the parent for the period prior to the date of the filing of the petition for support or the period for which state debt is being established. In applying the guidelines to determine a retroactive

support amount, when information as to average monthly income is available, the court or director may use the average monthly income of the noncustodial parent, as averaged over the period of retroactivity, in determining the amount of presumed child support owed for the period of retroactivity. The court or director may enter a different amount in a particular case upon finding, after consideration of all relevant factors, including the factors set out in subsection 1 of this section, that there is sufficient cause to rebut the presumed amount.

11. The obligation of a parent to make child support payments may be terminated as follows:

(1) Provided that the child support order contains the child's date of birth, the obligation shall be deemed terminated without further judicial or administrative process when the child reaches age [twenty-two] **twenty-one** if the child support order does not specifically require payment of child support beyond age [twenty-two] **twenty-one** for reasons provided by subsection 4 of this section;

(2) The obligation shall be deemed terminated without further judicial or administrative process when the parent receiving child support furnishes a sworn statement or affidavit notifying the obligor parent of the child's emancipation in accordance with the requirements of subsection 4 of section 452.370, and a copy of such sworn statement or affidavit is filed with the court which entered the order establishing the child support obligation, or the division of child support enforcement;

(3) The obligation shall be deemed terminated without further judicial or administrative process when the parent paying child support files a sworn statement or affidavit with the court which entered the order establishing the child support obligation, or the **family support** division [of child support enforcement], stating that the child is emancipated and reciting the factual basis for such statement; which statement or affidavit is served by the court

or division on the child support obligee; and which is either acknowledged and affirmed by the child support obligee in writing, or which is not responded to in writing within thirty days of receipt by the child support obligee;

(4) The obligation shall be terminated as provided by this subdivision by the court which entered the order establishing the child support obligation, or the **family support** division [of child support enforcement], when the parent paying child support files a sworn statement or affidavit with the court which entered the order establishing the child support obligation, or the **family support** division [of child support enforcement], stating that the child is emancipated and reciting the factual basis for such statement; and which statement or affidavit is served by the court or division on the child support obligee. If the obligee denies the statement or affidavit, the court or division shall thereupon treat the sworn statement or affidavit as a motion to modify the support obligation pursuant to section 452.370 or section 454.496, RSMo, and shall proceed to hear and adjudicate such motion as provided by law; provided that the court may require the payment of a deposit as security for court costs and any accrued court costs, as provided by law, in relation to such motion to modify.

12. The court may enter a judgment terminating child support pursuant to subdivisions (1) to (3) of subsection 11 of this section without necessity of a court appearance by either party. The clerk of the court shall mail a copy of a judgment terminating child support entered pursuant to subsection 11 of this section on both the obligor and obligee parents. The supreme court may promulgate uniform forms for sworn statements and affidavits to terminate orders of child support obligations for use pursuant to subsection 11 of this section and subsection 4 of section 452.370.”; and

Further amend said bill by amending the title, enacting clause, and intersectional references

accordingly.

In which the concurrence of the Senate is respectfully requested.

Journal of the Senate

FIRST REGULAR SESSION

SIXTY-THIRD DAY—TUESDAY, MAY 1, 2007

The Senate met pursuant to adjournment.

President Kinder in the Chair.

Reverend Carl Gauck offered the following prayer:

“My brothers and sisters, whenever you face trials of any kind, consider it nothing but joy, because you know that the testing of your faith produces endurance.” (James 1:2)

Lord, we know that You did not say “if you have any trouble but when you have trouble,” knowing troubles come into each of our lives even here, it’s part of the package along with being let down and experiencing a lack of fairness. So when it continues to be part of our lives we seek to follow You, knowing that You will sustain us and not abandon us but be kept truly in Your heart. Therefore, grant us patience and strength and help us remain faithful. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

HB 205, introduced by Representative Marsh, et al, entitled:

An Act to repeal section 620.467, RSMo, and to enact in lieu thereof one new section relating to the tourism supplemental revenue fund.

percent, and shall be imposed solely for the purpose of funding senior services and youth programs provided by the county. One-half of all revenue collected under this section, less one-half the cost of collection shall be used solely to fund any service or activity deemed necessary by the senior service tax commission established in this section, and one-half of all revenue collected under this section, less one-half the cost of collection shall be used solely to fund all youth programs administered by an existing county community task force. The tax authorized in this section shall be in addition to all other sales taxes imposed by law, and shall be stated separately from all other charges and taxes. The order or ordinance shall not become effective unless the governing body of the county submits to the voters residing within the county at a state general, primary, or special election a proposal to authorize the governing body of the county to impose a tax under this section.

2. The ballot of submission for the tax authorized in this section shall be in substantially the following form:

Shall (insert the name of the county) impose a sales tax at a rate of (insert rate of percent) percent, with half of the revenue from the tax, less one-half the cost of collection, to be used solely to fund senior services provided by the county and half of the revenue from the tax, less one-half the cost of collection, to be used solely to fund youth programs provided by the county?

☐ YES ☐ NO

If you are in favor of the question, place an "X" in the box opposite "YES". If you are opposed to the question, place an "X" in the box opposite "NO".

If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the question, then the tax shall become

effective on the first day of the second calendar quarter immediately following the approval of the tax or notification to the department of revenue administered by the department of revenue. If a majority of the votes cast on the question by the qualified voters voting thereon are opposed to the question, then the tax shall not become effective unless and until the question is resubmitted under this section to the qualified voters and such question is approved by a majority of the qualified voters voting on the question.

3. On or after the effective date of any tax authorized under this section, the county which imposed the tax shall enter into an agreement with the director of the department of revenue for the purpose of collecting the tax authorized in this section. On or after the effective date of the tax the director of revenue shall be responsible for the administration, collection, enforcement, and operation of the tax, and sections 32.085 and 32.087, RSMo, shall apply. All revenue collected under this section by the director of the department of revenue on behalf of any county, except for one percent for the cost of collection which shall be deposited in the state's general revenue fund, shall be deposited in a special trust fund, which is hereby created and shall be known as the "Senior Services and Youth Programs Sales Tax Trust Fund", and shall be used solely for the designated purposes. Moneys in the fund shall not be deemed to be state funds, and shall not be commingled with any funds of the state. The director may make refunds from the amounts in the trust fund and credited to the county for erroneous payments and overpayments made, and may redeem dishonored checks and drafts deposited to the credit of such county. Any funds in the special trust fund which are not needed for current expenditures shall be invested in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

4. In order to permit sellers required to collect and report the sales tax to collect the amount required to be reported and remitted, but not to change the requirements of reporting or remitting the tax, or to serve as a levy of the tax, and in order to avoid fractions of pennies, the governing body of the county may authorize the use of a bracket system similar to that authorized in section 144.285, RSMo, and notwithstanding the provisions of that section, this new bracket system shall be used where this tax is imposed and shall apply to all taxable transactions. Beginning with the effective date of the tax, every retailer in the county shall add the sales tax to the sale price, and this tax shall be a debt of the purchaser to the retailer until paid, and shall be recoverable at law in the same manner as the purchase price. For purposes of this section, all retail sales shall be deemed to be consummated at the place of business of the retailer.

5. All applicable provisions in sections 144.010 to 144.525, RSMo, governing the state sales tax, and section 32.057, RSMo, the uniform confidentiality provision, shall apply to the collection of the tax, and all exemptions granted to agencies of government, organizations, and persons under sections 144.010 to 144.525, RSMo, are hereby made applicable to the imposition and collection of the tax. The same sales tax permit, exemption certificate, and retail certificate required by sections 144.010 to 144.525, RSMo, for the administration and collection of the state sales tax shall satisfy the requirements of this section, and no additional permit or exemption certificate or retail certificate shall be required; except that, the director of revenue may prescribe a form of exemption certificate for an exemption from the tax. All discounts allowed the retailer under the state sales tax for the collection of and for payment of taxes are hereby allowed and made applicable to the tax. The penalties for violations provided in section

32.057, RSMo, and sections 144.010 to 144.525, RSMo, are hereby made applicable to violations of this section. If any person is delinquent in the payment of the amount required to be paid under this section, or in the event a determination has been made against the person for taxes and penalty under this section, the limitation for bringing suit for the collection of the delinquent tax and penalty shall be the same as that provided in sections 144.010 to 144.525, RSMo.

6. The governing body of any county that has adopted the sales tax authorized in this section may submit the question of repeal of the tax to the voters on any date available for elections for the county. The ballot of submission shall be in substantially the following form:

Shall (insert the name of the county) repeal the sales tax imposed at a rate of (insert rate of percent) percent for the purpose of funding senior services and youth programs provided by the county?

☐ YES

☐ NO

If you are in favor of the question, place an "X" in the box opposite "YES". If you are opposed to the question, place an "X" in the box opposite "NO".

If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of repeal, that repeal shall become effective on December thirty-first of the calendar year in which such repeal was approved. If a majority of the votes cast on the question by the qualified voters voting thereon are opposed to the repeal, then the sales tax authorized in this section shall remain effective until the question is resubmitted under this section to the qualified voters and the repeal is approved by a majority of the qualified voters voting on the question.

7. Whenever the governing body of any county that has adopted the sales tax authorized

in this section receives a petition, signed by ten percent of the registered voters of the county voting in the last gubernatorial election, calling for an election to repeal the sales tax imposed under this section, the governing body shall submit to the voters of the county a proposal to repeal the tax. If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the repeal, the repeal shall become effective on December thirty-first of the calendar year in which such repeal was approved. If a majority of the votes cast on the question by the qualified voters voting thereon are opposed to the repeal, then the sales tax authorized in this section shall remain effective until the question is resubmitted under this section to the qualified voters and the repeal is approved by a majority of the qualified voters voting on the question.

8. If the tax is repealed or terminated by any means, all funds remaining in the special trust fund shall continue to be used solely for the designated purposes, and the county shall notify the director of the department of revenue of the action at least thirty days before the effective date of the repeal and the director may order retention in the trust fund, for a period of one year, of two percent of the amount collected after receipt of such notice to cover possible refunds or overpayment of the tax and to redeem dishonored checks and drafts deposited to the credit of such accounts. After one year has elapsed after the effective date of abolition of the tax in such county, the director shall remit the balance in the account to the county and close the account of that county. The director shall notify each county of each instance of any amount refunded or any check redeemed from receipts due the county.

9. Each county imposing the tax authorized in this section shall establish a senior services tax commission to administer the portion of the sales tax revenue dedicated to providing senior services. Such commission shall consist of seven

members appointed by the county commission. The county commission shall determine the qualifications, terms of office, compensation, powers, duties, restrictions, procedures, and all other necessary functions of the commission.”; and

Further amend the title and enacting clause accordingly.

Senator Crowell moved that the above amendment be adopted, which motion prevailed.

Senator Mayer offered SA 2:

SENATE AMENDMENT NO. 2

or any municipality located in such county, or any city located partially but not wholly within a county of the third classification with a population of at least thirty-nine thousand inhabitants may impose, by ordinance or order, a tax on the price paid or charged to any person for rooms or accommodations paid by transient guests of hotels, motels, condominium units, campgrounds, and tourist courts situated within the political subdivision, at a rate not to exceed four percent of such price paid or charged. As used in this section, the term “hotel”, “motel”, or “tourist court” means any structure or building, under one management, which contains rooms furnished for the accommodation or lodging of guests, with or without meals being provided, including bed and breakfast facilities, and kept, used, maintained, advertised, or held out to the public as a place where sleeping accommodations are sought for pay or compensation to transient guests, and the term “campground” means real property, other than state-owned property, which contains parcels for rent to transient guests for pay or compensation, which may include temporary utility hook-ups for use by the transient guests, and where such transient guests generally use tents, recreational vehicles or some other form of temporary shelter while on the rented premises. The taxes collected [shall] **may** be used, upon appropriation by the political subdivision,

[solely] for the purpose of constructing, maintaining, or operating convention and tourism facilities[, and at least twenty-five percent of such taxes collected shall be used for tourism marketing and promotional purposes]; except that in any city with a population of less than [one] **seven** thousand five hundred inhabitants, forty percent of such taxes collected may be transferred to such city's general revenue fund and the remaining thirty-five percent may be used for city capital improvements, pursuant to voter approval. The moneys in the tourism tax trust fund of any city with a population of at least fifteen thousand located partially but not wholly within a county of the third classification with a population of at least thirty-nine thousand inhabitants shall be used solely for tourism marketing and promotional purposes. The tax authorized by section 94.870 shall be in addition to any and all other sales taxes allowed by law, but no ordinance or order imposing a tax under section 94.870 shall be effective unless the governing body of the political subdivision submits to the voters of the political subdivision at a municipal or state general, primary, or special election a proposal to authorize the governing body of the political subdivision to impose such tax.”; and

HB 265, introduced by Representative Cunningham (86), entitled:

An Act to repeal section 162.963, RSMo, and to enact in lieu thereof one new section relating to special education due process hearings.

Was called from the Informal Calendar and taken up by Senator Rupp.

Senator Callahan offered **SA 1**:

SENATE AMENDMENT NO. 1

Amend House Bill No. 265, Page 1, Section A, Line 2, by inserting after all of said line the following:

“162.431. 1. When it is necessary to change the boundary lines between seven-director school districts, in each district affected, ten percent of the voters by number of those voting for school board members in the last annual school election in each district may petition the district boards of education in the districts affected, regardless of county lines, for a change in boundaries. The question shall be submitted at the next [general municipal] election, **as referenced in section**

115.123, RSMo.

2. The voters shall decide the question by a majority vote of those who vote upon the question. If assent to the change is given by each of the various districts voting, each voting separately, the boundaries are changed from that date.

3. If one of the districts votes against the change and the other votes for the change, the matter may be appealed to the state board of education, in writing, within fifteen days of the submission of the question by either one of the districts affected, or in the above event by a majority of the signers of the petition requesting a vote on the proposal. At the first meeting of the state board following the appeal, a board of arbitration composed of three members, none of whom shall be a resident of any district affected, shall be appointed. In determining whether it is necessary to change the boundary line between seven-director districts, the board of arbitration shall base its decision upon the following:

(1) The presence of school-aged children in the affected area;

(2) The presence of actual educational harm to school-aged children, either due to a significant difference in the time involved in transporting students or educational deficiencies in the district which would have its boundary adversely affected; and

(3) The presence of an educational necessity, not of a commercial benefit to landowners or to the district benefitting for the proposed boundary adjustment.

4. Within twenty days after notification of appointment, the board of arbitration shall meet and consider the necessity for the proposed changes and shall decide whether the boundaries shall be changed as requested in the petition or be left unchanged, which decision shall be final. The decision by the board of arbitration shall be rendered not more than thirty days after the matter is referred to the board. The chairman of the board

of arbitration shall transmit the decision to the secretary of each district affected who shall enter the same upon the records of his district and the boundaries shall thereafter be in accordance with the decision of the board of arbitration. The members of the board of arbitration shall be allowed a fee of fifty dollars each, to be paid at the time the appeal is made by the district taking the appeal or by the petitioners should they institute the appeal.

5. If the board of arbitration decides that the boundaries shall be left unchanged, no new petition for the same, or substantially the same, boundary change between the same districts shall be filed until after the expiration of two years from the date of the municipal election at which the question was submitted to the voters of the districts.”

Further amend the title and enacting clause accordingly.

Senator Callahan moved that the above amendment be adopted, which motion prevailed.

Senator Gibbons offered **SA 3**:

SENATE AMENDMENT NO. 3

Amend House Bill No. 265, Page 1, In The Title, Line 3, by striking the following: “due process hearings”; and

Further amend said bill, page 2, section 162.963, line 25, by inserting after all of said line the following:

“163.011. As used in this chapter unless the context requires otherwise:

(1) “Adjusted operating levy”, the sum of tax rates for the current year for teachers' and incidental funds for a school district as reported to the proper officer of each county pursuant to

section 164.011, RSMo;

(2) “Average daily attendance”, the quotient or the sum of the quotients obtained by dividing the total number of hours attended in a term by resident pupils between the ages of five and twenty-one by the actual number of hours school was in session in that term. To the average daily attendance of the following school term shall be added the full-time equivalent average daily attendance of summer school students. “Full-time equivalent average daily attendance of summer school students” shall be computed by dividing the total number of hours, except for physical education hours that do not count as credit toward graduation for students in grades nine, ten, eleven, and twelve, attended by all summer school pupils by the number of hours required in section 160.011, RSMo, in the school term. For purposes of determining average daily attendance under this subdivision, the term “resident pupil” shall include all children between the ages of five and twenty-one who are residents of the school district and who are attending kindergarten through grade twelve in such district. If a child is attending school in a district other than the district of residence and the child's parent is teaching in the school district which the child is attending, then such child shall be considered a resident pupil of the school district which the child is attending for such period of time when the district of residence is not otherwise liable for tuition. Average daily attendance for students below the age of five years for which a school district may receive state aid based on such attendance shall be computed as regular school term attendance unless otherwise provided by law;

(3) “Current operating expenditures”:

(a) For the fiscal year 2007 calculation, “current operating expenditures” shall be calculated using data from fiscal year 2004 and shall be calculated as all expenditures for instruction and support services except capital

outlay and debt service expenditures minus the revenue from federal categorical sources; food service; student activities; categorical payments for transportation costs pursuant to section 163.161; state reimbursements for early childhood special education; the career ladder entitlement for the district, as provided for in sections 168.500 to 168.515, RSMo; the vocational education entitlement for the district, as provided for in section 167.332, RSMo; and payments from other districts;

(b) In every fiscal year subsequent to fiscal year 2007, current operating expenditures shall be the amount in paragraph (a) plus any increases in state funding pursuant to sections 163.031 and 163.043 subsequent to fiscal year 2005, not to exceed five percent, per recalculation, of the state revenue received by a district in the 2004-05 school year from the foundation formula, line 14, gifted, remedial reading, exceptional pupil aid, fair share, and free textbook payments for any district from the first preceding calculation of the state adequacy target;

(4) "District's tax rate ceiling", the highest tax rate ceiling in effect subsequent to the 1980 tax year or any subsequent year. Such tax rate ceiling shall not contain any tax levy for debt service;

(5) "Dollar value modifier", an index of the relative purchasing power of a dollar, calculated as one plus fifteen percent of the difference of the regional wage ratio minus one, provided that the dollar value modifier shall not be applied at a rate less than 1.0:

(a) "County wage per job", the total county wage and salary disbursements divided by the total county wage and salary employment for each county and the city of St. Louis as reported by the Bureau of Economic Analysis of the United States Department of Commerce for the fourth year preceding the payment year;

(b) "Regional wage per job":

a. The total Missouri wage and salary

disbursements of the metropolitan area as defined by the Office of Management and Budget divided by the total Missouri metropolitan wage and salary employment for the metropolitan area for the county signified in the school district number or the city of St. Louis, as reported by the Bureau of Economic Analysis of the United States Department of Commerce for the fourth year preceding the payment year and recalculated upon every decennial census to incorporate counties that are newly added to the description of metropolitan areas; or if no such metropolitan area is established, then:

b. The total Missouri wage and salary disbursements of the micropolitan area as defined by the Office of Management and Budget divided by the total Missouri micropolitan wage and salary employment for the micropolitan area for the county signified in the school district number, as reported by the Bureau of Economic Analysis of the United States Department of Commerce for the fourth year preceding the payment year, if a micropolitan area for such county has been established and recalculated upon every decennial census to incorporate counties that are newly added to the description of micropolitan areas; or

c. If a county is not part of a metropolitan or micropolitan area as established by the Office of Management and Budget, then the county wage per job, as defined in paragraph (a) of this subdivision, shall be used for the school district, as signified by the school district number;

(c) "Regional wage ratio", the ratio of the regional wage per job divided by the state median wage per job;

(d) "State median wage per job", the fifty-eighth highest county wage per job;

(6) "Free and reduced lunch pupil count", the number of pupils eligible for free and reduced lunch on the last Wednesday in January for the preceding school year who were enrolled as students of the district, as approved by the

department in accordance with applicable federal regulations;

(7) “Free and reduced lunch threshold” shall be calculated by dividing the total free and reduced lunch pupil count of every performance district that falls entirely above the bottom five percent and entirely below the top five percent of average daily attendance, when such districts are rank-ordered based on their current operating expenditures per average daily attendance, by the total average daily attendance of all included performance districts;

(8) “Limited English proficiency pupil count”, the number in the preceding school year of pupils aged three through twenty-one enrolled or preparing to enroll in an elementary school or secondary school who were not born in the United States or whose native language is a language other than English or are Native American or Alaskan native, or a native resident of the outlying areas, and come from an environment where a language other than English has had a significant impact on such individuals' level of English language proficiency, or are migratory, whose native language is a language other than English, and who come from an environment where a language other than English is dominant; and have difficulties in speaking, reading, writing, or understanding the English language sufficient to deny such individuals the ability to meet the state's proficient level of achievement on state assessments described in Public Law 107-10, the ability to achieve successfully in classrooms where the language of instruction is English, or the opportunity to participate fully in society;

(9) “Limited English proficiency threshold” shall be calculated by dividing the total limited English proficiency pupil count of every performance district that falls entirely above the bottom five percent and entirely below the top five percent of average daily attendance, when such districts are rank-ordered based on their current operating expenditures per average daily

attendance, by the total average daily attendance of all included performance districts;

(10) “Local effort”:

(a) For the fiscal year 2007 calculation, “local effort” shall be computed as the equalized assessed valuation of the property of a school district in calendar year 2004 divided by one hundred and multiplied by the performance levy less the percentage retained by the county assessor and collector plus one hundred percent of the amount received in fiscal year 2005 for school purposes from intangible taxes, fines, escheats, payments in lieu of taxes and receipts from state-assessed railroad and utility tax, one hundred percent of the amount received for school purposes pursuant to the merchants' and manufacturers' taxes under sections 150.010 to 150.370, RSMo, one hundred percent of the amounts received for school purposes from federal properties under sections 12.070 and 12.080, RSMo, except when such amounts are used in the calculation of federal impact aid pursuant to P.L. 81-874, fifty percent of Proposition C revenues received for school purposes from the school district trust fund under section 163.087, and one hundred percent of any local earnings or income taxes received by the district for school purposes. Under this paragraph, for a special district established under sections 162.815 to 162.940, RSMo, in a county with a charter form of government and with more than one million inhabitants, a tax levy of zero shall be utilized in lieu of the performance levy for the special school district;

(b) In every year subsequent to fiscal year 2007, “local effort” shall be the amount calculated under paragraph (a) of this subdivision plus any increase in the amount received for school purposes from fines or less any decrease in the amount received for school purposes from fines in any school district located entirely within any county with a charter form of government and with more than two hundred fifty thousand but fewer than three hundred fifty thousand inhabitants that

creates a county municipal court after January 1, 2006. If a district's assessed valuation has decreased subsequent to the calculation outlined in paragraph (a) of this subdivision, the district's local effort shall be calculated using the district's current assessed valuation in lieu of the assessed valuation utilized in calculation outlined in paragraph (a) of this subdivision;

(11) "Membership" shall be the average of:

(a) The number of resident full-time students and the full-time equivalent number of part-time students who were enrolled in the public schools of the district on the last Wednesday in September of the previous year and who were in attendance one day or more during the preceding ten school days; and

(b) The number of resident full-time students and the full-time equivalent number of part-time students who were enrolled in the public schools of the district on the last Wednesday in January of the previous year and who were in attendance one day or more during the preceding ten school days, plus the full-time equivalent number of summer school pupils.

"Full-time equivalent number of part-time students" is determined by dividing the total number of hours for which all part-time students are enrolled by the number of hours in the school term. "Full-time equivalent number of summer school pupils" is determined by dividing the total number of hours for which all summer school pupils were enrolled by the number of hours required pursuant to section 160.011, RSMo, in the school term. Only students eligible to be counted for average daily attendance shall be counted for membership;

(12) "Operating levy for school purposes", the sum of tax rates levied for teachers' and incidental funds plus the operating levy or sales tax equivalent pursuant to section 162.1100, RSMo, of any transitional school district containing the school district, in the payment year, not including

any equalized operating levy for school purposes levied by a special school district in which the district is located;

(13) "Performance district", any district that has met all performance standards and indicators as established by the department of elementary and secondary education for purposes of accreditation under section 161.092, RSMo, and as reported on the final annual performance report for that district each year;

(14) "Performance levy", three dollars and forty-three cents;

(15) "School purposes" pertains to teachers' and incidental funds;

(16) "Special education pupil count", the number of public school students with a current individualized education program and receiving services from the resident district as of December first of the preceding school year **and nonpublic students served through the federal Individuals with Disabilities Education Act by the district in which the nonpublic school is located**, except for special education services provided through a school district established under sections 162.815 to 162.940, RSMo, in a county with a charter form of government and with more than one million inhabitants, in which case the sum of the students in each district within the county exceeding the special education threshold of each respective district within the county shall be counted within the special district and not in the district of residence for purposes of distributing the state aid derived from the special education pupil count;

(17) "Special education threshold" shall be calculated by dividing the total special education pupil count of every performance district that falls entirely above the bottom five percent and entirely below the top five percent of average daily attendance, when such districts are rank-ordered based on their current operating expenditures per average daily attendance, by the total average daily attendance of all included performance districts;

(18) “State adequacy target”, the sum of the current operating expenditures of every performance district that falls entirely above the bottom five percent and entirely below the top five percent of average daily attendance, when such districts are rank-ordered based on their current operating expenditures per average daily attendance, divided by the total average daily attendance of all included performance districts. The department of elementary and secondary education shall first calculate the state adequacy target for fiscal year 2007 and recalculate the state adequacy target every two years using the most current available data. The recalculation shall never result in a decrease from the previous state adequacy target amount. Should a recalculation result in an increase in the state adequacy target amount, fifty percent of that increase shall be included in the state adequacy target amount in the year of recalculation, and fifty percent of that increase shall be included in the state adequacy target amount in the subsequent year. The state adequacy target may be adjusted to accommodate available appropriations;

(19) “Teacher”, any teacher, teacher-secretary, substitute teacher, supervisor, principal, supervising principal, superintendent or assistant superintendent, school nurse, social worker, counselor or librarian who shall, regularly, teach or be employed for no higher than grade twelve more than one-half time in the public schools and who is certified under the laws governing the certification of teachers in Missouri;

(20) “Weighted average daily attendance”, the average daily attendance plus the product of twenty-five hundredths multiplied by the free and reduced lunch pupil count that exceeds the free and reduced lunch threshold, plus the product of seventy-five hundredths multiplied by the number of special education pupil count that exceeds the special education threshold, and plus the product of six-tenths multiplied by the number of limited English proficiency pupil count that exceeds the

limited English proficiency threshold. For special districts established under sections 162.815 to 162.940, RSMo, in a county with a charter form of government and with more than one million inhabitants, weighted average daily attendance shall be the average daily attendance plus the product of twenty-five hundredths multiplied by the free and reduced lunch pupil count that exceeds the free and reduced lunch threshold, plus the product of seventy-five hundredths multiplied by the sum of the special education pupil count that exceeds the threshold for each county district, plus the product of six-tenths multiplied by the limited English proficiency pupil count that exceeds the limited English proficiency threshold. None of the districts comprising a special district established under sections 162.815 to 162.940, RSMo, in a county with a charter form of government and with more than one million inhabitants, shall use any special education pupil count in calculating their weighted average daily attendance.”; and

“Section 1. Notwithstanding any provision of law to the contrary, the state auditor shall have the power to audit any school district within the state in the same manner as the auditor may audit any agency of the state.”; and

Further amend the title and enacting clause accordingly.

Senator Green moved that the above amendment be adopted, which motion prevailed.

Senator Justus offered SA 5:

SENATE AMENDMENT NO. 5

Amend House Bill No. 265, Page 2, Section 162.963, Line 25, by inserting after all of said line the following:

“167.128. 1. The educational needs of each child under the jurisdiction of the juvenile court or family court under subdivisions (1), (2), or (5) of subsection 1 of section 211.031, RSMo, shall be considered as part of the function of the child's family support team pursuant to policy of the department of social services. Such needs shall include, but not be limited to, the assumption that regular full school days of education are warranted. For the purposes of this section, “full school day” shall mean six hours in which the child is under the guidance and direction of teachers in the education process. The local school district shall be invited to have representation on the child's family support team. If the school district designates a representative, the representative shall be a full participant in the family support team.

2. Nothing in this section shall be construed to infringe upon the rights or due process provisions of the federal Individuals with Disabilities Education Act. Nothing in this section shall be construed to impede the ability of the family support team or the facility staff from making a referral for special education services, if appropriate, when a child is placed in a facility described in this section without an individualized education program or without a pending referral for such services. If a child is referred for such services, the provisions of the Individuals with Disabilities Education Act shall apply and control while the referral is pending and through the evaluation process, including provisions for educational decision-makers and educational surrogates. Nothing in this section shall be construed to deny any child domiciled in Missouri appropriate and necessary free public education services.

3. When the department of social services

by contract places a child for treatment in a licensed residential care facility setting for children as defined in section 210.481, RSMo, such facility shall be responsible for the educational needs of the child if the child at the time of placement does not have an individualized education program or a pending referral for special education services under sections 162.670 to 162.999, RSMo.

(1) Such facilities operating an on-site school for which they hire their own education staff shall:

(a) Provide, on site at such facility, a full school day of education for each child placed in such facility by the department of social services unless the child's plan of treatment and care supports his or her ability to attend public school; and

(b) Be reimbursed by the local school district for the cost of education services provided to children placed in their care by the department of social services, as approved by the department of elementary and secondary education, when the facility provides education services. The local school district shall be compensated under section 167.126, RSMo, for such education services.

No child placed in the facilities for treatment described in this subdivision shall be considered by the local school district as homebound for purposes of education unless the family support team under subsection 1 of this section has approved homebound instruction. A full school day of education shall be provided unless fewer hours of instruction per day are approved by the family support team under subsection 1 of this section. Nothing in this subdivision shall create an obligation for a licensed residential care facility to have on-site classrooms, to operate an on-site school, or to hire its own education staff.

(2) When such facilities have on-site

classrooms but do not hire their own education staff, the local school district:

(a) Shall provide, on site at such facility, or at an alternative location agreed upon under subsection 6 of this section, a full school day of education for each child placed in such facility for care by the department of social services unless the child's plan of treatment and care supports his or her ability to attend public school;

(b) Shall be compensated under section 167.126 for such education services, as approved by the department of elementary and secondary education; and

(c) May consider such education services as homebound instruction but shall provide each homebound child with a full school day of education unless fewer hours of instruction per day are approved by the family support team under subsection 1 of this section.

Nothing in this subdivision shall create an obligation for a licensed residential care facility to have on-site classrooms, to operate an on-site school, or to hire its own education staff.

(3) When such facilities do not operate an on-site school or have on-site classrooms, the local school district shall:

(a) Provide a full school day of education for each child placed in such facility for care by the department of social services; and

(b) Be compensated for such education services under section 167.126, as approved by the department of elementary and secondary education.

If the child's behavior or plan of treatment and care does not support the child's being educated in a regular education class, education services shall be provided in an alternative setting approved by the family support team under subsection 1 of this section. A full school day of education shall be provided unless fewer hours

of instruction per day are approved by the family support team under subsection 1 of this section. Nothing in this subdivision shall create an obligation for a licensed residential care facility to have on-site classrooms, to operate an on-site school, or to hire its own education staff.

4. Notwithstanding any other provision of law, a child placed for treatment by the department of social services in a licensed residential care facility setting for children as defined in section 210.481, RSMo, who does not have an individualized education program for special education services or a pending referral for such services under sections 162.670 to 162.999, RSMo, whose plan of treatment and care supports his or her ability to attend public school but who is then suspended or otherwise demonstrates school failure based on behavior or academic performance shall then be provided a full school day of education according to subsection 3 of this section. Nothing in this section shall be construed to infringe upon the authority and responsibility of local public school districts, their boards, and their employees to maintain safe and orderly learning environments including, but not limited to, authority assigned by section 160.261, RSMo, sections 167.091, 167.161, 167.164, and 167.171.

5. Nothing in this section shall prevent a licensed residential care facility setting for children as defined in section 210.481, RSMo, from contracting with school districts for education services. Nothing in this section shall prevent a school district from contracting with a licensed residential care facility setting for children as defined in section 210.481, RSMo, for education services.

6. (1) Any residential treatment facility shall work with the district and develop an educational plan that describes in general how and where educational services will be provided to school-aged residents of the treatment facility

under a variety of possible circumstances. The educational plan shall be developed jointly by the appropriate staff of both the treatment facility and the public school district, and the plan shall be signed annually by the administration of both parties verifying their support for the plan.

(2) It is the intent that the educational plan follow the provisions of this section, but treatment facilities and school districts may develop provisions for educational services not included in this section if both parties agree on the provisions and if the provisions offer a full-day educational program for the students involved.

(3) If sufficient financial resources exist, both the treatment facility and school district shall be fully reimbursed for their applicable portion of the costs attributable to providing the educational services required under this section. No school district shall be required to provide a reimbursement to a treatment facility, the aggregate amount of which is greater than the revenue the district received from the following sources:

(a) The state aid attributable to the student that the district received under sections 163.031, RSMo, 163.043, RSMo, 163.044, RSMo, plus all other state aid attributable to such student;

(b) The average sum produced per student by the local tax effort of the district;

(c) The portion of any federal funds received by the district that is attributable to such student;

(d) The portion of the school district trust fund distribution attributable to the student under section 163.087, RSMo;

(e) Any reimbursement received by the district for the educational costs of high-need children under section 162.974, RSMo, that is attributable to the student; and

(f) Any other possible source of revenue that may be attributable to the education of the student.

The local school district shall make every effort to obtain any and all potential reimbursements for the costs of educating children under this section.

(4) Each treatment facility and school district shall furnish a signed copy of their educational plan to the department of elementary and secondary education and to the department of social services no later than June first of each year.

(5) If a treatment facility and school district cannot reach an agreement on the education plan under this subsection, the differences shall be resolved by an arbitration panel made up of one representative from the department of elementary and secondary education, one representative from the children's division of the department of social services and one person appointed by the governor every three years, serving at the pleasure of the governor, with the advice and consent of the senate. A final decision shall be made by August fifteenth. Costs for the arbitration panel shall be shared equally by the treatment facility and the school district."

Further amend the title and enacting clause accordingly.

Senator Justus moved that the above amendment be adopted.

Senator Nodler assumed the Chair.

At the request of Senator Rupp, **HB 265**, with **SA 5** (pending), was placed on the Informal Calendar.

SENATE AMENDMENT NO. 1

Amend House Bill No. 267, Page 1, Section A, Line 2, by inserting immediately after said line the following:

“162.431. 1. When it is necessary to change

the boundary lines between seven-director school districts, in each district affected, ten percent of the voters by number of those voting for school board members in the last annual school election in each district may petition the district boards of education in the districts affected, regardless of county lines, for a change in boundaries. The question shall be submitted at the next [general municipal] election, **as referenced in section 115.123, RSMo.**

2. The voters shall decide the question by a majority vote of those who vote upon the question. If assent to the change is given by each of the various districts voting, each voting separately, the boundaries are changed from that date.

3. If one of the districts votes against the change and the other votes for the change, the matter may be appealed to the state board of education, in writing, within fifteen days of the submission of the question by either one of the districts affected, or in the above event by a majority of the signers of the petition requesting a vote on the proposal. At the first meeting of the state board following the appeal, a board of arbitration composed of three members, none of whom shall be a resident of any district affected, shall be appointed. In determining whether it is necessary to change the boundary line between seven-director districts, the board of arbitration shall base its decision upon the following:

(1) The presence of school-aged children in the affected area;

(2) The presence of actual educational harm to school-aged children, either due to a significant difference in the time involved in transporting students or educational deficiencies in the district which would have its boundary adversely affected; and

(3) The presence of an educational necessity, not of a commercial benefit to landowners or to the district benefitting for the proposed boundary adjustment.

4. Within twenty days after notification of appointment, the board of arbitration shall meet and consider the necessity for the proposed changes and shall decide whether the boundaries shall be changed as requested in the petition or be left unchanged, which decision shall be final. The decision by the board of arbitration shall be rendered not more than thirty days after the matter is referred to the board. The chairman of the board of arbitration shall transmit the decision to the secretary of each district affected who shall enter the same upon the records of his district and the boundaries shall thereafter be in accordance with the decision of the board of arbitration. The members of the board of arbitration shall be allowed a fee of fifty dollars each, to be paid at the time the appeal is made by the district taking the appeal or by the petitioners should they institute the appeal.

5. If the board of arbitration decides that the boundaries shall be left unchanged, no new petition for the same, or substantially the same, boundary change between the same districts shall be filed until after the expiration of two years from the date of the municipal election at which the question was submitted to the voters of the districts.”; and

Further amend the title and enacting clause accordingly.

Senator Callahan moved that the above amendment be adopted.

To the average daily attendance of the following school term shall be added the full-time equivalent average daily attendance of summer school students. “Full-time equivalent average daily attendance of summer school students” shall be computed by dividing the total number of hours, except for physical education hours that do not count as credit toward graduation for students in grades nine, ten, eleven, and twelve, attended by all summer school pupils by the number of hours required in section 160.011, RSMo, in the school term. For purposes

of determining average daily attendance under this subdivision, the term “resident pupil” shall include all children between the ages of five and twenty-one who are residents of the school district and who are attending kindergarten through grade twelve in such district. If a child is attending school in a district other than the district of residence and the child's parent is teaching in the school district or is a regular employee of the school district which the child is attending, then such child shall be considered a resident pupil of the school district which the child is attending for such period of time when the district of residence is not otherwise liable for tuition. Average daily attendance for students below the age of five years for which a school district may receive state aid based on such attendance shall be computed as regular school term attendance unless otherwise provided by law;

(3) “Current operating expenditures”:

(a) For the fiscal year 2007 calculation, “current operating expenditures” shall be calculated using data from fiscal year 2004 and shall be calculated as all expenditures for instruction and support services except capital outlay and debt service expenditures minus the revenue from federal categorical sources; food service; student activities; categorical payments for transportation costs pursuant to section 163.161; state reimbursements for early childhood special education; the career ladder entitlement for the district, as provided for in sections 168.500 to 168.515, RSMo; the vocational education entitlement for the district, as provided for in section 167.332, RSMo; and payments from other districts;

(b) In every fiscal year subsequent to fiscal year 2007, current operating expenditures shall be the amount in paragraph (a) plus any increases in state funding pursuant to sections 163.031 and 163.043 subsequent to fiscal year 2005, not to exceed five percent, per recalculation, of the state revenue received by a district in the 2004-05

school year from the foundation formula, line 14, gifted, remedial reading, exceptional pupil aid, fair share, and free textbook payments for any district from the first preceding calculation of the state adequacy target;

(4) "District's tax rate ceiling", the highest tax rate ceiling in effect subsequent to the 1980 tax year or any subsequent year. Such tax rate ceiling shall not contain any tax levy for debt service;

(5) "Dollar value modifier", an index of the relative purchasing power of a dollar, calculated as one plus fifteen percent of the difference of the regional wage ratio minus one, provided that the dollar value modifier shall not be applied at a rate less than 1.0:

(a) "County wage per job", the total county wage and salary disbursements divided by the total county wage and salary employment for each county and the city of St. Louis as reported by the Bureau of Economic Analysis of the United States Department of Commerce for the fourth year preceding the payment year;

(b) "Regional wage per job":

a. The total Missouri wage and salary disbursements of the metropolitan area as defined by the Office of Management and Budget divided by the total Missouri metropolitan wage and salary employment for the metropolitan area for the county signified in the school district number or the city of St. Louis, as reported by the Bureau of Economic Analysis of the United States Department of Commerce for the fourth year preceding the payment year and recalculated upon every decennial census to incorporate counties that are newly added to the description of metropolitan areas; or if no such metropolitan area is established, then:

b. The total Missouri wage and salary disbursements of the micropolitan area as defined by the Office of Management and Budget divided by the total Missouri micropolitan wage and salary employment for the micropolitan area for the

county signified in the school district number, as reported by the Bureau of Economic Analysis of the United States Department of Commerce for the fourth year preceding the payment year, if a micropolitan area for such county has been established and recalculated upon every decennial census to incorporate counties that are newly added to the description of micropolitan areas; or

c. If a county is not part of a metropolitan or micropolitan area as established by the Office of Management and Budget, then the county wage per job, as defined in paragraph (a) of this subdivision, shall be used for the school district, as signified by the school district number;

(c) "Regional wage ratio", the ratio of the regional wage per job divided by the state median wage per job;

(d) "State median wage per job", the fifty-eighth highest county wage per job;

(6) "Free and reduced lunch pupil count", the number of pupils eligible for free and reduced lunch on the last Wednesday in January for the preceding school year who were enrolled as students of the district, as approved by the department in accordance with applicable federal regulations;

(7) "Free and reduced lunch threshold" shall be calculated by dividing the total free and reduced lunch pupil count of every performance district that falls entirely above the bottom five percent and entirely below the top five percent of average daily attendance, when such districts are rank-ordered based on their current operating expenditures per average daily attendance, by the total average daily attendance of all included performance districts;

(8) "Limited English proficiency pupil count", the number in the preceding school year of pupils aged three through twenty-one enrolled or preparing to enroll in an elementary school or secondary school who were not born in the United States or whose native language is a language other

than English or are Native American or Alaskan native, or a native resident of the outlying areas, and come from an environment where a language other than English has had a significant impact on such individuals' level of English language proficiency, or are migratory, whose native language is a language other than English, and who come from an environment where a language other than English is dominant; and have difficulties in speaking, reading, writing, or understanding the English language sufficient to deny such individuals the ability to meet the state's proficient level of achievement on state assessments described in Public Law 107-10, the ability to achieve successfully in classrooms where the language of instruction is English, or the opportunity to participate fully in society;

(9) "Limited English proficiency threshold" shall be calculated by dividing the total limited English proficiency pupil count of every performance district that falls entirely above the bottom five percent and entirely below the top five percent of average daily attendance, when such districts are rank-ordered based on their current operating expenditures per average daily attendance, by the total average daily attendance of all included performance districts;

(10) "Local effort":

(a) For the fiscal year 2007 calculation, "local effort" shall be computed as the equalized assessed valuation of the property of a school district in calendar year 2004 divided by one hundred and multiplied by the performance levy less the percentage retained by the county assessor and collector plus one hundred percent of the amount received in fiscal year 2005 for school purposes from intangible taxes, fines, escheats, payments in lieu of taxes and receipts from state-assessed railroad and utility tax, one hundred percent of the amount received for school purposes pursuant to the merchants' and manufacturers' taxes under sections 150.010 to 150.370, RSMo, one hundred percent of the amounts received for school

purposes from federal properties under sections 12.070 and 12.080, RSMo, except when such amounts are used in the calculation of federal impact aid pursuant to P.L. 81-874, fifty percent of Proposition C revenues received for school purposes from the school district trust fund under section 163.087, and one hundred percent of any local earnings or income taxes received by the district for school purposes. Under this paragraph, for a special district established under sections 162.815 to 162.940, RSMo, in a county with a charter form of government and with more than one million inhabitants, a tax levy of zero shall be utilized in lieu of the performance levy for the special school district;

(b) In every year subsequent to fiscal year 2007, "local effort" shall be the amount calculated under paragraph (a) of this subdivision plus any increase in the amount received for school purposes from fines or less any decrease in the amount received for school purposes from fines in any school district located entirely within any county with a charter form of government and with more than two hundred fifty thousand but fewer than three hundred fifty thousand inhabitants that creates a county municipal court after January 1, 2006. If a district's assessed valuation has decreased subsequent to the calculation outlined in paragraph (a) of this subdivision, the district's local effort shall be calculated using the district's current assessed valuation in lieu of the assessed valuation utilized in calculation outlined in paragraph (a) of this subdivision;

(11) "Membership" shall be the average of:

(a) The number of resident full-time students and the full-time equivalent number of part-time students who were enrolled in the public schools of the district on the last Wednesday in September of the previous year and who were in attendance one day or more during the preceding ten school days; and

(b) The number of resident full-time students and the full-time equivalent number of part-time

students who were enrolled in the public schools of the district on the last Wednesday in January of the previous year and who were in attendance one day or more during the preceding ten school days, plus the full-time equivalent number of summer school pupils.

“Full-time equivalent number of part-time students” is determined by dividing the total number of hours for which all part-time students are enrolled by the number of hours in the school term. “Full-time equivalent number of summer school pupils” is determined by dividing the total number of hours for which all summer school pupils were enrolled by the number of hours required pursuant to section 160.011, RSMo, in the school term. Only students eligible to be counted for average daily attendance shall be counted for membership;

(12) “Operating levy for school purposes”, the sum of tax rates levied for teachers' and incidental funds plus the operating levy or sales tax equivalent pursuant to section 162.1100, RSMo, of any transitional school district containing the school district, in the payment year, not including any equalized operating levy for school purposes levied by a special school district in which the district is located;

(13) “Performance district”, any district that has met all performance standards and indicators as established by the department of elementary and secondary education for purposes of accreditation under section 161.092, RSMo, and as reported on the final annual performance report for that district each year;

(14) “Performance levy”, three dollars and forty-three cents;

(15) “School purposes” pertains to teachers' and incidental funds;

(16) “Special education pupil count”, the number of public school students with a current individualized education program and receiving services from the resident district as of December

first of the preceding school year **and nonpublic students served through the federal Individuals with Disabilities Education Act by the district in which the nonpublic school is located**, except for special education services provided through a school district established under sections 162.815 to 162.940, RSMo, in a county with a charter form of government and with more than one million inhabitants, in which case the sum of the students in each district within the county exceeding the special education threshold of each respective district within the county shall be counted within the special district and not in the district of residence for purposes of distributing the state aid derived from the special education pupil count;

(17) “Special education threshold” shall be calculated by dividing the total special education pupil count of every performance district that falls entirely above the bottom five percent and entirely below the top five percent of average daily attendance, when such districts are rank-ordered based on their current operating expenditures per average daily attendance, by the total average daily attendance of all included performance districts;

(18) “State adequacy target”, the sum of the current operating expenditures of every performance district that falls entirely above the bottom five percent and entirely below the top five percent of average daily attendance, when such districts are rank-ordered based on their current operating expenditures per average daily attendance, divided by the total average daily attendance of all included performance districts. The department of elementary and secondary education shall first calculate the state adequacy target for fiscal year 2007 and recalculate the state adequacy target every two years using the most current available data. The recalculation shall never result in a decrease from the previous state adequacy target amount. Should a recalculation result in an increase in the state adequacy target amount, fifty percent of that increase shall be included in the state adequacy target amount in the year of recalculation, and fifty percent of that

increase shall be included in the state adequacy target amount in the subsequent year. The state adequacy target may be adjusted to accommodate available appropriations;

(19) “Teacher”, any teacher, teacher-secretary, substitute teacher, supervisor, principal, supervising principal, superintendent or assistant superintendent, school nurse, social worker, counselor or librarian who shall, regularly, teach or be employed for no higher than grade twelve more than one-half time in the public schools and who is certified under the laws governing the certification of teachers in Missouri;

(20) “Weighted average daily attendance”, the average daily attendance plus the product of twenty-five hundredths multiplied by the free and reduced lunch pupil count that exceeds the free and reduced lunch threshold, plus the product of seventy-five hundredths multiplied by the number of special education pupil count that exceeds the special education threshold, and plus the product of six-tenths multiplied by the number of limited English proficiency pupil count that exceeds the limited English proficiency threshold. For special districts established under sections 162.815 to 162.940, RSMo, in a county with a charter form of government and with more than one million inhabitants, weighted average daily attendance shall be the average daily attendance plus the product of twenty-five hundredths multiplied by the free and reduced lunch pupil count that exceeds the free and reduced lunch threshold, plus the product of seventy-five hundredths multiplied by the sum of the special education pupil count that exceeds the threshold for each county district, plus the product of six-tenths multiplied by the limited English proficiency pupil count that exceeds the limited English proficiency threshold. None of the districts comprising a special district established under sections 162.815 to 162.940, RSMo, in a county with a charter form of government and with more than one million inhabitants, shall use any special education pupil count in calculating their weighted average daily attendance.”; and

Further amend the title and enacting clause accordingly.

Senator Gibbons moved that the above amendment be adopted, which motion prevailed.

assessment shall be a comprehensive, performance-based evaluation of the teacher. The assessment designated by the department shall be an existing assessment tool, such as the Praxis Examination, the National Teacher Examination, or another existing assessment tool. Multiple assessments shall be designated in order to assess each teacher according to the specific subject area taught by the teacher. The department may promulgate rules in order to effectuate the provisions of this section, including objective measures to determine whether a teacher demonstrates a minimum level of competency in the teacher's subject area, as well as whether a teacher demonstrates a high level of competency in the teacher's subject area based on a score of ninety percent or better on the assessment. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. more of the assessments designated by the department of elementary and secondary education in section 161.660, RSMo. The school district shall notify each teacher of the results of the assessment by certified mail sent to the teacher.

3. Any teacher who fails to demonstrate a minimum level of competency, based on the results of the assessment required by subsection 1 of this section, shall be allowed to re-take the assessment no more than one time within three months after receiving notification of the failure.

4. Notwithstanding the provisions of sections 168.221, RSMo and 168.281, RSMo, a teacher that fails to demonstrate a minimum level of competency shall not be considered a permanent employee of the school district.

5. A teacher that demonstrates a high level of competency, as determined by rules promulgated by the department of elementary and secondary education under authority granted in section 161.660, RSMo, shall be exempt from the assessment required by this section for the next five-year period.

6. The provisions of this section shall not apply to a teacher for five years after the teacher first obtains licensure in this state. Any teacher that demonstrates a high level of competency on the initial licensure examination is exempted from the provisions of this section for a period of ten years from the date of initial licensure as a teacher.”; and

by inserting after all of said line the following:

“143.121. 1. The Missouri adjusted gross income of a resident individual shall be the taxpayer's federal adjusted gross income subject to the modifications in this section.

2. There shall be added to the taxpayer's federal adjusted gross income:

(a) The amount of any federal income tax refund received for a prior year which resulted in a Missouri income tax benefit;

(b) Interest on certain governmental obligations excluded from federal gross income by Section 103 of the Internal Revenue Code. The previous sentence shall not apply to interest on obligations of the state of Missouri or any of its political subdivisions or authorities and shall not apply to the interest described in subdivision (a) of subsection 3 of this section. The amount added pursuant to this paragraph shall be reduced by the amounts applicable to such interest that would have been deductible in computing the taxable income of the taxpayer except only for the application of Section 265 of the Internal Revenue Code. The reduction shall only be made if it is at least five hundred dollars;

(c) The amount of any deduction that is included in the computation of federal taxable income pursuant to Section 168 of the Internal Revenue Code as amended by the Job Creation and Worker Assistance Act of 2002 to the extent the amount deducted relates to property purchased on or after July 1, 2002, but before July 1, 2003, and to the extent the amount deducted exceeds the amount that would have been deductible pursuant to Section 168 of the Internal Revenue Code of 1986 as in effect on January 1, 2002; and

(d) The amount of any deduction that is included in the computation of federal taxable income for net operating loss allowed by Section 172 of the Internal Revenue Code of 1986, as amended, other than the deduction allowed by Section 172(b)(1)(G) and Section 172(i) of the

Internal Revenue Code of 1986, as amended, for a net operating loss the taxpayer claims in the tax year in which the net operating loss occurred or carries forward for a period of more than twenty years and carries backward for more than two years. Any amount of net operating loss taken against federal taxable income but disallowed for Missouri income tax purposes pursuant to this paragraph after June 18, 2002, may be carried forward and taken against any income on the Missouri income tax return for a period of not more than twenty years from the year of the initial loss.

3. There shall be subtracted from the taxpayer's federal adjusted gross income the following amounts to the extent included in federal adjusted gross income:

(a) Interest or dividends on obligations of the United States and its territories and possessions or of any authority, commission or instrumentality of the United States to the extent exempt from Missouri income taxes pursuant to the laws of the United States. The amount subtracted pursuant to this paragraph shall be reduced by any interest on indebtedness incurred to carry the described obligations or securities and by any expenses incurred in the production of interest or dividend income described in this paragraph. The reduction in the previous sentence shall only apply to the extent that such expenses including amortizable bond premiums are deducted in determining the taxpayer's federal adjusted gross income or included in the taxpayer's Missouri itemized deduction. The reduction shall only be made if the expenses total at least five hundred dollars;

(b) The portion of any gain, from the sale or other disposition of property having a higher adjusted basis to the taxpayer for Missouri income tax purposes than for federal income tax purposes on December 31, 1972, that does not exceed such difference in basis. If a gain is considered a long-term capital gain for federal income tax purposes, the modification shall be limited to

one-half of such portion of the gain;

(c) The amount necessary to prevent the taxation pursuant to this chapter of any annuity or other amount of income or gain which was properly included in income or gain and was taxed pursuant to the laws of Missouri for a taxable year prior to January 1, 1973, to the taxpayer, or to a decedent by reason of whose death the taxpayer acquired the right to receive the income or gain, or to a trust or estate from which the taxpayer received the income or gain;

(f) The portion of capital gain specified in section 135.357, RSMo, that would otherwise be included in federal adjusted gross income;

(g) The amount that would have been deducted in the computation of federal taxable income pursuant to Section 168 of the Internal Revenue Code as in effect on January 1, 2002, to the extent that amount relates to property purchased on or after July 1, 2002, but before July 1, 2003, and to the extent that amount exceeds the amount actually deducted pursuant to Section 168 of the Internal Revenue Code as amended by the Job Creation and Worker Assistance Act of 2002;

(h) For all tax years beginning on or after January 1, 2005, the amount of any income received for military service while the taxpayer serves in a combat zone which is included in federal adjusted gross income and not otherwise excluded therefrom. As used in this section, "combat zone" means any area which the President of the United States by Executive Order designates as an area in which armed forces of the United States are or have engaged in combat. Service is performed in a combat zone only if performed on

or after the date designated by the President by Executive Order as the date of the commencing of combat activities in such zone, and on or before the date designated by the President by Executive Order as the date of the termination of combatant activities in such zone; [and]

(i) For all tax years ending on or after July 1, 2002, with respect to qualified property that is sold or otherwise disposed of during a taxable year by a taxpayer and for which an addition modification was made under paragraph (c) of subsection 2 of this section, the amount by which addition modification made under paragraph (c) of subsection 2 of this section on qualified property has not been recovered through the additional subtractions provided in paragraph (g) of this subsection; **and**

(j) The amount of any qualified higher education expenses determined under section 143.1014.

4. There shall be added to or subtracted from the taxpayer's federal adjusted gross income the taxpayer's share of the Missouri fiduciary adjustment provided in section 143.351.

5. There shall be added to or subtracted from the taxpayer's federal adjusted gross income the modifications provided in section 143.411.

(5) “Taxpayer”, any student filing income tax returns or a taxpayer who claims a student as a dependent.

3. If any taxpayer with a federal adjusted gross income of less than two hundred thousand dollars incurs tuition or fee expenses for enrollment of at least half time at a higher education institution, such taxpayer shall subtract from such taxpayer's federal adjusted gross income an amount equal to one hundred percent of such costs the taxpayer paid during the taxable year.

4. The department may promulgate such rules or regulations as are necessary to administer the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028,

RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2007, shall be invalid and void.

5. The provisions of this section shall apply to all tax years beginning on or after January 1, 2008.”; and

Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2007, shall be invalid and void.

5. The provisions of this section shall apply to all tax years beginning on or after January 1, 2008.

143.121. 1. The Missouri adjusted gross income of a resident individual shall be the taxpayer's federal adjusted gross income subject to the modifications in this section.

2. There shall be added to the taxpayer's federal adjusted gross income:

(a) The amount of any federal income tax refund received for a prior year which resulted in a Missouri income tax benefit;

(b) Interest on certain governmental obligations excluded from federal gross income by Section 103 of the Internal Revenue Code. The previous sentence shall not apply to interest on

obligations of the state of Missouri or any of its political subdivisions or authorities and shall not apply to the interest described in subdivision (a) of subsection 3 of this section. The amount added pursuant to this paragraph shall be reduced by the amounts applicable to such interest that would have been deductible in computing the taxable income of the taxpayer except only for the application of Section 265 of the Internal Revenue Code. The reduction shall only be made if it is at least five hundred dollars;

(c) The amount of any deduction that is included in the computation of federal taxable income pursuant to Section 168 of the Internal Revenue Code as amended by the Job Creation and Worker Assistance Act of 2002 to the extent the amount deducted relates to property purchased on or after July 1, 2002, but before July 1, 2003, and to the extent the amount deducted exceeds the amount that would have been deductible pursuant to Section 168 of the Internal Revenue Code of 1986 as in effect on January 1, 2002; and

(d) The amount of any deduction that is included in the computation of federal taxable income for net operating loss allowed by Section 172 of the Internal Revenue Code of 1986, as amended, other than the deduction allowed by Section 172(b)(1)(G) and Section 172(i) of the Internal Revenue Code of 1986, as amended, for a net operating loss the taxpayer claims in the tax year in which the net operating loss occurred or carries forward for a period of more than twenty years and carries backward for more than two years. Any amount of net operating loss taken against federal taxable income but disallowed for Missouri income tax purposes pursuant to this paragraph after June 18, 2002, may be carried forward and taken against any income on the Missouri income tax return for a period of not more than twenty years from the year of the initial loss.

3. There shall be subtracted from the taxpayer's federal adjusted gross income the

following amounts to the extent included in federal adjusted gross income:

(a) Interest or dividends on obligations of the United States and its territories and possessions or of any authority, commission or instrumentality of the United States to the extent exempt from Missouri income taxes pursuant to the laws of the United States. The amount subtracted pursuant to this paragraph shall be reduced by any interest on indebtedness incurred to carry the described obligations or securities and by any expenses incurred in the production of interest or dividend income described in this paragraph. The reduction in the previous sentence shall only apply to the extent that such expenses including amortizable bond premiums are deducted in determining the taxpayer's federal adjusted gross income or included in the taxpayer's Missouri itemized deduction. The reduction shall only be made if the expenses total at least five hundred dollars;

(b) The portion of any gain, from the sale or other disposition of property having a higher adjusted basis to the taxpayer for Missouri income tax purposes than for federal income tax purposes on December 31, 1972, that does not exceed such difference in basis. If a gain is considered a long-term capital gain for federal income tax purposes, the modification shall be limited to one-half of such portion of the gain;

(c) The amount necessary to prevent the taxation pursuant to this chapter of any annuity or other amount of income or gain which was properly included in income or gain and was taxed pursuant to the laws of Missouri for a taxable year prior to January 1, 1973, to the taxpayer, or to a decedent by reason of whose death the taxpayer acquired the right to receive the income or gain, or to a trust or estate from which the taxpayer received the income or gain;

(d) Accumulation distributions received by a taxpayer as a beneficiary of a trust to the extent that the same are included in federal adjusted gross income;

(e) The amount of any state income tax refund for a prior year which was included in the federal adjusted gross income;

(f) The portion of capital gain specified in section 135.357, RSMo, that would otherwise be included in federal adjusted gross income;

(g) The amount that would have been deducted in the computation of federal taxable income pursuant to Section 168 of the Internal Revenue Code as in effect on January 1, 2002, to the extent that amount relates to property purchased on or after July 1, 2002, but before July 1, 2003, and to the extent that amount exceeds the amount actually deducted pursuant to Section 168 of the Internal Revenue Code as amended by the Job Creation and Worker Assistance Act of 2002;

(h) For all tax years beginning on or after January 1, 2005, the amount of any income received for military service while the taxpayer serves in a combat zone which is included in federal adjusted gross income and not otherwise excluded therefrom. As used in this section, "combat zone" means any area which the President of the United States by Executive Order designates as an area in which armed forces of the United States are or have engaged in combat. Service is performed in a combat zone only if performed on or after the date designated by the President by Executive Order as the date of the commencing of combat activities in such zone, and on or before the date designated by the President by Executive Order as the date of the termination of combatant activities in such zone; [and]

(i) For all tax years ending on or after July 1, 2002, with respect to qualified property that is sold or otherwise disposed of during a taxable year by a taxpayer and for which an addition modification was made under paragraph (c) of subsection 2 of this section, the amount by which addition modification made under paragraph (c) of subsection 2 of this section on qualified property has not been recovered through the additional subtractions provided in paragraph (g) of this

subsection; and

(j) The amount of any qualified employee health insurance expenses incurred by a small business or farmer as determined under section 135.237, RSMo.

4. There shall be added to or subtracted from the taxpayer's federal adjusted gross income the taxpayer's share of the Missouri fiduciary adjustment provided in section 143.351.

5. There shall be added to or subtracted from the taxpayer's federal adjusted gross income the modifications provided in section 143.411.

6. In addition to the modifications to a taxpayer's federal adjusted gross income in this section, to calculate Missouri adjusted gross income there shall be subtracted from the taxpayer's federal adjusted gross income any gain recognized pursuant to Section 1033 of the Internal Revenue Code of 1986, as amended, arising from compulsory or involuntary conversion of property as a result of condemnation or the imminence thereof.”; and

Further amend the title and enacting clause accordingly.

Further amend said bill, Page 10, Section 143.125, Line 16, by inserting after all of said line the following:

"143.431. 1. The Missouri taxable income of a corporation taxable under sections 143.011 to 143.996 shall be so much of its federal taxable income for the taxable year, with the modifications specified in subsections 2 to 4 of this section, as is derived from sources within Missouri as provided in section 143.451. The tax of a corporation shall be computed on its Missouri taxable income at the rates provided in section 143.071.

2. There shall be added to or subtracted from federal taxable income the modifications to adjusted gross income provided in section 143.121, **with the exception of subdivision (e) of subsection 2 of section 143.121**, and the applicable modifications to itemized deductions provided in section 143.141. There shall be subtracted the federal income tax deduction provided in section 143.171. There shall be subtracted, to the extent included in federal taxable income, corporate dividends from sources within Missouri.

3. (1) If an affiliated group of corporations files a consolidated income tax return for the taxable year for federal income tax purposes and fifty percent or more of its income is derived from

sources within this state as determined in accordance with section 143.451, then it may elect to file a Missouri consolidated income tax return. The federal consolidated taxable income of the electing affiliated group for the taxable year shall be its federal taxable income.

(2) So long as a federal consolidated income tax return is filed, an election made by an affiliated group of corporations to file a Missouri consolidated income tax return may be withdrawn or revoked only upon substantial change in the law or regulations adversely changing tax liability under this chapter, or with permission of the director of revenue upon the showing of good cause for such action. After such a withdrawal or revocation with respect to an affiliated group, it may not file a Missouri consolidated income tax return for five years thereafter, except with the approval of the director of revenue, and subject to such terms and conditions as he may prescribe.

(3) No corporation which is part of an affiliated group of corporations filing a Missouri consolidated income tax return shall be required to file a separate Missouri corporate income tax return for the taxable year.

(4) For each taxable year an affiliated group of corporations filing a federal consolidated income tax return does not file a Missouri consolidated income tax return, for purposes of computing the Missouri income tax, the federal taxable income of each member of the affiliated group shall be determined as if a separate federal income tax return had been filed by each such member.

(5) The director of revenue may prescribe such regulations not inconsistent with the provisions of this chapter as he may deem necessary in order that the tax liability of any affiliated group of corporations making a Missouri consolidated income tax return, and of each corporation in the group, before, during, and after the period of affiliation, may be returned, determined, computed, assessed, collected, and adjusted, in such manner as clearly to reflect the

Missouri taxable income derived from sources within this state and in order to prevent avoidance of such tax liability.

4. If a net operating loss deduction is allowed for the taxable year, there shall be added to federal taxable income the amount of the net operating loss modification for each loss year as to which a portion of the net operating loss deduction is attributable. As used in this subsection, the following terms mean:

(1) "Loss year", the taxable year in which there occurs a federal net operating loss that is carried back or carried forward in whole or in part to another taxable year;

(2) "Net addition modification", for any taxable year, the amount by which the sum of all required additions to federal taxable income provided in this chapter, except for the net operating loss modification, exceeds the combined sum of the amount of all required subtractions from federal taxable income provided in this chapter;

(3) "Net operating loss deduction", a net operating loss deduction allowed for federal income tax purposes under Section 172 of the Internal Revenue Code of 1986, as amended, or a net operating loss deduction allowed for Missouri income tax purposes under paragraph (d) of subsection 2 of section 143.121, but not including any net operating loss deduction that is allowed for federal income tax purposes but disallowed for Missouri income tax purposes under paragraph (d) of subsection 2 of section 143.121;

(4) "Net operating loss modification", an amount equal to the lesser of the amount of the net operating loss deduction attributable to that loss year or the amount by which the total net operating loss in the loss year is less than the sum of:

(a) The net addition modification for that loss year; and

(b) The cumulative net operating loss deductions attributable to that loss year allowed for

the taxable year and all prior taxable years.

5. For all tax years ending on or after July 1, 2002, federal taxable income may be a positive or negative amount. Subsection 4 of this section shall be effective for all tax years with a net operating loss deduction attributable to a loss year ending on or after July 1, 2002, and the net operating loss modification shall only apply to loss years ending on or after July 1, 2002.”; and

Further amend the title and enacting clause accordingly.

Senator Bray moved that the above amendment be adopted, which motion prevailed.

Journal of the Senate

FIRST REGULAR SESSION

SIXTY-FOURTH DAY—WEDNESDAY, MAY 2, 2007

The Senate met pursuant to adjournment.

President Kinder in the Chair.

Reverend Carl Gauck offered the following prayer:

“Government is not warfare of interests. We shall not gain our ends by heat and bitterness, which make it impossible to think either calmly or fairly...” (Woodrow Wilson)

Merciful Father, it’s already been an interesting week with yet so much still ahead of us, and “heat” being generated making things more difficult for us to think calmly and deal with each other fairly and rationally. Help us this day to acquire Your spirit within us; so that what is said is helpful, what is done is right in Your eyes, and the people benefit from our efforts. And Lord, we pray for Senator Rupp and ask that the hand of the surgeon is skillful and Your healing is present for him. And for Senator Goodman, that Your healing may be complete and he is restored to full health. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

HOUSE SUBSTITUTE AMENDMENT NO. 1 FOR HOUSE AMENDMENT NO. 1

Amend House Committee Substitute No. 2 for Senate Bill No. 406, Page 2, Section 87.006, by inserting after all of said section the following:

“103.080. 1. As used in this section, the following terms shall mean:

(1) “Health savings account” or “account”, shall have the same meaning ascribed to it as in 26 U.S.C. Section 223(d), as amended;

(2) “High deductible health plan”, a policy or contract of health insurance or health care plan that meets the criteria established in 26 U.S.C. Section 223(c)(2), as amended, and any regulations promulgated thereunder.

2. Beginning with the open enrollment period for the 2008 plan year, the board shall offer to all qualified employees and participating public entities the option of receiving health care coverage through a high deductible health plan and the establishment of a health savings account. In no instance shall a qualified employee be required to enroll in a high deductible health plan with a deductible greater than the minimum allowed by law, however, a qualified employee shall have the option to enroll in a high deductible health plan up to the maximum allowed by law. The health savings account shall conform to the guidelines to be established by the Internal Revenue Service for the 2008 tax year but in no case shall a qualified employee be required to contribute more than the minimum amount allowed by law. A qualified employee may contribute up to the maximum allowed by law. In order for a qualified individual to obtain a high deductible health plan through the Missouri consolidated health care plan, such individual shall present evidence, in a manner prescribed by regulation, to the board that he or she has established a

health savings account in compliance with 26 U.S.C. Section 223, and any amendments and regulations promulgated thereto.

3. The board is authorized to promulgate rules and regulations for the administration and implementation of this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2007, shall be invalid and void.

4. The board shall issue a request for proposals from insurance carriers interested in offering a high deductible health plan in connection with a health savings account.”; and

Further amend said bill by amending the title, enacting clause, and intersectional references accordingly.

HOUSE AMENDMENT NO. 2

Amend House Committee Substitute No. 2 for Senate Bill No. 406, Page 2, Section 87.006, by inserting after all of said section the following:

“94.579. 1. The governing body of any home rule city with more than one hundred fifty-one thousand five hundred but fewer than one hundred fifty-one thousand six hundred inhabitants is hereby authorized to impose, by order or ordinance, a sales tax on all retail sales made within the city which are subject to sales tax under chapter 144, RSMo. The tax authorized in this section shall not exceed one percent, and shall be imposed solely for the

purpose of providing revenues for the operation of public safety departments, including police and fire departments, and for pension programs, and health care for employees and pensioners of the public safety departments. The tax authorized in this section shall be in addition to all other sales taxes imposed by law, and shall be stated separately from all other charges and taxes. The order or ordinance shall not become effective unless the governing body of the city submits to the voters residing within the city at a state general, primary, or special election a proposal to authorize the governing body of the city to impose a tax under this section.

2. The ballot of submission for the tax authorized in this section

shall be in substantially the following form:

Shall (insert the name of the city) impose a sales tax at a rate of (up to one) percent, solely for the purpose of providing revenues for the operation of public safety departments of the city?

☐ YES

☐ NO

If you are in favor of the question, place an “X” in the box opposite “YES”. If you are opposed to the question, place an “X” in the box opposite “NO”.

If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the question, then the tax shall become effective on the first day of the second calendar quarter immediately following notification to the department of revenue. If a majority of the votes cast on the question by the qualified voters voting thereon are opposed to the question, then the tax shall not become effective unless and until the question is resubmitted under this section to the qualified voters and such question is approved by a majority of the qualified voters voting on the question.

3. All revenue collected under this section

by the director of the department of revenue on behalf of any city, except for one percent for the cost of collection which shall be deposited in the state's general revenue fund, shall be deposited in a special trust fund, which is hereby created and shall be known as the "Public Safety Protection

Sales Tax Fund", and shall be used solely for the designated purposes. Moneys in the fund shall not be deemed to be state funds, and shall not be commingled with any funds of the state. The director may make refunds from the amounts in the trust fund and credited to the city for erroneous payments and overpayments made, and may redeem dishonored checks and drafts deposited to the credit of such city. Any funds in the special trust fund which are not needed for current expenditures shall be invested in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund. The director shall keep accurate records of the amounts in the fund, and such records shall be open to the inspection of the officers of such city and to the public. Not later than the tenth day of each month, the director shall distribute all moneys deposited in the fund during the preceding month to the city. Such funds shall be deposited with the treasurer of the city, and all expenditures of moneys from the fund shall be by an appropriation ordinance enacted by the governing body of the city.

4. On or after the effective date of the tax, the director of revenue shall be responsible for the administration, collection, enforcement, and operation of the tax, and sections 32.085 and 32.087, RSMo, shall apply. In order to permit sellers required to collect and report the sales tax to collect the amount required to be reported and remitted, but not to change the requirements of reporting or remitting the tax, or to serve as a levy of the tax, and in order to avoid fractions of pennies, the governing body

of the city may authorize the use of a bracket system similar to that authorized in section 144.285, RSMo, and notwithstanding the provisions of that section, this new bracket system shall be used where this tax is imposed and shall apply to all taxable transactions. Beginning with the effective date of the tax, every retailer in the city shall add the sales tax to the sale price, and this tax shall be a debt of the purchaser to the retailer until paid, and shall be recoverable at law in the same manner as the purchase price. For purposes of this section, all retail sales shall be deemed to be consummated at the place of business of the retailer.

5. All applicable provisions in sections 144.010 to 144.525, RSMo, governing the state sales tax, and section 32.057, RSMo, the uniform confidentiality provision, shall apply to the collection of the tax, and all exemptions granted to agencies of government, organizations, and persons under sections 144.010 to 144.525, RSMo, are hereby made applicable to the imposition and collection of the tax. The same sales tax permit, exemption certificate, and retail certificate required by sections 144.010 to 144.525, RSMo, for the administration and collection of the state sales tax shall satisfy the requirements of this section, and no additional permit or exemption certificate or retail certificate shall be required; except that, the director of revenue may prescribe a form of exemption certificate for an exemption from the tax. All discounts allowed the retailer under the state sales tax for the collection of and for payment of taxes are hereby allowed and made applicable to the tax. The penalties for violations provided in section 32.057, RSMo, and sections 144.010 to 144.525, RSMo, are hereby made applicable to violations of this section. If any person is delinquent in the payment of the amount required to be paid under this section, or in the event a determination has been made against the person

for the tax and penalties under this section, the limitation for bringing suit for the collection of the delinquent tax and penalties shall be the same as that provided in sections 144.010 to 144.525, RSMo.

6. The governing body of any city that has adopted the sales tax authorized in this section may submit the question of repeal of the tax to the voters on any date available for elections for the city. The ballot of submission shall be in substantially the following form:

Shall (insert the name of the city) repeal the sales tax imposed at a rate of (up to one) percent for the purpose of providing revenues for the operation of public safety departments of the city?

☐ YES

☐ NO

If you are in favor of the question, place an "X" in the box opposite "YES". If you are opposed to the question, place an "X" in the box opposite "NO".

If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of repeal, that repeal shall become effective on December thirty-first of the calendar year in which such repeal was approved. If a majority of the votes cast on the question by the qualified voters voting thereon are opposed to the repeal, then the sales tax authorized in this section shall remain effective until the question is resubmitted under this section to the qualified voters and the repeal is approved by a majority of the qualified voters voting on the question.

7. The governing body of any city that has adopted the sales tax authorized in this section shall submit the question of repeal of the tax to the voters every five years from the date of its inception on a date available for elections for the city. The ballot of submission shall be in substantially the following form:

Shall (insert the name of the city) repeal the sales tax imposed at a rate of (up

to one) percent for the purpose of providing revenues for the operation of public safety departments of the city?

☐ YES

☐ NO

If you are in favor of the question, place an "X" in the box opposite "YES". If you are opposed to the question, place an "X" in the box opposite "NO".

If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of repeal, that repeal shall become effective on December thirty-first of the calendar year in which such repeal was approved. If a majority of the votes cast on the question by the qualified voters voting thereon are opposed to the repeal, then the sales tax authorized in this section shall remain effective until the question is resubmitted under this section to the qualified voters and the repeal is approved by a majority of the qualified voters voting on the question.

8. Whenever the governing body of any city that has adopted the sales tax authorized in this section receives a petition, signed by a number of registered voters of the city equal to at least two percent of the number of registered voters of the city voting in the last gubernatorial election, calling for an election to repeal the sales tax imposed under this section, the governing body shall submit to the voters of the city a proposal to repeal the tax. If a majority of the votes cast on the question by the qualified voters voting thereon are in favor of the repeal, the repeal shall become effective on December thirty-first of the calendar year in which such repeal was approved. If a majority of the votes cast on the question by the qualified voters voting thereon are opposed to the repeal, then the sales tax authorized in this section shall remain effective until the question is resubmitted under this section to the qualified voters and the repeal is approved by a majority of the qualified voters voting on the question.

9. If the tax is repealed or terminated by any means, all funds remaining in the special trust fund shall continue to be used solely for the designated purposes, and the city shall notify the director of the department of revenue of the action at least ninety days before the effective date of the repeal and the director may order retention in the trust fund, for a period of one year, of two percent of the amount collected after receipt of such notice to cover possible refunds or overpayment of the tax and to redeem dishonored checks and drafts deposited to the credit of such accounts. After one year has elapsed after the effective date of abolition of the tax in such city, the director shall remit the balance in the account to the city and close the account of that city. The director shall notify each city of each instance of any amount refunded or any check redeemed from receipts due the city.”; and

Further amend said bill, Page 44, Section 105.683, Line 1, by inserting after the words, “**Any plan,**” the following words, “**other than a plan created pursuant to sections 169.010 through 169.141 or sections 169.600 through 169.715,**”; and

Further amend said section, Page 44, Line 3, by deleting the word, “**three**” and inserting in lieu thereof the word, “**five**”; and

Further amend said section, Page 44, Line 4, by deleting the word, “**three**” and inserting in lieu thereof the word, “**five**”; and

Further amend said bill by amending the title, enacting clause, and intersectional references accordingly.

Amend House Committee Substitute No. 2 for Senate Bill No. 406, Page 15, Section 104.320, Line 57, by inserting after the word, “**contracts**” the following words, “**and may employ or contract with third-party advisors**”; and

Further amend said section, Page 15, Line 58,

by inserting after the word, “**section.**” the following words, “**The board shall have the power to borrow money for any of the authorized purposes of the board and to issue negotiable notes, bonds or other instruments in writing in evidence of the sum or sums to be borrowed.**”; and

HOUSE AMENDMENT NO. 5

Amend House Committee Substitute No. 2 for Senate Bill No. 406, Page 1, Section A, by inserting after all of said section the following:

“50.1250. 1. If a member has less than five years of creditable service upon termination of employment, the member shall forfeit the portion of his or her defined contribution account attributable to board matching contributions or county matching contributions pursuant to section 50.1230. The proceeds of such forfeiture shall be applied towards matching contributions made by the board for the calendar year in which the forfeiture occurs. If the board does not approve a matching contribution, then forfeitures shall revert to the county employees' retirement fund. The proceeds of such forfeiture with respect to county matching contributions shall be applied toward matching contributions made by the respective county in accordance with rules prescribed by the board.

2. A member shall be eligible to receive a distribution of the member's defined contribution account in such form selected by the member as permitted under and in accordance with the rules and regulations formulated and adopted by the board from time to time, and commencing as soon as administratively feasible following separation from service, unless the member elects to receive the account balance at a later time, but no later than his or her required beginning date. Notwithstanding the foregoing, if the value of a

member's defined contribution account balance is [five] one thousand dollars or less at the time of the member's separation from service, without respect to any board-matching contributions or employer-matching contribution which might be allocated following the member's separation from service, then his or her defined contribution account shall be distributed to the member in a single sum as soon as administratively feasible following his or her separation from service. The amount of the distribution shall be the amount determined as of the valuation date described in section 50.1240, if the member has at least five years of creditable service. If the member has less than five years of creditable service upon his or her separation from service, then the amount of the distribution shall equal the portion of the member's defined contribution account attributable to the member's seed contributions pursuant to section 50.1220, if any, determined as of the valuation date.

3. If the member dies before receiving the member's account balance, the member's designated beneficiary shall receive the member's defined contribution account balance, as determined as of the immediately preceding valuation date, in a single sum. The member's beneficiary shall be his or her spouse, if married, or his or her estate, if not married, unless the member designates an alternative beneficiary in accordance with procedures established by the board.”; and

Further amend said bill by amending the title, enacting clause, and intersectional references accordingly.

HOUSE AMENDMENT NO. 6

Amend House Committee Substitute No. 2 for Senate Bill No. 406, Page 1, Section A, Line 10, by inserting after all of said line the following:

“86.1230. 1. Any member who retires subsequent to August 28, 1991, with entitlement to a pension under sections 86.900 to 86.1280, shall

receive each month, in addition to such member's base pension and cost-of-living adjustments thereto under section 86.1220, and in addition to any other compensation or benefit to which such member may be entitled under sections 86.900 to 86.1280, a supplemental retirement benefit of fifty dollars per month. The amount of such supplemental retirement benefit may be adjusted by cost-of-living adjustments determined by the retirement board not more frequently than annually. [Such determination shall be based on advice of the plan's actuary that the increase in the benefit will not cause the present value of anticipated future plan benefits, calculated on the actuarial assumptions used for the most recent annual valuation, to exceed the sum of the trust fund assets plus the present value of anticipated contributions to the trust fund.]

2. Any member who was retired on or before August 28, 1991, and is receiving retirement benefits from the retirement system shall, upon application to the retirement board, be retained as a consultant, and for such services such member shall receive each month, in addition to such member's base pension and cost-of-living adjustments thereto under section 86.1220, and in addition to any other compensation or benefit to which such member may be entitled under sections 86.900 to 86.1280, a supplemental compensation in the amount of fifty dollars per month. This appointment as a consultant shall in no way affect any member's eligibility for retirement benefits under the provisions of sections 86.900 to 86.1280, or in any way have the effect of reducing retirement benefits otherwise payable to such member. The amount of such supplemental compensation under this subsection may be adjusted by cost-of-living adjustments determined by the retirement board not more frequently than annually. [Such determination shall be based on advice of the plan's actuary that the increase in the benefit will not cause the present value of anticipated future plan benefits, calculated on the actuarial assumptions used for the most recent

annual valuation, to exceed the sum of the trust fund assets plus the present value of anticipated contributions to the trust fund.]

3. [In determining and granting the cost-of-living adjustments under this section, the retirement board shall adopt such rules and regulations as may be necessary to effectuate the purposes of this section, including provisions for the manner of computation of such adjustments and the effective dates thereof. The retirement board shall provide for such adjustments to be determined once each year and granted on a date or dates to be chosen by the board. The retirement board shall not be required to prorate the initial adjustment to any supplemental retirement benefit or any supplemental compensation under this section for any member.

4.] For purposes of subsections 1 and 2 of this section, the term "member" shall include a surviving spouse entitled to a benefit under sections 86.900 to 86.1280 who shall be deemed to have retired for purposes of this section on the date of retirement of the member of whom such person is the surviving spouse or on the date of death of such member if such member died prior to retirement; provided, that if the surviving spouse of any member who retired prior to August 28, 2000, shall not have remarried prior to August 28, 2000, but remarries thereafter, such surviving spouse shall thereafter receive benefits under subsection 2 of this section, and provided further, that no benefits shall be payable under this section to the surviving spouse of any member who retired prior to August 28, 2000, if such surviving spouse was at any time remarried after the member's death and prior to August 28, 2000. All benefits payable to a surviving spouse under this section shall be in addition to all other benefits to which such surviving spouse may be entitled under other provisions of sections 86.900 to 86.1280. Any such surviving spouse of a member who dies while entitled to payments under this section shall succeed to the full amount of payment under this

section to which such member was entitled at the time of such member's death, including any cost-of-living adjustments received by such member in the payment under this section prior to such member's death. In all events, the term "member" shall not include any children of the member who would be entitled to receive part or all of the pension which would be received by a surviving spouse if living.

4. Any member who is receiving benefits from the retirement system and who either was retired under the provisions of subdivision (1) of subsection 1 of section 86.1150, or who retired before August 28, 2001, under the provisions of section 86.1180 or section 86.1200, shall, upon application to the retirement board, be retained as a consultant. For such services such member shall receive each month in addition to such member's base pension and cost-of-living adjustments thereto under section 86.1220, and in addition to any other compensation or benefit to which such member may be entitled under sections 86.900 to 86.1280, an equalizing supplemental compensation of ten dollars per month. This appointment as a consultant shall in no way affect any member's eligibility for retirement benefits under the provisions of sections 86.900 to 86.1280, or in any way have the effect of reducing retirement benefits otherwise payable to such member. The amount of equalizing supplemental compensation under this subsection may be adjusted by cost-of-living adjustments, determined by the retirement board not more frequently than annually, but in no event shall the aggregate of such equalizing supplemental compensation together with all such cost-of-living adjustments thereto exceed twenty-five percent of the member's base pension. Each cost-of-living adjustment to compensation under this subsection shall be determined independently of any cost-of-living adjustment to any other benefit under sections 86.900 to 86.1280. For the purposes of this

subsection, the term “member” shall include a surviving spouse entitled to benefits under the provisions of section 86.900 to 86.1280, and who is the surviving spouse of a member who qualified, or would have qualified if living, for compensation under this subsection. Such surviving spouse shall, upon application to the retirement board, be retained as a consultant, and for such services shall be compensated in an amount equal to the compensation which would have been received by the member under this subsection, if living. Any such surviving spouse of a member who dies while entitled to payments under this subsection shall succeed to the full amount of payment under this subsection to which such member was entitled at the time of such member's death, including any cost-of-living adjustments received by such member in the payment under this subsection prior to such member's death. In all events, the term “member” shall not include any children of the member who would be entitled to receive part or all of the pension that would be received by a surviving spouse, if living.

5. A surviving spouse who is entitled to benefits under the provisions of subsection 1 of section 86.1240 as a result of the death prior to August 28, 2007, of a member in service, and who is receiving benefits from the retirement system, shall, upon application to the retirement board, be retained as a consultant, and for such services such surviving spouse shall receive each month an equalizing supplemental compensation of ten dollars per month. A surviving spouse entitled to benefits under the provisions of subsection 1 of section 86.1240 as a result of the death of a member in service on or after August 28, 2007, shall receive each month an equalizing supplemental benefit of ten dollars per month. All benefits payable to a surviving spouse under this subsection shall be in addition to all other benefits to which such surviving spouse may be entitled under other provisions of sections 86.900 to 86.1280 and

shall in no way have the effect of reducing benefits otherwise payable to such surviving spouse. The amount of equalizing supplemental benefit or equalizing supplemental compensation under this subsection may be adjusted by cost-of-living adjustments, determined by the retirement board not more frequently than annually, but in no event shall the aggregate of such equalizing supplemental benefit or compensation together with all such cost-of-living adjustments thereto exceed twenty-five percent of the base pension of the surviving spouse. Each cost-of-living adjustment to an equalizing supplemental benefit or compensation under this subsection shall be determined independently of any cost-of-living adjustment to any other benefit under sections 86.900 to 86.1280. In all events the term “surviving spouse” as used in this subsection shall not include any children of the member who would be entitled to receive part or all of the pension that would be received by a surviving spouse, if living.

6. In determining and granting the cost-of-living adjustments under this section, the retirement board shall adopt such rules and regulations as may be necessary to effectuate the purposes of this section, including provisions for the manner of computation of such adjustments and the effective dates thereof. The retirement board shall provide for such adjustments to be determined once each year and granted on a date or dates to be chosen by the board. The retirement board shall not be required to prorate the initial adjustment to any benefit or compensation under this section for any member.

[5.] 7. The determination of whether the retirement system will remain actuarially sound shall be made at the time any cost-of-living adjustment under this section is granted. If at any time the retirement system ceases to be actuarially sound, [supplemental retirement] any benefit

[payments under subsection 1 of this section and supplemental] or compensation payments [as a consultant under subsection 2 of] **provided under** this section shall continue as adjusted by increases or decreases theretofore granted. A member of the retirement board shall have no personal liability for granting increases under this section if that retirement board member in good faith relied and acted upon advice of a qualified actuary that the retirement system would remain actuarially sound.

86.1600. 1. Any member who retires subsequent to August 28, 1997, **and on or before August 28, 2007**, with entitlement to a pension under sections 86.1310 to 86.1640, **and any member who retires subsequent to August 28, 2007, with entitlement to a pension under sections 86.1310 to 86.1640 and who either has at least fifteen years of creditable service or is retired under subsection 1 of section 86.1560**, shall receive each month, in addition to such member's base pension and cost-of-living adjustments thereto under section 86.1590, and in addition to any other compensation or benefit to which such member may be entitled under sections 86.1310 to 86.1640, a supplemental retirement benefit of fifty dollars per month. The amount of such supplemental retirement benefit may be adjusted by cost-of-living adjustments determined by the retirement board not more frequently than annually. [Such determination shall be based on advice of the plan's actuary that the increase in the benefit will not cause the present value of anticipated future plan benefits, calculated on the actuarial assumptions used for the most recent annual valuation, to exceed the sum of the trust fund assets plus the present value of anticipated contributions to the trust fund.]

2. Any member who was retired on or before August 28, 1997, and is receiving retirement benefits from the retirement system shall, upon application to the retirement board, be retained as a consultant, and for such services such member shall receive each month, in addition to such

member's base pension and cost-of-living adjustments thereto under section 86.1590, and in addition to any other compensation or benefit to which such member may be entitled under sections 86.1310 to 86.1640, a supplemental compensation in the amount of fifty dollars per month. This appointment as a consultant shall in no way affect any member's eligibility for retirement benefits under the provisions of sections 86.1310 to 86.1640, or in any way have the effect of reducing retirement benefits otherwise payable to such member. The amount of such supplemental compensation under this subsection may be adjusted by cost-of-living adjustments determined by the retirement board not more frequently than annually. [Such determination shall be based on advice of the plan's actuary that the increase in the benefit will not cause the present value of anticipated future plan benefits, calculated on the actuarial assumptions used for the most recent annual valuation, to exceed the sum of the trust fund assets plus the present value of anticipated contributions to the trust fund.]

3. In determining and granting the cost-of-living adjustments under this section, the retirement board shall adopt such rules and regulations as may be necessary to effectuate the purposes of this section, including provisions for the manner of computation of such adjustments and the effective dates thereof. The retirement board shall provide for such adjustments to be determined once each year and granted on a date or dates to be chosen by the board. The retirement board shall not be required to prorate the initial adjustment to any supplemental retirement benefit or any supplemental compensation under this section for any member.

4. For purposes of subsections 1 and 2 of this section, the term "member" shall include a surviving spouse who is entitled to a benefit under sections 86.1310 to 86.1640, who shall be deemed to have retired for purposes of this section on the date of retirement of the member of whom such

person is the surviving spouse or on the date of death of such member if such member died prior to retirement; **provided, that no benefits shall be payable under this section to the surviving spouse of any member who died while in active service after August 28, 2007, unless such death occurred in the line of duty or course of employment or as the result of an injury or illness incurred in the line of duty or course of employment or unless such member had at least fifteen years of creditable service. The surviving spouse of a member who died in service after August 28, 2007, whose death occurred in the line of duty or course of employment or as the result of an injury or illness incurred in the line of duty or course of employment shall be entitled to benefits under subsection 1 of this section without regard to such member's years of creditable service.** All benefits payable to a surviving spouse under this section shall be in addition to all other benefits to which such surviving spouse may be entitled under other provisions of sections 86.1310 to 86.1640. Any [such] **qualifying** surviving spouse of a member who dies while entitled to payments under this section shall succeed to the full amount of payment under this section to which such member was entitled at the time of such member's death, including any cost-of-living adjustments received by such member in the payment under this section prior to such member's death.

5. The determination of whether the retirement system will remain actuarially sound shall be made at the time any cost-of-living adjustment under this section is granted. If at any time the retirement system ceases to be actuarially sound, supplemental retirement benefit payments under subsection 1 of this section and supplemental compensation payments as a consultant under subsection 2 of this section shall continue as adjusted by increases or decreases theretofore granted. A member of the retirement board shall have no personal liability for granting increases under this section if that retirement board member

Notwithstanding the provisions of section 301.020 to the contrary, beginning July 1, 2000, the director of revenue may provide owners of motor vehicles, other than commercial motor vehicles licensed in excess of twelve thousand pounds gross weight, the option of biennially registering motor vehicles. Any vehicle manufactured as an even-numbered model year vehicle shall be renewed each even-numbered calendar year and any such vehicle manufactured as an odd-numbered model year vehicle shall be renewed each odd-numbered calendar year, subject to the following requirements:

(1) The fee collected at the time of biennial registration shall include the annual registration fee plus a pro rata amount for the additional twelve months of the biennial registration;

If a motor vehicle owner is exempt from submitting proof of a motor vehicle safety inspection under the provisions of section 307.357, RSMo, then the motor vehicle owner shall submit an affidavit stating that the motor vehicle has fewer than one hundred thousand miles.**

2. The director of revenue may prescribe rules and regulations for the effective administration of this section. The director is authorized to adopt those rules that are reasonable and necessary to accomplish the limited duties specifically delegated within this section. Any rule or portion

of a rule, as that term is defined in section 536.010, RSMo, that is promulgated pursuant to the authority delegated in this section shall become effective only if it has been promulgated pursuant to the provisions of chapter 536, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after July 1, 2000, shall be invalid and void.

3. The director of revenue shall have the authority to stagger the registration period of motor vehicles other than commercial motor vehicles licensed in excess of twelve thousand pounds gross weight. Once the owner of a motor vehicle chooses the option of biennial registration, such registration must be maintained for the full twenty-four month period.”; and

Further amend said bill, page 229, section 307.173, line 4 of said page, by inserting after all of said line the following:

“307.178. 1. As used in this section, the term “passenger car” means every motor vehicle designed for carrying ten persons or less and used for the transportation of persons; except that, the term “passenger car” shall not include motorcycles, motorized bicycles, **or** motor tricycles[, and trucks with a licensed gross weight of twelve thousand pounds or more].

2. Each driver[, except persons employed by the United States Postal Service while performing duties for that federal agency which require the operator to service postal boxes from their vehicles, or which require frequent entry into and exit from their vehicles,] and [front seat] passenger of a passenger car manufactured after January 1, 1968, operated on a street or highway in this state, and persons [less than eighteen years of age] operating or riding in a truck, as defined in section 301.010, RSMo, on a street or highway of this state

shall wear a properly adjusted and fastened safety belt that meets federal National Highway, Transportation and Safety Act requirements. [No person shall be stopped, inspected, or detained solely to determine compliance with this subsection.] The provisions of this section and section 307.179 shall not be applicable to [persons] **any person who [have] possesses documentation from a physician that such person has a medical reason for failing to have a seat belt fastened about their body[, nor shall]. No person shall be found guilty of violating this section or section 307.179 if such person demonstrates that he or she has a medical reason for failing to have a seat belt fastened about their body.** The provisions of this section **shall not** be applicable to persons while operating or riding a motor vehicle being used in agricultural work-related activities. Noncompliance with this subsection shall not constitute probable cause for violation of any other provision of law. The provisions of this subsection shall not apply to the transporting of children under sixteen years of age, as provided in section 307.179. **Persons employed by the United States Postal Service while performing duties for that federal agency which require the operator to service postal boxes from their vehicles, or which require frequent entry into and exit from their vehicles are exempt from the provisions of this subsection.**

4. In any action to recover damages arising out of the ownership, common maintenance or operation of a motor vehicle, failure to wear a safety belt in violation of this section shall not be considered evidence of comparative negligence. Failure to wear a safety belt in violation of this section may be admitted to mitigate damages, but only under the following circumstances:

(1) Parties seeking to introduce evidence of

the failure to wear a safety belt in violation of this section must first introduce expert evidence proving that a failure to wear a safety belt contributed to the injuries claimed by plaintiff;

(2) If the evidence supports such a finding, the trier of fact may find that the plaintiff's failure to wear a safety belt in violation of this section contributed to the plaintiff's claimed injuries, and may reduce the amount of the plaintiff's recovery by an amount not to exceed one percent of the damages awarded after any reductions for comparative negligence.

5. Except as otherwise provided for in section 307.179, each person who violates the provisions of subsection 2 of this section is guilty of an infraction for which a fine not to exceed ten dollars may be imposed. All other provisions of law and court rules to the contrary notwithstanding, no court costs shall be imposed on any person due to a violation of this section. In no case shall points be assessed against any person, pursuant to section 302.302, RSMo, for a violation of this section.

6. The state highways and transportation commission shall initiate and develop a program of public information to develop understanding of, and ensure compliance with, the provisions of this section. The commission shall evaluate the effectiveness of this section and shall include a report of its findings in the annual evaluation report on its highway safety plan that it submits to NHTSA and FHWA pursuant to 23 U.S.C. 402.

7. If there are more persons than there are seat belts in the enclosed area of a motor vehicle, then the passengers who are unable to wear seat belts **because all existing seat belts are in use** shall sit [in the area] **on the seats** behind the front seat of the motor vehicle unless the motor vehicle is designed only for a front-seated area. The passenger or passengers occupying a seat location referred to in this subsection is not in violation of this section. This subsection shall not apply to passengers who are accompanying a driver of a motor vehicle who is licensed under section

302.178, RSMo.”; and

Further amend said bill, page 232, section 307.198, line 24 of said page, by inserting after all of said line the following:

“307.357. 1. Notwithstanding sections 307.350 to 307.390, a motor vehicle owner may renew or reregister the registration plates on a motor vehicle that is otherwise required to be inspected if such vehicle has fewer than one hundred thousand miles, as evidenced by the odometer, without submitting such vehicle to a biennial motor vehicle safety inspection.

2. In order to qualify for the exemption set forth in subsection 1 of this section, the owner of such a vehicle shall submit to the director an affidavit, sworn to under the penalty of perjury, stating that the motor vehicle has fewer than one hundred thousand miles.

3. The provisions of this section shall not exempt a person from submitting such a motor vehicle to a motor vehicle safety inspection for purposes of initially registering and titling such a vehicle, transferring ownership, or when a motor vehicle safety inspection is otherwise required by law.”; and

Further amend said bill, page 275, section 577.039, line 15 of said page, by inserting after all of said line the following:

In addition, any such vehicle manufactured as an even-numbered model year vehicle shall be inspected and approved under the

emissions inspection program established pursuant to sections 643.300 to 643.355 in each even-numbered calendar year and any such vehicle manufactured as an odd-numbered model year vehicle shall be inspected and approved under the emissions inspection program established pursuant to sections 643.300 to 643.355 in each odd-numbered calendar year. All motor vehicles subject to the inspection requirements of sections 643.300 to 643.355 shall display a valid emissions inspection sticker, and when applicable, a valid emissions inspection certificate shall be presented at the time of registration or registration renewal of such motor vehicle. The director of revenue may verify that a successful safety and emissions inspection was completed via electronic means.

2. The inspection requirement of subsection 1 of this section shall apply to all motor vehicles except:

A vehicle sold pursuant to this subdivision by a licensed motor vehicle dealer shall be inspected and approved within the one hundred twenty days immediately preceding the date of sale, and, for the purpose of registration of such vehicle, such inspection shall be considered timely.

(3) If the dealer chooses to sell the vehicle without prior inspection and approval, the purchaser may return the vehicle within ten days of the date of purchase, provided that the vehicle has no more than one thousand additional miles since the time of sale, if the vehicle fails, upon inspection, to meet the emissions standards specified by the commission and the dealer shall have the vehicle inspected and approved without the option for a waiver of the emissions standard and return the vehicle to the purchaser with a valid emissions certificate and sticker within five working days or the purchaser and dealer may enter into any other mutually acceptable agreement. If the dealer chooses to sell the vehicle without prior inspection and approval, the dealer shall disclose conspicuously on the sales contract

and bill of sale that the purchaser has the option to return the vehicle within ten days, provided that the vehicle has no more than one thousand additional miles since the time of sale, to have the dealer repair the vehicle and provide an emissions certificate and sticker within five working days if the vehicle fails, upon inspection, to meet the emissions standards established by the commission, or enter into any mutually acceptable agreement with the dealer. 388.706. 1. Every municipality or county within this state is authorized to form a regional railroad authority under the provisions of this section.

2. A regional railroad authority may be organized by resolution or joint resolution adopted by the governing body or bodies of one or more counties. The governing body or bodies of a municipality or municipalities within a county or counties may request by resolution that the county or counties organize a railroad authority. If the county or counties do not organize an authority within ninety days of receipt of the request, the municipality or municipalities may organize an authority by resolution or joint resolution. (7) Any other provision for regulating the business of the authority determined by the governing body or bodies adopting the resolution.

388.709. Before final adoption of an organization resolution, the governing body of each county or municipality named in it shall provide for a public hearing upon notice published in a newspaper of general circulation in the county or municipality. The notice of a hearing by the governing body of a county shall be mailed to the governing body of each municipality in the county, except municipalities participating in the organization, at least thirty days before the hearing. The hearing may be adjourned from time to time, to a time and place publicly announced at the hearing, or to a time and place fixed by notice published in a newspaper of general circulation in the county or municipality at least ten days before the adjourned session. Joint hearing sessions may be held by the governing bodies of all counties or municipalities named, at any convenient public place within any of the counties or municipalities. Upon the appointment and qualification of the commissioners first appointed to a regional railroad authority under section 388.715, the commissioners shall submit to the secretary of state a certified copy of each resolution adopted pursuant to section 388.706. A copy of the organization resolution, certified by the recording officer of each municipality or county adopting it, shall be filed with the secretary of state, who shall issue a certificate of incorporation if the resolution conforms to the requirements of this section, stating in the certificate the name of the authority and the date of its incorporation, which shall be the date of acceptance for filing. The certificate of incorporation shall be conclusive evidence of the valid organization and existence of the authority.

388.715. 1. All powers granted to an authority shall be exercised by its board of commissioners. Commissioners shall be appointed and vacancies in their office shall be filled by the governing body of each county or municipality named in the organization resolution, in accordance with the provisions of that resolution. The term of each commissioner shall be one year, or the remainder of the one year term for which a vacancy is filled, and until a successor is appointed. Commissioners shall receive no compensation for services but shall be reimbursed for necessary expenses incurred in the performance of their duties.

2. The board of commissioners shall by resolution establish the time and place or places of its regular meetings and the method and notice required for calling special meetings, all of which shall be open to the public. A majority of the commissioners being present at a meeting, any action may be taken by resolution

or motion adopted by recorded vote of a majority of those present, unless a larger majority is required by bylaws adopted by the board.

3. The board of commissioners shall appoint a chair, vice-chair, secretary, and treasurer from its members, each to serve for a term of one year and until a successor is appointed. The offices of secretary and treasurer may be combined, and deputies or assistants may be appointed for either office or the combined office, from members of the board or otherwise. The powers and duties of each office shall be determined by the board, which shall require and pay for a surety bond for each officer handling funds. Federal money accepted under this section shall be accepted and spent by the authority upon terms and conditions

prescribed by the United States and consistent with state law. All state money accepted under this section shall be accepted and spent by the authority upon terms and conditions prescribed by the state.

(4) Sell, lease, or otherwise dispose of real or personal property acquired under sections 388.700 to 388.745. The disposal must be in accordance with the laws of this state governing the disposition of other public property.

388.721. 1. 2. The authority may apply to any public agency for permits, consents, authorizations, and approvals required for any project and take all actions necessary to comply with their conditions.

388.724. The authority may exercise the power of eminent domain under chapter 523, RSMo, except that it shall have no power of eminent domain with respect to property owned by another authority or political subdivision of Missouri or any other state, or with respect to property owned or used by a railroad corporation unless the federal Surface Transportation Board or a successor agency, if any, or another authority with power to make the finding, has found that the public convenience and necessity permit discontinuance of rail service on the property. All property taken for the exercise of the powers granted herein is declared to be taken for a public governmental purpose and as a matter of public necessity.

388.727. The state of Missouri and any

political subdivision or municipal corporation thereof may in its discretion, with or without consideration, transfer or cause to be transferred to any regional railroad authority or may place in its possession or control, by lease or other contract or agreement, either for a limited period or in fee, any property within a regional railroad authority district or any property wherever situated. Nothing in this section, however, shall in any way impair, alter or change any obligations, contractual or otherwise, heretofore entered into by said entities.

388.730. The authority may establish charges and rentals for the use, sale, and availability of its property and service and may hold, use, dispose of, invest, and reinvest the income, revenues, and funds derived therefrom. Subject to any agreement with bondholders, it may invest money not required for immediate use, including bond proceeds, in the securities it shall deem prudent, notwithstanding the provisions of any other law relating to the investment of public funds.

388.733. The authority shall be subject to tort liability to the extent provided in chapter 537, RSMo, and may procure insurance against the liability, and may indemnify and purchase and maintain insurance on behalf of any of its commissioners, officers, employees, or agents. It may also procure insurance against loss of or damage to property in the amounts, by reason of the risks, and from the insurers as it deems prudent.

388.736. The state may make grants to a regional railroad authority, as appropriated by the general assembly, to be allocated by the department of transportation to regional railroad authorities. The authority may accept, contract for, and receive and disburse federal, state, and other funds or property, public or private, made available by grant, loan, or lease, to be used in the exercise of any of its powers,

and may comply with the terms and conditions of the grant or loan.

388.739. 1. Every regional railroad authority, organized under the provisions of sections 388.700 to 388.745, may from time to time issue its negotiable revenue bonds or notes in such principal amounts as, in its opinion, shall be necessary to provide sufficient funds for achieving its purposes, including the construction, establishment, acquisition, improvement, maintenance, protection and regulation of railroads and railroad facilities, that may be necessary to carry out the provisions of sections 388.700 to 388.745.

2. The state shall not be liable on any notes or bonds of any regional railroad authority. Any such notes or bonds shall not be a debt of the state and shall contain on the faces thereof a statement to such effect.

3. No commissioner of any regional railroad authority or any authorized person executing authority notes or bonds shall be liable personally on said notes or bonds or shall be subject to any personal liability or accountability by reason of the issuance thereof.

4. No authority shall be required to pay any taxes or any assessments whatsoever to this state or to any political subdivisions, municipality or other governmental agency of this state. The notes and bonds of every authority and the income therefrom shall, at all times, be exempt from any taxes and any assessments, except for death and gift taxes and taxes on transfers.

5. Every authority shall have the powers and be governed by the procedures now or hereafter conferred upon or applicable to the environmental improvement authority, chapter 260, RSMo, relating to the manner of issuance of revenue bonds and notes, and the port authority shall exercise all such powers and adhere to all such procedures insofar as they

are consistent with the necessary and proper undertaking of its purposes.

388.742. The authority may enter into contracts including leases with any person, firm, or corporation, for terms the authority may determine:

(1) Providing for the operation of any facilities on behalf of the authority, at the rate of compensation as may be determined;

388.745. If, at any time, the governing body of any city or county that organized a regional railroad authority, votes, by majority, to dissolve a regional railroad authority, it shall be dissolved effective the date of the approval of dissolution by the highways and transportation commission of the state. Journal of the Senate

FIRST REGULAR SESSION

SIXTY-FIFTH DAY—THURSDAY, MAY 3, 2007

The Senate met pursuant to adjournment.

President Kinder in the Chair.

Reverend Carl Gauck offered the following prayer:

“I praise you, for I am marvelously made, wonderful are your works that I know very well.” (Psalm 139:14)

You are an awesome God, O Lord, Who has created us so our mind, body and soul are interconnected and what affects one part touches the others. So we are thankful that even a quiet moment like this, in conversation with You, dissipates some of the stress we experience this time of year. Help us to take more such moments so we may be healthier and more affective in what is ahead of us. And, let us share such times with those we love this weekend. Lord we pray for Senator Bartle’s father, Vincent, that You will touch his heart with Your healing power and restore him to full health and strength. In Your Holy Name we pray. Amen.

The Pledge of Allegiance to the Flag was recited.

A quorum being established, the Senate proceeded with its business.

HOUSE AMENDMENT NO. 1

Amend House Committee Substitute for Senate Bill No. 84, Page 4, Section 210.487, Line 42, by inserting after all of said line the following:

“210.570. This interstate compact for juveniles is entered with all jurisdictions legally joining the compact in the form substantially as follows:

THE INTERSTATE COMPACT FOR JUVENILES ARTICLE I PURPOSE

The compacting states to this Interstate Compact recognize that each state is responsible for the proper supervision or return of juveniles, delinquents and status offenders who are on probation or parole and who have absconded, escaped or run away from supervision and control and in so doing have endangered their own safety and the safety of others. The compacting states also recognize that each state is responsible for the safe return of juveniles who have run away from home and in doing so have left their state of residence. The compacting states also recognize that Congress, by enacting the Crime Control Act, 4 U.S.C. Section 112 (1965), has authorized and encouraged compacts for cooperative efforts and mutual assistance in the prevention of crime.

It is the purpose of this compact, through

means of joint and cooperative action among the compacting states to: (A) ensure that the adjudicated juveniles and status offenders subject to this compact are provided adequate supervision and services in the receiving state as ordered by the adjudicating judge or parole authority in the sending state; (B) ensure that the public safety interests of the citizens, including the victims of juvenile offenders, in both the sending and receiving states are adequately protected; (C) return juveniles who have run away, absconded or escaped from supervision or control or have been accused of an offense to the state requesting their return; (D) make contracts for the cooperative institutionalization in public facilities in member states for delinquent youth needing special services; (E) provide for the effective tracking and supervision of juveniles; (F) equitably allocate the costs, benefits and obligations of the compacting states; (G) establish procedures to manage the movement between states of juvenile offenders released to the community under the jurisdiction of courts, juvenile departments, or any other criminal or juvenile justice agency which has jurisdiction over juvenile offenders; (H) insure immediate notice to jurisdictions where defined offenders are authorized to travel or to relocate across state lines; (I) establish procedures to resolve pending charges (detainers) against juvenile offenders prior to transfer or release to the community under the terms of this compact; (J) establish a system of uniform data collection on information pertaining to juveniles subject to this compact that allows access by authorized juvenile justice and criminal justice officials, and regular reporting of Compact activities to heads of state executive, judicial, and legislative branches and juvenile and criminal justice administrators; (K) monitor compliance with rules governing interstate movement of juveniles and initiate interventions to address and correct non-compliance; (L) coordinate

training and education regarding the regulation of interstate movement of juveniles for officials involved in such activity; and (M) coordinate the implementation and operation of the compact with the Interstate Compact for the Placement of Children, the Interstate Compact for Adult Offender Supervision and other compacts affecting juveniles particularly in those cases where concurrent or overlapping supervision issues arise. It is the policy of the compacting states that the activities conducted by the Interstate Commission created herein are the formation of public policies and therefore are public business. Furthermore, the compacting states shall cooperate and observe their individual and collective duties and responsibilities for the prompt return and acceptance of juveniles subject to the provisions of this compact. The provisions of this compact shall be reasonably and liberally construed to accomplish the purposes and policies of the compact.

L. “State” means: a state of the United States, the District of Columbia (or its designee), the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Northern Marianas Islands.

ARTICLE III INTERSTATE COMMISSION FOR JUVENILES

A. The compacting states hereby create the “Interstate Commission for Juveniles.” The commission shall be a body corporate and joint agency of the compacting states. The commission shall have all the responsibilities, powers and duties set forth herein, and such additional powers as may be conferred upon it by subsequent action of the respective legislatures of the compacting states in accordance with the terms of this compact.

B. The Interstate Commission shall consist of commissioners appointed by the appropriate appointing authority in each state pursuant to the rules and requirements of each compacting state and in consultation with the State Council for Interstate Juvenile Supervision created hereunder. The commissioner shall be the

compact administrator, deputy compact administrator or designee from that state who shall serve on the Interstate Commission in such capacity under or pursuant to the applicable law of the compacting state.

C. In addition to the commissioners who are the voting representatives of each state, the Interstate Commission shall include individuals who are not commissioners, but who are members of interested organizations. Such non-commissioner members must include a member of the national organizations of governors, legislators, state chief justices, attorneys general, Interstate Compact for Adult Offender Supervision, Interstate Compact for the Placement of Children, juvenile justice and juvenile corrections officials, and crime victims. All non-commissioner members of the Interstate Commission shall be ex-officio (non-voting) members. The Interstate Commission may provide in its bylaws for such additional ex-officio (non-voting) members, including members of other national organizations, in such numbers as shall be determined by the commission.

D. Each compacting state represented at any meeting of the commission is entitled to one vote. A majority of the compacting states shall constitute a quorum for the transaction of business, unless a larger quorum is required by the bylaws of the Interstate Commission.

E. The commission shall meet at least once each calendar year. The chairperson may call additional meetings and, upon the request of a simple majority of the compacting states, shall call additional meetings. Public notice shall be given of all meetings and meetings shall be open to the public.

F. The Interstate Commission shall establish an executive committee, which shall include commission officers, members, and others as determined by the bylaws. The executive committee shall have the power to act

on behalf of the Interstate Commission during periods when the Interstate Commission is not in session, with the exception of rulemaking and/or amendment to the compact. The executive committee shall oversee the day-to-day activities of the administration of the compact managed by an executive director and Interstate Commission staff; administers enforcement and compliance with the provisions of the compact, its bylaws and rules, and performs such other duties as directed by the Interstate Commission or set forth in the bylaws.

G. Each member of the Interstate Commission shall have the right and power to cast a vote to which that compacting state is entitled and to participate in the business and affairs of the Interstate Commission. A member shall vote in person and shall not delegate a vote to another compacting state. However, a commissioner, in consultation with the state council, shall appoint another authorized representative, in the absence of the commissioner from that state, to cast a vote on behalf of the compacting state at a specified meeting. The bylaws may provide for members' participation in meetings by telephone or other means of telecommunication or electronic communication.

H. The Interstate Commission's bylaws shall establish conditions and procedures under which the Interstate Commission shall make its information and official records available to the public for inspection or copying. The Interstate Commission may exempt from disclosure any information or official records to the extent they would adversely affect personal privacy rights or proprietary interests.

I. Public notice shall be given of all meetings and all meetings shall be open to the public, except as set forth in the Rules or as otherwise provided in the Compact. The Interstate Commission and any of its

committees may close a meeting to the public where it determines by two-thirds vote that an open meeting would be likely to:

1. Relate solely to the Interstate Commission's internal personnel practices and procedures;

2. Disclose matters specifically exempted from disclosure by statute;

3. Disclose trade secrets or commercial or financial information which is privileged or confidential;

4. Involve accusing any person of a crime, or formally censuring any person;

5. Disclose information of a personal nature where disclosure would constitute a clearly unwarranted invasion of personal privacy;

6. Disclose investigative records compiled for law enforcement purposes;

7. Disclose information contained in or related to examination, operating or condition reports prepared by, or on behalf of or for the use of, the Interstate Commission with respect to a regulated person or entity for the purpose of regulation or supervision of such person or entity;

8. Disclose information, the premature disclosure of which would significantly endanger the stability of a regulated person or entity; or

9. Specifically relate to the Interstate Commission's issuance of a subpoena, or its participation in a civil action or other legal proceeding.

J. For every meeting closed pursuant to this provision, the Interstate Commission's legal counsel shall publicly certify that, in the legal counsel's opinion, the meeting may be closed to the public, and shall reference each relevant exemptive provision. The Interstate Commission shall keep minutes which shall

fully and clearly describe all matters discussed in any meeting and shall provide a full and accurate summary of any actions taken, and the reasons therefore, including a description of each of the views expressed on any item and the record of any roll call vote (reflected in the vote of each member on the question). All documents considered in connection with any action shall be identified in such minutes.

K. The Interstate Commission shall collect standardized data concerning the interstate movement of juveniles as directed through its rules which shall specify the data to be collected, the means of collection and data exchange and reporting requirements. Such methods of data collection, exchange and reporting shall insofar as is reasonably possible conform to up-to-date technology and coordinate its information functions with the appropriate repository of records.

ARTICLE IV POWERS AND DUTIES OF THE INTERSTATE COMMISSION

The commission shall have the following powers and duties:

1. To provide for dispute resolution among compacting states.

2. To promulgate rules to effect the purposes and obligations as enumerated in this compact, which shall have the force and effect of statutory law and shall be binding in the compacting states to the extent and in the manner provided in this compact.

3. To oversee, supervise and coordinate the interstate movement of juveniles subject to the terms of this compact and any bylaws adopted and rules promulgated by the Interstate Commission.

4. To enforce compliance with the compact provisions, the rules promulgated by the Interstate Commission, and the bylaws, using all necessary and proper means, including but

not limited to the use of judicial process.

5. To establish and maintain offices which shall be located within one or more of the compacting states.

6. To purchase and maintain insurance and bonds.

7. To borrow, accept, hire or contract for services of personnel.

8. To establish and appoint committees and hire staff which it deems necessary for the carrying out of its functions including, but not limited to, an executive committee as required by Article III which shall have the power to act on behalf of the Interstate Commission in carrying out its powers and duties hereunder.

9. To elect or appoint such officers, attorneys, employees, agents, or consultants, and to fix their compensation, define their duties and determine their qualifications; and to establish the Interstate Commission's personnel policies and programs relating to, inter alia, conflicts of interest, rates of compensation, and qualifications of personnel.

10. To accept any and all donations and grants of money, equipment, supplies, materials, and services, and to receive, utilize, and dispose of it.

11. To lease, purchase, accept contributions or donations of, or otherwise to own, hold, improve or use any property, real, personal, or mixed.

12. To sell, convey, mortgage, pledge, lease, exchange, abandon, or otherwise dispose of any property, real, personal or mixed.

13. To establish a budget and make expenditures and levy dues as provided in Article VIII of this compact.

14. To sue and be sued.

15. To adopt a seal and bylaws governing the management and operation of the Interstate

Commission.

16. To perform such functions as may be necessary or appropriate to achieve the purposes of this compact.

17. To report annually to the legislatures, governors, judiciary, and state councils of the compacting states concerning the activities of the Interstate Commission during the preceding year. Such reports shall also include any recommendations that may have been adopted by the Interstate Commission.

18. To coordinate education, training and public awareness regarding the interstate movement of juveniles for officials involved in such activity.

19. To establish uniform standards of the reporting, collecting and exchanging of data.

20. The Interstate Commission shall maintain its corporate books and records in accordance with the bylaws.

ARTICLE V ORGANIZATION AND OPERATION OF THE INTERSTATE COMMISSION

1. The Interstate Commission shall, by a majority of the members present and voting, within twelve months after the first Interstate Commission meeting, adopt bylaws to govern its conduct as may be necessary or appropriate to carry out the purposes of the compact, including, but not limited to:

a. Establishing the fiscal year of the Interstate Commission;

b. Establishing an executive committee and such other committees as may be necessary;

c. Provide for the establishment of committees governing any general or specific delegation of any authority or function of the Interstate Commission;

d. Providing reasonable procedures for

calling and conducting meetings of the Interstate Commission, and ensuring reasonable notice of each such meeting;

e. Establishing the titles and responsibilities of the officers of the Interstate Commission;

f. Providing a mechanism for concluding the operations of the Interstate Commission and the return of any surplus funds that may exist upon the termination of the Compact after the payment and/or reserving of all of its debts and obligations;

g. Providing “start-up” rules for initial administration of the compact; and

h. Establishing standards and procedures for compliance and technical assistance in carrying out the compact.

Section B. Officers and Staff

1. The Interstate Commission shall, by a majority of the members, elect annually from among its members a chairperson and a vice chairperson, each of whom shall have such authority and duties as may be specified in the bylaws. The chairperson or, in the chairperson's absence or disability, the vice-chairperson shall preside at all meetings of the Interstate Commission. The officers so elected shall serve without compensation or remuneration from the Interstate Commission; provided that, subject to the availability of budgeted funds, the officers shall be reimbursed for any ordinary and necessary costs and expenses incurred by them in the performance of their duties and responsibilities as officers of the Interstate Commission.

2. The Interstate Commission shall, through its executive committee, appoint or retain an executive director for such period, upon such terms and conditions and for such compensation as the Interstate Commission may deem appropriate. The executive director shall serve as secretary to the Interstate Commission, but shall not be a Member and

shall hire and supervise such other staff as may be authorized by the Interstate Commission.

Section C. Qualified Immunity, Defense and Indemnification

1. The commission's executive director and employees shall be immune from suit and liability, either personally or in their official capacity, for any claim for damage to or loss of property or personal injury or other civil liability caused or arising out of or relating to any actual or alleged act, error, or omission that occurred, or that such person had a reasonable basis for believing occurred within the scope of commission employment, duties, or responsibilities; provided, that any such person shall not be protected from suit or liability for any damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of any such person.

2. The liability of any commissioner, or the employee or agent of a commissioner, acting within the scope of such person's employment or duties for acts, errors, or omissions occurring within such person's state may not exceed the limits of liability set forth under the Constitution and laws of that state for state officials, employees, and agents. Nothing in this subsection shall be construed to protect any such person from suit or liability for any damage, loss, injury, or liability caused by the intentional or willful and wanton misconduct of any such person.

3. The Interstate Commission shall defend the executive director or the employees or representatives of the Interstate Commission and, subject to the approval of the Attorney General of the state represented by any commissioner of a compacting state, shall defend such commissioner or the commissioner's representatives or employees in any civil action seeking to impose liability arising out of any actual or alleged act, error or omission that occurred within the scope of

Interstate Commission employment, duties or responsibilities, or that the defendant had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such person.

4. The Interstate Commission shall indemnify and hold the commissioner of a compacting state, or the commissioner's representatives or employees, or the Interstate Commission's representatives or employees, harmless in the amount of any settlement or judgment obtained against such persons arising out of any actual or alleged act, error, or omission that occurred within the scope of Interstate Commission employment, duties, or responsibilities, or that such persons had a reasonable basis for believing occurred within the scope of Interstate Commission employment, duties, or responsibilities, provided that the actual or alleged act, error, or omission did not result from intentional or willful and wanton misconduct on the part of such persons.

ARTICLE VI RULEMAKING FUNCTIONS OF THE INTERSTATE COMMISSION

A. The Interstate Commission shall promulgate and publish rules in order to effectively and efficiently achieve the purposes of the compact.

B. Rulemaking shall occur pursuant to the criteria set forth in this article and the bylaws and rules adopted pursuant thereto. Such rulemaking shall substantially conform to the principles of the "Model State Administrative Procedures Act," 1981 Act, Uniform Laws Annotated, Vol. 15, p.1 (2000), or such other administrative procedures act, as the Interstate Commission deems appropriate consistent with

due process requirements under the U.S. Constitution as now or hereafter interpreted by the U.S. Supreme Court. All rules and amendments shall become binding as of the date specified, as published with the final version of the rule as approved by the commission.

C. When promulgating a rule, the Interstate Commission shall, at a minimum:

1. publish the proposed rule's entire text stating the reason(s) for that proposed rule;

2. allow and invite any and all persons to submit written data, facts, opinions and arguments, which information shall be added to the record, and be made publicly available;

3. provide an opportunity for an informal hearing if petitioned by ten (10) or more persons; and

4. promulgate a final rule and its effective date, if appropriate, based on input from state or local officials, or interested parties.

D. Allow, not later than sixty days after a rule is promulgated, any interested person to file a petition in the United States District Court for the District of Columbia or in the Federal District Court where the Interstate Commission's principal office is located for judicial review of such rule. If the court finds that the Interstate Commission's action is not supported by substantial evidence in the rulemaking record, the court shall hold the rule unlawful and set it aside. For purposes of this subsection, evidence is substantial if it would be considered substantial evidence under the Model State Administrative Procedures Act.

E. If a majority of the legislatures of the compacting states rejects a rule, those states may, by enactment of a statute or resolution in the same manner used to adopt the compact, cause that such rule shall have no further force and effect in any compacting state.

F. The existing rules governing the

operation of the Interstate Compact on Juveniles superseded by this act shall be null and void twelve (12) months after the first meeting of the Interstate Commission created hereunder.

G. Upon determination by the Interstate Commission that a state-of-emergency exists, it may promulgate an emergency rule which shall become effective immediately upon adoption, provided that the usual rulemaking procedures provided hereunder shall be retroactively applied to said rule as soon as reasonably possible, but no later than ninety (90) days after the effective date of the emergency rule.

ARTICLE VII OVERSIGHT, ENFORCEMENT AND DISPUTE RESOLUTION BY THE INTERSTATE COMMISSION

Section A. Oversight

1. The Interstate Commission shall oversee the administration and operations of the interstate movement of juveniles subject to this compact in the compacting states and shall monitor such activities being administered in non-compacting states which may significantly affect compacting states.

2. The courts and executive agencies in each compacting state shall enforce this compact and shall take all actions necessary and appropriate to effectuate the compact's purposes and intent. The provisions of this compact and the rules promulgated hereunder shall be received by all the judges, public officers, commissions, and departments of the state government as evidence of the authorized statute and administrative rules. All courts shall take judicial notice of the compact and the rules. In any judicial or administrative proceeding in a compacting state pertaining to the subject matter of this compact which may affect the powers, responsibilities or actions of the Interstate Commission, it shall be entitled to

receive all service of process in any such proceeding, and shall have standing to intervene in the proceeding for all purposes.

Section B. Dispute Resolution

1. The compacting states shall report to the Interstate Commission on all issues and activities necessary for the administration of the compact as well as issues and activities pertaining to compliance with the provisions of the compact and its bylaws and rules.

2. The Interstate Commission shall attempt, upon the request of a compacting state, to resolve any disputes or other issues which are subject to the compact and which may arise among compacting states and between compacting and non-compacting states. The commission shall promulgate a rule providing for both mediation and binding dispute resolution for disputes among the compacting states.

3. The Interstate Commission, in the reasonable exercise of its discretion, shall enforce the provisions and rules of this compact using any or all means set forth in Article XI of this compact.

ARTICLE VIII FINANCE

A. The Interstate Commission shall pay or provide for the payment of the reasonable expenses of its establishment, organization and ongoing activities.

B. The Interstate Commission shall levy on and collect an annual assessment from each compacting state to cover the cost of the internal operations and activities of the Interstate Commission and its staff which must be in a total amount sufficient to cover the Interstate Commission's annual budget as approved each year. The aggregate annual assessment amount shall be allocated based upon a formula to be determined by the Interstate Commission, taking into

consideration the population of each compacting state and the volume of interstate movement of juveniles in each compacting state and shall promulgate a rule binding upon all compacting states which governs said assessment.

C. The Interstate Commission shall not incur any obligations of any kind prior to securing the funds adequate to meet the same; nor shall the Interstate Commission pledge the credit of any of the compacting states, except by and with the authority of the compacting state.

D. The Interstate Commission shall keep accurate accounts of all receipts and disbursements. The receipts and disbursements of the Interstate Commission shall be subject to the audit and accounting procedures established under its bylaws. However, all receipts and disbursements of funds handled by the Interstate Commission shall be audited yearly by a certified or licensed public accountant and the report of the audit shall be included in and become part of the annual report of the Interstate Commission.

ARTICLE IX THE STATE COUNCIL

Each member state shall create a State Council for Interstate Juvenile Supervision. While each state may determine the membership of its own state council, its membership must include at least one representative from the legislative, judicial, and executive branches of government, victims groups, and the compact administrator, deputy compact administrator or designee. Each compacting state retains the right to determine the qualifications of the compact administrator or deputy compact administrator. Each state council will advise and may exercise oversight and advocacy concerning that state's participation in Interstate Commission activities and other duties as may be determined by that state, including but not limited to, development

of policy concerning operations and procedures of the compact within that state.

ARTICLE X COMPACTING STATES, EFFECTIVE DATE AND AMENDMENT

A. Any state, the District of Columbia (or its designee), the Commonwealth of Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Northern Marianas Islands as defined in Article II of this compact is eligible to become a compacting state.

B. The compact shall become effective and binding upon legislative enactment of the compact into law by no less than 35 of the states. The initial effective date shall be the later of July 1, 2004, or upon enactment into law by the 35th jurisdiction. Thereafter, it shall become effective and binding as to any other compacting state upon enactment of the compact into law by that state. The governors of non-member states or their designees shall be invited to participate in the activities of the Interstate Commission on a non-voting basis prior to adoption of the compact by all states and territories of the United States.

C. The Interstate Commission may propose amendments to the compact for enactment by the compacting states. No amendment shall become effective and binding upon the Interstate Commission and the compacting states unless and until it is enacted into law by unanimous consent of the compacting states.

ARTICLE XI WITHDRAWAL, DEFAULT, TERMINATION AND JUDICIAL ENFORCEMENT

Section A. Withdrawal

1. Once effective, the compact shall continue in force and remain binding upon each and every compacting state; provided that a compacting state may withdraw from the compact by specifically repealing the statute

which enacted the compact into law.

2. The effective date of withdrawal is the effective date of the repeal.

3. The withdrawing state shall immediately notify the chairperson of the Interstate Commission in writing upon the introduction of legislation repealing this compact in the withdrawing state. The Interstate Commission shall notify the other compacting states of the withdrawing state's intent to withdraw within sixty days of its receipt thereof.

4. The withdrawing state is responsible for all assessments, obligations and liabilities incurred through the effective date of withdrawal, including any obligations, the performance of which extend beyond the effective date of withdrawal.

5. Reinstatement following withdrawal of any compacting state shall occur upon the withdrawing state reenacting the compact or upon such later date as determined by the Interstate Commission.

Section B. Technical Assistance, Fines, Suspension, Termination and Default

1. If the Interstate Commission determines that any compacting state has at any time defaulted in the performance of any of its obligations or responsibilities under this compact, or the bylaws or duly promulgated rules, the Interstate Commission may impose any or all of the following penalties:

a. Remedial training and technical assistance as directed by the Interstate Commission;

b. Alternative Dispute Resolution;

c. Fines, fees, and costs in such amounts as are deemed to be reasonable as fixed by the Interstate Commission; and

d. Suspension or termination of membership in the compact, which shall be

imposed only after all other reasonable means of securing compliance under the bylaws and rules have been exhausted and the Interstate Commission has therefore determined that the offending state is in default. Immediate notice of suspension shall be given by the Interstate Commission to the Governor, the Chief Justice or the Chief Judicial Officer of the state, the Majority and Minority leaders of the defaulting state's legislature, and the state council. The grounds for default include, but are not limited to, failure of a compacting state to perform such obligations or responsibilities imposed upon it by this compact, the bylaws, or duly promulgated rules and any other grounds designated in commission bylaws and rules. The Interstate Commission shall immediately notify the defaulting state in writing of the penalty imposed by the Interstate Commission and of the default pending a cure of the default. The commission shall stipulate the conditions and the time period within which the defaulting state must cure its default. If the defaulting state fails to cure the default within the time period specified by the commission, the defaulting state shall be terminated from the compact upon an affirmative vote of a majority of the compacting states and all rights, privileges and benefits conferred by this compact shall be terminated from the effective date of termination.

2. Within sixty days of the effective date of termination of a defaulting state, the commission shall notify the Governor, the Chief Justice or Chief Judicial Officer, the Majority and Minority Leaders of the defaulting state's legislature, and the state council of such termination.

3. The defaulting state is responsible for all assessments, obligations and liabilities incurred through the effective date of termination including any obligations, the performance of which extends beyond the effective date of

termination.

4. The Interstate Commission shall not bear any costs relating to the defaulting state unless otherwise mutually agreed upon in writing between the Interstate Commission and the defaulting state.

5. Reinstatement following termination of any compacting state requires both a reenactment of the compact by the defaulting state and the approval of the Interstate Commission pursuant to the rules.

Section C. Judicial Enforcement

The Interstate Commission may, by majority vote of the members, initiate legal action in the United States District Court for the District of Columbia or, at the discretion of the Interstate Commission, in the federal district where the Interstate Commission has its offices, to enforce compliance with the provisions of the compact, its duly promulgated rules and bylaws, against any compacting state in default. In the event judicial enforcement is necessary the prevailing party shall be awarded all costs of such litigation including reasonable attorneys fees.

Section D. Dissolution of Compact

1. The compact dissolves effective upon the date of the withdrawal or default of the compacting state, which reduces membership in the compact to one compacting state.

2. Upon the dissolution of this compact, the compact becomes null and void and shall be of no further force or effect, and the business and affairs of the Interstate Commission shall be concluded and any surplus funds shall be distributed in accordance with the bylaws.

ARTICLE XII

SEVERABILITY AND CONSTRUCTION

A. The provisions of this compact shall be severable, and if any phrase, clause, sentence or provision is deemed unenforceable, the

remaining provisions of the compact shall be enforceable.

B. The provisions of this compact shall be liberally construed to effectuate its purposes.

ARTICLE XIII

BINDING EFFECT OF COMPACT AND OTHER LAWS

Section A. Other Laws

1. Nothing herein prevents the enforcement of any other law of a compacting state that is not inconsistent with this compact.

2. All compacting states' laws other than state Constitutions and other interstate compacts conflicting with this compact are superseded to the extent of the conflict.

Section B. Binding Effect of the Compact

1. All lawful actions of the Interstate Commission, including all rules and bylaws promulgated by the Interstate Commission, are binding upon the compacting states.

2. All agreements between the Interstate Commission and the compacting states are binding in accordance with their terms.

3. Upon the request of a party to a conflict over meaning or interpretation of Interstate Commission actions, and upon a majority vote of the compacting states, the Interstate Commission may issue advisory opinions regarding such meaning or interpretation.

4. In the event any provision of this compact exceeds the constitutional limits imposed on the legislature of any compacting state, the obligations, duties, powers or jurisdiction sought to be conferred by such provision upon the Interstate Commission shall be ineffective and such obligations, duties, powers or jurisdiction shall remain in the compacting state and shall be exercised by the agency thereof to which such obligations, duties, powers or jurisdiction are delegated by law in

effect at the time this compact becomes effective.

210.580. The compact shall become binding upon the state of Missouri [when signed by the commissioners as herein provided and by the proper authorities of any other state entering into the compact] **upon legislative enactment of the compact into law by no less than thirty-five of the states. The initial effective date shall be the later of August 28, 2007, or upon enactment into law by the thirty-fifth jurisdiction. Thereafter it shall become effective and binding as to any other compacting state upon enactment of the compact into law by that state.”; and**

Further amend said bill, Page 35, Section 453.011, Line 25, by inserting after all of said line the following:

“[210.570. Within sixty days after sections 210.570 to 210.600 become effective, the governor, by and with the advice and consent of the senate, shall appoint three commissioners to enter into a compact on behalf of the state of Missouri with other states. If the senate is not in session at the time for making such appointments, the governor shall make temporary appointments as in the case of a vacancy. Any two of the commissioners so appointed together with the attorney general of the state of Missouri may act to enter into the following compact:

INTERSTATE COMPACT ON JUVENILES

The contracting states solemnly agree:

ARTICLE I

That juveniles who are not under proper supervision and control, or who have absconded, escaped or run away, are likely to endanger their own health, morals and welfare, and the health, morals and welfare of others. The cooperation of the states party to this compact is therefore necessary to provide

for the welfare and protection of juveniles and of the public with respect to (1) cooperative supervision of delinquent juveniles on probation or parole; (2) the return, from one state to another, of delinquent juveniles who have escaped or absconded; (3) the return, from one state to another, of nondelinquent juveniles who have run away from home; and (4) additional measures for the protection of juveniles and of the public, which any two or more of the party states may find desirable to undertake cooperatively. In carrying out the provisions of this compact the party states shall be guided by the noncriminal, reformatory and protective policies which guide their laws concerning delinquent, neglected or dependent juveniles generally. It shall be the policy of the states party to this compact to cooperate and observe their respective responsibilities for the prompt return and acceptance of juveniles and delinquent juveniles who become subject to the provisions of this compact. The provisions of this compact shall be reasonably and liberally construed to accomplish the foregoing purposes.

ARTICLE II

That all remedies and procedures provided by this compact shall be in addition to and not in substitution for other rights, remedies and procedures, and shall not be in derogation of parental rights and responsibilities.

ARTICLE III

That, for the purposes of this compact, “delinquent juvenile” means any juvenile who has been adjudged delinquent and who, at the time the provisions of this compact are invoked, is still subject to the jurisdiction of the

court that has made such adjudication or to the jurisdiction or supervision of an agency or institution pursuant to an order of such court; "probation or parole" means any kind of conditional release of juveniles authorized under the laws of the states party hereto; "court" means any court having jurisdiction over delinquent, neglected or dependent children; "state" means any state, territory or possession of the United States, the District of Columbia, and the Commonwealth of Puerto Rico; and "residence" or any variant thereof means a place at which a home or regular place of abode is maintained.

ARTICLE IV

(a) That the parent, guardian, person or agency entitled to legal custody of a juvenile who has not been adjudged delinquent but who has run away without the consent of such parent, guardian, person or agency may petition the appropriate court in the demanding state for the issuance of a requisition for his return. The petition shall state the name and age of the juvenile, the name of the petitioner and the basis of entitlement to the juvenile's custody, the circumstances of his running away, his location if known at the time application is made, and such other facts as may tend to show that the juvenile who has run away is endangering his own welfare or the welfare of others and is not an emancipated minor. The petition shall be verified by affidavit, shall be executed in duplicate, and shall be accompanied by two certified copies of the document or documents on which the petitioner's entitlement to the juvenile's custody is based, such as birth certificates, letters of guardianship, or custody decrees. Such

further affidavits and other documents as may be deemed proper may be submitted with such petition. The judge of the court to which this application is made may hold a hearing thereon to determine whether for the purposes of this compact the petitioner is entitled to the legal custody of the juvenile, whether or not it appears that the juvenile has in fact run away without consent, whether or not he is an emancipated minor, and whether or not it is in the best interest of the juvenile to compel his return to the state. If the judge determines, either with or without a hearing, that the juvenile should be returned, he shall present to the appropriate court or to the executive authority of the state where the juvenile is alleged to be located a written requisition for the return of such juvenile. Such requisition shall set forth the name and age of the juvenile, the determination of the court that the juvenile has run away without the consent of a parent, guardian, person or agency entitled to his legal custody, and that it is in the best interest and for the protection of such juvenile that he be returned. In the event that a proceeding for the adjudication of the juvenile as a delinquent, neglected or dependent juvenile is pending in the court at the time when such juvenile runs away, the court may issue a requisition for the return of such juvenile upon its own motion, regardless of the consent of the parent, guardian, person or agency entitled to legal custody, reciting therein the nature and circumstances of the pending proceeding. The requisition shall in every case be executed in duplicate and shall be signed by the judge. One copy of the requisition shall be filed with the compact administrator of the demanding state, there to remain on file

subject to the provisions of law governing records of such court. Upon the receipt of a requisition demanding the return of a juvenile who has run away, the court or the executive authority to whom the requisition is addressed shall issue an order to any peace officer or other appropriate person directing him to take into custody and detain such juvenile. Such detention order must substantially recite the facts necessary to the validity of its issuance hereunder. No juvenile detained upon such order shall be delivered over to the officer whom the court demanding him shall have appointed to receive him, unless he shall first be taken forthwith before a judge of a court in the state, who shall inform him of the demand made for his return, and who may appoint counsel or guardian ad litem for him. If the judge of such court shall find that the requisition is in order, he shall deliver such juvenile over to the officer whom the court demanding him shall have appointed to receive him. The judge, however, may fix a reasonable time to be allowed for the purpose of testing the legality of the proceeding.

Upon reasonable information that a person is a juvenile who has run away from another state party to this compact without the consent of a parent, guardian, person or agency entitled to his legal custody, such juvenile may be taken into custody without a requisition and brought forthwith before a judge of the appropriate court who may appoint counsel or guardian ad litem for such juvenile and who shall determine after a hearing whether sufficient cause exists to hold the person, subject to the order of the court, for his own protection and welfare, for such a time not exceeding ninety days as will enable his return to

another state party to this compact pursuant to a requisition for his return from a court of that state. If, at the time when a state seeks the return of a juvenile who has run away, there is pending in the state wherein he is found any criminal charge, or any proceeding to have him adjudicated a delinquent juvenile for an act committed in such state, or if he is suspected of having committed within such state a criminal offense or an act of juvenile delinquency, he shall not be returned without the consent of such state until discharged from prosecution or other form of proceeding, imprisonment, detention or supervision for such offense or juvenile delinquency. The duly accredited officers of any state party to this compact, upon the establishment of their authority and the identity of the juvenile being returned, shall be permitted to transport such juvenile through any and all states party to this compact, without interference. Upon his return to the state from which he ran away, the juvenile shall be subject to such further proceedings as may be appropriate under the laws of that state.

(b) That the state to which a juvenile is returned under this Article shall be responsible for payment of the transportation costs of such return.

(c) That “juvenile” as used in this Article means any person who is a minor under the law of the state of residence of the parent, guardian, person or agency entitled to the legal custody of such minor.

ARTICLE V

(a) That the appropriate person or authority from whose probation or parole supervision a delinquent juvenile has absconded or from whose institutional

custody he has escaped shall present to the appropriate court or to the executive authority of the state where the delinquent juvenile is alleged to be located a written requisition for the return of such delinquent juvenile. Such requisition shall state the name and age of the delinquent juvenile, the particulars of his adjudication as a delinquent juvenile, the circumstances of the breach of the terms of his probation or parole or of his escape from an institution or agency vested with his legal custody or supervision, and the location of such delinquent juvenile, if known, at the time the requisition is made. The requisition shall be verified by affidavit, shall be executed in duplicate, and shall be accompanied by two certified copies of the judgment, formal adjudication, or order of commitment which subjects such delinquent juvenile to probation or parole or to the legal custody of the institution or agency concerned. Such further affidavits and other documents as may be deemed proper may be submitted with such requisition. One copy of the requisition shall be filed with the compact administrator of the demanding state, there to remain on file subject to the provisions of law governing records of the appropriate court. Upon the receipt of a requisition demanding the return of a delinquent juvenile who has absconded or escaped, the court or the executive authority to whom the requisition is addressed shall issue an order to any peace officer or other appropriate person directing him to take into custody and detain such delinquent juvenile. Such detention order must substantially recite the facts necessary to the validity of the issuance hereunder. No delinquent juvenile detained upon such order shall

be delivered over to the officer whom the appropriate person or authority demanding him shall have appointed to receive him, unless he shall first be taken forthwith before a judge of an appropriate court in the state, who shall inform him of the demand made for his return and who may appoint counsel or guardian ad litem for him. If the judge of such court shall find that the requisition is in order, he shall deliver such delinquent juvenile over to the officer whom the appropriate person or authority demanding him shall have appointed to receive him. The judge, however, may fix a reasonable time to be allowed for the purpose of testing the legality of the proceeding.

Upon reasonable information that a person is a delinquent juvenile who has absconded while on probation or parole, or escaped from an institution or agency vested with his legal custody or supervision in any state party to this compact, such person may be taken into custody in any other state party to this compact without a requisition. But in such event, he must be taken forthwith before a judge of the appropriate court, who may appoint counsel or guardian ad litem for such person and who shall determine, after a hearing, whether sufficient cause exists to hold the person subject to the order of the court for such a time, not exceeding ninety days, as will enable his detention under a detention order issued on a requisition pursuant to this Article. If, at the time when a state seeks the return of a delinquent juvenile who has either absconded while on probation or parole or escaped from an institution or agency vested with his legal custody or supervision, there is pending in the state wherein he is detained any

criminal charge or any proceeding to have him adjudicated a delinquent juvenile for an act committed in such state, or if he is suspected of having committed within such state a criminal offense or an act of juvenile delinquency, he shall not be returned without the consent of such state until discharged from prosecution or other form of proceeding, imprisonment, detention or supervision for such offense or juvenile delinquency. The duly accredited officers of any state party to this compact, upon the establishment of their authority and the identity of the delinquent juvenile being returned, shall be permitted to transport such delinquent juvenile through any and all states party to this compact, without interference. Upon his return to the state from which he escaped or absconded, the delinquent juvenile shall be subject to such further proceedings as may be appropriate under the laws of that state.

(b) That the state to which a delinquent juvenile is returned under this Article shall be responsible for payment of the transportation costs of such return.

ARTICLE VI

That any delinquent juvenile who has absconded while on probation or parole, or escaped from an institution or agency vested with his legal custody or supervision in any state party to this compact, and any juvenile who has run away from any state party to this compact, who is taken into custody without a requisition in another state party to this compact under the provisions of Article IV(a) or of Article V(a), may consent to his immediate return to the state from which he absconded, escaped or ran away. Such

consent shall be given by the juvenile or delinquent juvenile and his counsel or guardian ad litem if any, by executing or subscribing a writing, in the presence of a judge of the appropriate court, which states that the juvenile or delinquent juvenile and his counsel or guardian ad litem, if any, consent to his return to the demanding state. Before such consent shall be executed or subscribed, however, the judge, in the presence of counsel or guardian ad litem, if any, shall inform the juvenile or delinquent juvenile of his rights under this compact. When the consent has been duly executed, it shall be forwarded to and filed with the compact administrator of the state in which the court is located and the judge shall direct the officer having the juvenile or delinquent juvenile in custody to deliver him to the duly accredited officer or officers of the state demanding his return, and shall cause to be delivered to such officer or officers a copy of the consent. The court may, however, upon the request of the state to which the juvenile or delinquent juvenile is being returned, order him to return unaccompanied to such state and shall provide him with a copy of such court order; in such event a copy of the consent shall be forwarded to the compact administrator of the state to which said juvenile or delinquent juvenile is ordered to return.

ARTICLE VII

(a) That the duly constituted judicial and administrative authorities of a state party to this compact (herein called "sending state") may permit any delinquent juvenile within such state, placed on probation or parole, to reside in any other state party to this compact

(herein called “receiving state”) while on probation or parole, and the receiving state shall accept such delinquent juvenile, if the parent, guardian or person entitled to the legal custody of such delinquent juvenile is residing or undertakes to reside within the receiving state. Before granting such permission, opportunity shall be given to the receiving state to make such investigations as it deems necessary. The authorities of the sending state shall send to the authorities of the receiving state copies of pertinent court orders, social case studies and all other available information which may be of value to and assist the receiving state in supervising a probationer or parolee under this compact. A receiving state, in its discretion, may agree to accept supervision of a probationer or parolee in cases where the parent, guardian or person entitled to the legal custody of the delinquent juvenile is not a resident of the receiving state, and if so accepted the sending state may transfer supervision accordingly.

(b) That each receiving state will assume the duties of visitation and of supervision over any such delinquent juvenile and in the exercise of those duties will be governed by the same standards of visitation and supervision that prevail for its own delinquent juveniles released on probation or parole.

(c) That, after consultation between the appropriate authorities of the sending state and of the receiving state as to the desirability and necessity of returning such a delinquent juvenile, the duly accredited officers of a sending state may enter a receiving state and there apprehend and retake any such

delinquent juvenile on probation or parole. For that purpose, no formalities will be required, other than establishing the authority of the officer and the identity of the delinquent juvenile to be retaken and returned. The decision of the sending state to retake a delinquent juvenile on probation or parole shall be conclusive upon and not reviewable within the receiving state, but if, at the time the sending state seeks to retake a delinquent juvenile on probation or parole, there is pending against him within the receiving state any criminal charge or any proceeding to have him adjudicated a delinquent juvenile for any act committed in such state, or if he is suspected of having committed within such state a criminal offense or an act of juvenile delinquency, he shall not be returned without the consent of the receiving state until discharged from prosecution or other form of proceeding, imprisonment, detention or supervision for such offense or juvenile delinquency. The duly accredited officers of the sending state shall be permitted to transport delinquent juveniles being so returned through any and all states party to this compact, without interference.

(d) That the sending state shall be responsible under this Article for paying the costs of transporting any delinquent juvenile to the receiving state or of returning any delinquent juvenile to the sending state.

ARTICLE VIII

(a) That the provisions of Articles IV(b), V(b) and VII(d) of this compact shall not be construed to alter or affect any internal relationship among the departments, agencies and officers of and in the government of a party state, or

between a party state and its subdivisions, as to the payment of costs, or responsibilities therefor.

(b) That nothing in this compact shall be construed to prevent any party state or subdivision thereof from asserting any right against any person, agency or other entity in regard to costs for which such party state or subdivision thereof may be responsible pursuant to Articles IV(b), V(b) or VII(d) of this compact.

ARTICLE IX

That, to every extent possible, it shall be the policy of states party to this compact that no juvenile or delinquent juvenile shall be placed or detained in any prison, jail or lockup nor be detained or transported in association with criminal, vicious or dissolute persons.

ARTICLE X

That the duly constituted administrative authorities of a state party to this compact may enter into supplementary agreements with any other state or states party hereto for the cooperative care, treatment and rehabilitation of delinquent juveniles whenever they shall find that such agreements will improve the facilities or programs available for such care, treatment and rehabilitation. Such care, treatment and rehabilitation may be provided in an institution located within any state entering into such supplementary agreement. Such supplementary agreements shall (1) provide the rates to be paid for the care, treatment and custody of such delinquent juveniles, taking into consideration the character of facilities, services and subsistence furnished; (2) provide that

the delinquent juvenile shall be given a court hearing prior to his being sent to another state for care, treatment and custody; (3) provide that the state receiving such a delinquent juvenile in one of its institutions shall act solely as agent for the state sending such delinquent juvenile; (4) provide that the sending state shall at all times retain jurisdiction over delinquent juveniles sent to an institution in another state; (5) provide for reasonable inspection of such institutions by the sending state; (6) provide that the consent of the parent, guardian, person or agency entitled to the legal custody of said delinquent juvenile shall be secured prior to his being sent to another state; and (7) make provision for such other matters and details as shall be necessary to protect the rights and equities of such delinquent juveniles and of the cooperating states.

ARTICLE XI

That any state party to this compact may accept any and all donations, gifts and grants of money, equipment and services from the federal or any local government, or any agency thereof and from any person, firm or corporation, for any of the purposes and functions of this compact, and may receive and utilize the same subject to the terms, conditions and regulations governing such donations, gifts and grants.

ARTICLE XII

That the governor of each state party to this compact shall designate an officer who, acting jointly with like officers of other party states, shall promulgate rules and regulations to carry out more effectively the terms and provisions of this compact.

ARTICLE XIII

That this compact shall become operative immediately upon its execution by any state as between it and any other state or states so executing. When executed it shall have the full force and effect of law within such state, the form of execution to be in accordance with the laws of the executing state.

ARTICLE XIV

That this compact shall continue in force and remain binding upon each executing state until renounced by it. Renunciation of this compact shall be by the same authority which executed it, by sending six months' notice in writing of its intention to withdraw from the compact to the other states party hereto. The duties and obligations of a renouncing state under Article VII hereof shall continue as to parolees and probationers residing therein at the time of withdrawal until retaken or finally discharged. Supplementary agreements entered into under Article X hereof shall be subject to renunciation as provided by such supplementary agreements, and shall not be subject to the six months' renunciation notice of the present Article.

ARTICLE XV

HOUSE AMENDMENT NO. 4

Amend House Committee Substitute for Senate Bill No. 84, Page 27, Section 210.762, Line 28, by adding after all of said line the following:

“210.1050. 1. The educational needs of each child under the jurisdiction of the juvenile court or family court under subdivisions (1), (2), or (5) of subsection 1 of section 211.031, RSMo, shall be considered as part of the function of the child's family support team pursuant to policy of the department of social services. Such needs shall include, but not be limited to, the assumption that regular full school days of education are warranted. For the purposes of this section, “full school day” shall mean six hours in which the child is under the guidance and direction of teachers in the education process. The local school district shall be invited to have representation on the child's family support team. If the school district designates a representative, the representative shall be a full participant in the family support team.

2. Nothing in this section shall be construed to infringe upon the rights or due process provisions of the federal Individuals with Disabilities Education Act. Nothing in this section shall be construed to impede the ability of the family support team or the facility staff from making a referral for special education services, if appropriate, when a child is placed in a facility described in this section without an individualized education program or without a pending referral for such services. If a child is referred for such services, the provisions of the Individuals with Disabilities Education Act shall apply and control while the referral is pending and through the evaluation process, including provisions for educational decision-makers and educational surrogates. Nothing in this section shall be construed to deny any child domiciled in Missouri appropriate and necessary free public education services.

3. When the department of social services by contract places a child for treatment in a licensed residential care facility setting for children as defined in section 210.481, such facility shall be responsible for the educational needs of the child if the child at the time of placement does not have an individualized education program or a pending referral for special education services under sections 162.670 to 162.999, RSMo.

(1) Such facilities operating an on-site school for which they hire their own education staff shall:

(a) Provide, on site at such facility , a full school day of education for each child placed in such facility by the department of social services unless the child's plan of treatment and care supports his or her ability to attend public school; and

(b) Be reimbursed by the local school district for the cost of education services provided to children placed in their care by the department of social services, as approved by the department of elementary and secondary education, when the facility provides education services. The local school district shall be compensated under section 167.126, RSMo, for such education services.

No child placed in the facilities for treatment described in this subdivision shall be considered by the local school district as homebound for purposes of education unless the family support team under subsection 1 of this section has approved homebound instruction. A full school day of education shall be provided unless fewer hours of instruction per day are approved by the family support team under subsection 1 of this section. Nothing in this subsection shall create an obligation for a licensed residential care facility to have on-site classrooms, to operate an on-site school, or to hire its own education staff.

(2) When such facilities have on-site classrooms but do not hire their own education staff, the local school district:

(a) Shall provide, on site at such facility or at an alternative location agreed upon pursuant to subsection 6 of this section, a full school day of education for each child placed in such facility for care by the department of social services unless the child's plan of treatment and care supports his or her ability to attend public school;

(b) Shall be compensated under section 167.126, RSMo, for such education services as approved by the department of elementary and secondary education; and

(c) May consider such education services as homebound instruction but shall provide each homebound child with a full school day of education unless fewer hours of instruction per day are approved by the family support team under subsection 1 of this section.

Nothing in this subdivision shall create an obligation for a licensed residential care facility to have on-site classrooms, to operate an on-site school, or to hire its own education staff.

(3) When such facilities do not operate an on-site school or have on-site classrooms, the local school district shall:

(a) Provide a full school day of education for each child placed in such facility for care by the department of social services; and

(b) Be compensated for such education services under section 167.126, RSMo, as approved by the department of elementary and secondary education.

If the child's behavior or plan of treatment and care does not support the child's being educated in a regular education class, education services shall be provided in an alternative setting approved by the family support team under subsection 1 of this section. A full school day of

education shall be provided unless fewer hours of instruction per day are approved by the family support team under subsection 1 of this section. Nothing in this subdivision shall create an obligation for a licensed residential care facility to have on-site classrooms, to operate an on-site school, or to hire its own education staff.

4. Notwithstanding any other provision of law, a child placed for treatment by the department of social services in a licensed residential care facility setting for children as defined in section 210.481, RSMo, who does not have an individualized education program for special education services or a pending referral for such services under sections 162.670 to 162.999, RSMo, whose plan of treatment and care supports his or her ability to attend public school but who is then suspended or otherwise demonstrates school failure based on behavior or academic performance shall then be provided a full school day of education according to subsection 3 of this section.

5. Nothing in this section shall prevent a licensed residential care facility setting for children as defined in section 210.481 from contracting with school districts for education services. Nothing in this section shall prevent a school district from contracting with a licensed residential care facility setting for children as defined in section 210.481 for education services.

The educational plan shall be developed jointly by the appropriate staff of both the treatment facility and the public school district, and the plan shall be signed annually by the administration of both parties verifying their

support for the plan.

(2) It is the intent that the educational plan follow the provisions of this section, but treatment facilities and school districts may develop provisions for educational services not included in this section if both parties agree on the provisions and if the provisions offer a full-day educational program for the students involved.

(3) It is understood as a condition of the plan that both the treatment facility and school district shall be fully reimbursed, as allowed by law in accordance with the availability of funds, for their portions of the cost of providing educational services through such sources as basic state aid, local district bill-back, and excess cost reimbursement, as well as other possible sources and that a school district shall not be required to provide more total reimbursement to a treatment facility than it receives from all such sources. The local school district shall make all needed requests and applications for such reimbursement.

(4) Each treatment facility and school district shall furnish a signed copy of their educational plan to the department of elementary and secondary education and to the department of social services no later than June 1 of each year.

(5) If the treatment facility and the school district cannot reach an agreement on the education plan under this subsection, the differences shall be resolved by an arbitration panel made up of one representative from the department of elementary and secondary education, one representative from the children's division of the department of social services, and one person appointed by the governor every three years, with the advice and consent of the senate, serving at the pleasure of the governor. A final decision shall be made by August 15. Costs for the arbitration panel shall be shared equally by the treatment facility and

This definition of optional car rental insurance or any other definition of insurance shall not include collision damage waiver;

(6) “Clear and conspicuous”, that the statement, representation or term being disclosed is of such size, color contrast, and audibility and is so presented as to be readily noticed and understood by the person to whom it is being disclosed. All language and terms should be used in accordance with their common or ordinary usage and meaning;

(7) “Collision damage waiver”, any product a consumer purchases from a car rental company in order to waive all or part of his responsibility for damages, or loss of, a rental vehicle;

407.732. 1. Any advertisement shall be nondeceptive and in plain language. Deception may result not only from a direct statement in the advertisement and from reasonable inferences therefrom, but also from omitting or obscuring a material restriction or fact.

(1) The expiration date of the price offered if it is available for less than thirty days after the last date of publication of the advertisement;

Prices

may be advertised although less cars are available than would be required to meet the expected demand, as long as this limitation is clearly and conspicuously set forth in the advertisement and a reasonable number of cars are made available at the advertised price.

If the gift or offer is provided by a third party, the car rental company shall be fully responsible for providing the gift or offer under the terms and conditions disclosed.

9. A rental car shall not be advertised using the words “unlimited mileage” or other terms that suggest there are absolutely no mileage restrictions on the use of the rental vehicle only unless there are no geographical restrictions on the use of the vehicle.

HOUSE AMENDMENT NO. 10

Amend House Committee Substitute for Senate Committee Substitute for Senate Bill No. 82, Page 53, Section 301.640, Line 50, by inserting after all of said Line the following:

“302.720. 1. Except when operating under an instruction permit as described in this section, no person may drive a commercial motor vehicle unless the person has been issued a commercial driver's license with applicable endorsements valid for the type of vehicle being operated as specified in sections 302.700 to 302.780. A commercial driver's instruction permit shall allow the holder of

a valid license to operate a commercial motor vehicle when accompanied by the holder of a commercial driver's license valid for the vehicle being operated and who occupies a seat beside the individual, or reasonably near the individual in the case of buses, for the purpose of giving instruction in driving the commercial motor vehicle. A commercial driver's instruction permit shall be valid for the vehicle being operated for a period of not more than six months, and shall not be issued until the permit holder has met all other requirements of sections 302.700 to 302.780, except for the driving test. A permit holder, unless otherwise disqualified, may be granted one six-month renewal within a one-year period. The fee for such permit or renewal shall be five dollars. In the alternative, a commercial driver's instruction permit shall be issued for a thirty-day period to allow the holder of a valid driver's license to operate a commercial motor vehicle if the applicant has completed all other requirements except the driving test. The permit may be renewed for one additional thirty-day period and the fee for the permit and for renewal shall be five dollars.

2. No person may be issued a commercial driver's license until he has passed written and driving tests for the operation of a commercial motor vehicle which complies with the minimum federal standards established by the Secretary and has satisfied all other requirements of the Commercial Motor Vehicle Safety Act of 1986 (Title XII of Pub. Law 99-570), as well as any other requirements imposed by state law. Applicants for a hazardous materials endorsement must also meet the requirements of the U.S. Patriot Act of 2001 (Title X of Public Law 107-56) as specified and required by regulations promulgated by the Secretary. Nothing contained in this subsection shall be construed as prohibiting the director from establishing alternate testing formats for those who are functionally illiterate; provided, however, that any such alternate test must comply with the minimum requirements of the Commercial Motor Vehicle Safety Act of 1986

(Title XII of Pub. Law 99-570) as established by the Secretary.

(1) The written and driving tests shall be held at such times and in such places as the superintendent may designate. A twenty-five dollar examination fee shall be paid by the applicant upon completion of any written or driving test. The director shall delegate the power to conduct the examinations required under sections 302.700 to 302.780 to any member of the highway patrol or any person employed by the highway patrol qualified to give driving examinations.

(2) The director shall adopt and promulgate rules and regulations governing the certification of third-party testers by the department of revenue. Such rules and regulations shall substantially comply with the requirements of 49 CFR Part 383, Section 383.75. A certification to conduct third-party testing shall be valid for one year, and the department shall charge a fee of one hundred dollars to issue or renew the certification of any third-party tester.

(3) Beginning August 28, 2006, the director shall only issue or renew third-party tester certification to junior colleges or community colleges established under chapter 178, RSMo, or to private companies who own, lease, or maintain their own fleet and administer in-house testing to their employees, or to school districts and their agents that administer in-house testing to the school district's or agent's employees. Any third-party tester who violates any of the rules and regulations adopted and promulgated pursuant to this section shall be subject to having his certification revoked by the department. The department shall provide written notice and an opportunity for the third-party tester to be heard in substantially the same manner as provided in chapter 536, RSMo. If any applicant submits evidence that he has successfully completed a test administered by a third-party tester, the actual driving test for a commercial driver's license may then be waived.

(4) Every applicant for renewal of a commercial driver's license shall provide such certifications and information as required by the secretary and if such person transports a hazardous material must also meet the requirements of the U.S. Patriot Act of 2001 (Title X of Public Law 107-56) as specified and required by regulations promulgated by the secretary. Such person shall be required to take the written test for such endorsement. A twenty-five dollar examination fee shall be paid upon completion of such tests.

(5) The director shall have the authority to waive the driving skills test for any qualified military applicant for a commercial driver license who is currently licensed at the time of application for a commercial driver license. The director shall impose conditions and limitations to restrict the applicants from whom the department may accept alternative requirements for the skills test described in federal regulation 49 C.F.R. 383.77. An applicant must certify that, during the two-year period immediately preceding application for a commercial driver license, all of the following apply:

(a) The applicant has not had more than one license;

(b) The applicant has not had any license suspended, revoked, or canceled;

(c) The applicant has not had any convictions for any type of motor vehicle for the disqualifying offenses contained in chapter 302, RSMo, or federal rule 49 C.F.R. 383.51(b);

(d) The applicant has not had more than one conviction for any type of motor vehicle for serious traffic violations;

(e) The applicant has not had any conviction for a violation of state or local law relating to motor vehicle traffic control, but not including any parking violation, arising in connection with any traffic accident, and has no record of an accident in which he or she was at

fault;

(f) The applicant is regularly employed in a job requiring operation of a commercial motor vehicle and has operated the vehicle for at least sixty days during the two years immediately preceding application for a commercial driver license. The vehicle must be representative of the commercial motor vehicle the driver applicant operates or expects to operate;

(g) The applicant, if on active duty, must provide a notarized affidavit signed by a commanding officer as proof of driving experience as indicated in subdivision (f);

(h) The applicant, if honorably discharged from military service, must provide a form-DD214 or other proof of military occupational specialty;

(i) The applicant must meet all federal and state qualifications to operate a commercial vehicle; and

(j) The applicant will be required to complete all applicable knowledge tests.

3. A commercial driver's license may not be issued to a person while the person is disqualified from driving a commercial motor vehicle, when a disqualification is pending in any state or while the person's driver's license is suspended, revoked, or canceled in any state; nor may a commercial driver's license be issued unless the person first surrenders in a manner prescribed by the director any commercial driver's license issued by another state, which license shall be returned to the issuing state for cancellation.

4. Beginning July 1, 2005, the director shall not issue an instruction permit under this section unless the director verifies that the applicant is lawfully present in the United States before accepting the application. The director may, by rule or regulation, establish procedures to verify the lawful presence of the applicant under this section. No rule or portion of a rule promulgated pursuant to the authority of this section shall

become effective unless it has been promulgated pursuant to chapter 536, RSMo.”; and

Further amend said bill by amending the title, enacting clause, and intersectional references accordingly.

(6) “Clear and conspicuous”, that the statement, representation or term being disclosed is of such size, color contrast, and audibility and is so presented as to be readily noticed and understood by the person to whom it is being disclosed. (13) "Vehicle license fees", charges that may be imposed upon any transaction originating in the State of Missouri to recoup costs incurred by a car rental company to license, title, inspect, register, plate, and pay personal property taxes on rental vehicles.

407.732. 1. Any advertisement shall be nondeceptive and in plain language. Deception may result not only from a direct statement in the advertisement and from reasonable inferences therefrom, but also from omitting or obscuring a material restriction or fact.

2. Print advertisements that include prices for car rentals shall make clear and conspicuous disclosure of the following applicable restrictions:

(1) The expiration date of the price offered if it is available for less than thirty days after the last date of publication of the advertisement;

(2) The existence of any geographical limitations on use;

(3) Mileage limitations and charges, if any;

(4) Price or price range for collision damage waiver.

4. Any advertised price shall be available in sufficient quantity to meet reasonably expected public demand for the rental cars advertised for the entire advertised period, beginning on the day on which the advertisement appears and continuing at least thirty days thereafter, unless the advertisement clearly and conspicuously discloses a shorter or longer expiration date for the offer, and in that event, through the expiration date. Prices may be advertised although less cars are available than would be required to meet the expected demand, as long as this limitation is clearly and conspicuously set forth in the advertisement and a reasonable number of cars are made available at the advertised price.

5. [Any surcharge or fee, including, but not limited to, fuel surcharges, airport access fees, and surcharges in lieu of sales tax that consumers must generally pay at any location in order to obtain or operate a rental vehicle shall be clearly and conspicuously disclosed when a price is advertised] **The existence of each additional fee, charge, or surcharge that a consumer must pay and which may be imposed as a separately stated charge on a rental transaction including, but in no way to be construed as limited to, airport fees and vehicle license fees shall be disclosed any time a price is advertised and each fee, charge, or surcharge shall be clearly and conspicuously disclosed on the rental agreement.**

A photograph of a rental car shall not be used in an advertisement if the advertisement states directly or by implication that the automobile depicted may be rented under certain conditions and that is not the case.

7. Any price advertised as a “daily price” or “price per day” shall be available for rentals of a single day or more, and any price advertised as a “weekly” rate shall be available for the first week and for subsequent weeks of the same rental. A rental company shall not charge more than a weekly price which was advertised if a customer on a weekly rental returns the car earlier than seven days. A price advertised as a “weekend rate” shall be available on both Saturday and Sunday.

8. Any car rental advertising promotion which extends a free offer or promises a gift or other incentive shall clearly and conspicuously disclose all the terms and conditions for receiving the offer, gift or incentive. A gift, incentive, or other merchandise or service shall not be advertised as free, if the cost of the item, in whole or in part, is included in the advertised rental rate. If the gift or

offer is provided by a third party, the car rental company shall be fully responsible for providing the gift or offer under the terms and conditions disclosed.

9. A rental car shall not be advertised using the words “unlimited mileage” or other terms that suggest there are absolutely no mileage restrictions on the use of the rental vehicle only unless there are no geographical restrictions on the use of the vehicle.

10. At the time of the car rental transaction, the car rental company shall disclose the following:

- (1) The total cost, including any airport access fees;

Journal of the Senate

FIRST REGULAR SESSION

SIXTY-SIXTH DAY—MONDAY, MAY 7, 2007

The Senate met pursuant to adjournment.

President Kinder in the Chair.

Reverend Carl Gauck offered the following prayer:

“A lot of ‘distractions’ would vanish if we realized that we are not bound at all times to ignore the practical problems of our life when we are at prayer. On the contrary, sometimes these problems actually ought to be the subject of meditation” (Thomas Merton)

As we begin a new week O Lord, help us be mindful to turn to You in prayer at all times and about all things so that our work might not be bogged down by distractions but seen clearly as to course we are to follow and the path our votes are to take. In Your Holy Name we pray. Amen.

(7) Implement a system for reutilization of assistive technology devices and oversight of assistive technology authorizations.

Federal funds available under Part C of the IDEA, 20 U.S.C. Section 1431, et seq., shall be used whenever necessary to prevent the delay of early intervention services to the eligible child or family. When funds are used to reimburse the service provider to prevent a delay of the provision of services, the funds shall be recovered from the public or private source that has ultimate responsibility for the payment.

4. The lead agency shall promulgate rules for the reimbursement of services from all third-party payers, both private and public.

7. The lead agency shall promulgate rules that establish a schedule of monthly cost participation fees for early intervention services per qualifying family regardless of the number of children participating or the amount of services provided. Such fees shall not include services to be provided to the family at no cost as established in Part C of IDEA, 20 U.S.C. Section 1431, et seq. Fees shall be based on a sliding scale to become effective October 1, 2005, that contemplates the following elements:

(1) Adjusted gross income, family size, financial hardship and Medicaid eligibility with the fee implementation beginning at two hundred percent of the federal poverty guidelines;

(2) A minimum fee amount of five dollars to the maximum amount of one hundred dollars monthly, with the lead agency retaining the right to revise the fee schedule no earlier than the third year after the family cost participation effective date;

(4) Procedures for notifying the regional office that a family is not complying with the cost participation fee and procedures for suspending services.

8. All amounts generated by family cost participation, insurance reimbursements, and Medicaid reimbursement shall be deposited to the fund created in section 160.925.

9. The lead agency may assign the collection of early intervention participation fees, payments, and public or private insurance to a designee, contractor, provider, third-party agent, or designated clearinghouse participating in the Part C early intervention system. Such fees, payments, or insurance amounts shall be paid to the department, its designee, contractor, provider, third-party agent, or designated clearinghouse in a timely manner. Notice of collection procedures,

10. Notwithstanding the provisions of section 23.253, RSMo, to the contrary, the provisions of this section shall not sunset.

[Notwithstanding the provisions of section 33.080, RSMo, to the contrary, any moneys remaining in the fund at the end of the biennium shall not revert to the credit of the general revenue fund.] The state treasurer shall invest moneys in the fund in the same manner as other funds are invested. Any interest and moneys earned on such investments shall be credited to the fund.

2. At the end of each biennium and after all statutorily or constitutionally required transfer of funds have been made, the state treasurer shall transfer the balance in the fund, except for gifts, donations, bequests, or money received from a federal source, created in subsection 1 of this section in excess of two hundred percent of the previous fiscal year's expenditures into the state general revenue fund.

2. By September 1, 2010, the greater St. Louis system point of entry shall conduct a study on the effect of hiring the child-find coordinator under this section. The study shall be submitted to the department, the state interagency coordinating council and the general assembly.

3. The provisions of this section shall expire on September 1, 2011.

160.933. 1. There is hereby created in the state treasury the "Part C Early Intervention Pilot Program Fund" for implementing the provisions of section 160.932. Any interest and moneys earned on such investments shall be credited to the fund.

2. 6. Any and all state costs required to fund special education services for three- and four-year-old children [pursuant to] **under** this section shall be provided for by a specific, separate appropriation and shall not be funded by a reallocation of money appropriated for the public school foundation program.

7. Further amend said bill, Page 2, Section 162.963, Line 25, by inserting after all of said line the following:

“376.1218. 1. Any health carrier or health benefit plan that offers or issues health benefit plans, other than Medicaid health benefit plans, which are delivered, issued for delivery, continued,

or renewed in this state on or after January 1, 2006, shall provide coverage for early intervention services described in this section that are delivered by early intervention specialists who are health care professionals licensed by the state of Missouri and acting within the scope of their professions for children from birth to age three identified by the Part C early intervention system as eligible for services under Part C of the Individuals with Disabilities Education Act, 20 U.S.C. Section 1431, et seq. Such coverage shall be limited to three thousand dollars for each covered child per policy per calendar year, with a maximum of nine thousand dollars per child.

2. As used in this section, “health carrier” and “health benefit plan” shall have the same meaning as such terms are defined in section 376.1350.

3. In the event that any health benefit plan is found not to be required to provide coverage under subsection 1 of this section because of preemption by a federal law, including but not limited to the act commonly known as ERISA contained in Title 29 of the United States Code, or in the event that subsection 1 of this section is found to be unconstitutional, then the lead agency shall be responsible for payment and provision of any benefit provided under this section.

4. For purposes of this section, “early intervention services” means medically necessary speech and language therapy, occupational therapy, physical therapy, and assistive technology devices for children from birth to age three who are identified by the Part C early intervention system as eligible for services under Part C of the Individuals with Disabilities Education Act, 20 U.S.C. Section 1431, et seq. Early intervention services shall include services under an active individualized family service plan that enhance functional ability without effecting a cure. An individualized family service plan is a written plan for providing early intervention services to an eligible child and the child's family that is adopted in accordance with 20 U.S.C. Section 1436. The

Part C early intervention system, on behalf of its contracted regional Part C early intervention system centers and providers, shall be considered the rendering provider of services for purposes of this section.

5. No payment made for specified early intervention services shall be applied by the health carrier or health benefit plan against any maximum lifetime aggregate specified in the policy or health benefit plan if the carrier opts to satisfy its obligations under this section under subdivision (2) of subsection 7 of this section. A health benefit plan shall be billed at the applicable Medicaid rate at the time the covered benefit is delivered, and the health benefit plan shall pay the Part C early intervention system at such rate for benefits covered by this section. Services under the Part C early intervention system shall be delivered as prescribed by the individualized family service plan and an electronic claim filed in accordance with the carrier's or plan's standard format. Beginning January 1, 2007, such claims' payments shall be made in accordance with the provisions of sections 376.383 and 376.384.

6. The health care service required by this section shall not be subject to any greater deductible, co-payment, or coinsurance than other similar health care services provided by the health benefit plan.

7. (1) Subject to the provisions of this section, payments made during a calendar year by a health carrier or group of carriers affiliated by or under common ownership or control to the Part C early intervention system for services provided to children covered by the Part C early intervention system shall not exceed one-half of one percent of the direct written premium for health benefit plans as reported to the department of insurance on the health carrier's most recently filed annual financial statement.

(2) In lieu of reimbursing claims under this section, a carrier or group of carriers affiliated by or under common ownership or control may, on

behalf of all of the carrier's or carriers' health benefit plan or plans providing coverage under this section, directly pay the Part C early intervention system by January thirty-first of the calendar year an amount equal to one-half of one percent of the direct written premium for health benefit plans as reported to the department of insurance on the health carrier's most recently filed annual financial statement, or five hundred thousand dollars, whichever is less, and such payment shall constitute full and complete satisfaction of the health benefit plan's obligation for the calendar year. Nothing in this subsection shall require a health carrier or health benefit plan providing coverage under this section to amend or modify any provision of an existing policy or plan relating to the payment or reimbursement of claims by the health carrier or health benefit plan.

8. This section shall not apply to a supplemental insurance policy, including a life care contract, specified disease policy, hospital policy providing a fixed daily benefit only, Medicare supplement policy, hospitalization-surgical care policy, policy that is individually underwritten or provides such coverage for specific individuals and members of their families, long-term care policy, or short-term major medical policies of six months or less duration.

9. Except for health carriers or health benefit plans making payments under subdivision (2) of subsection 7 of this section, the department of insurance shall collect data related to the number of children receiving private insurance coverage under this section and the total amount of moneys paid on behalf of such children by private health carriers or health benefit plans. The department shall report to the general assembly regarding the department's findings no later than January 30, 2007, and annually thereafter.

10. Notwithstanding the provisions of section 23.253, RSMo, to the contrary, the provisions of this section shall not sunset.”; and

Further amend the title and enacting clause accordingly.

Such request shall include the child's name, address, school, issue, and suggested resolution of dispute if known. Except as provided in subsection 4 of this section, the board or its delegated representative shall within fifteen days after receiving notice empower a hearing panel of three persons who are not directly connected with the original decision and who are not employees of the board to which the appeal has been made. All of the panel members shall have some knowledge or training involving children with disabilities, none

If either party has not chosen a panel member ten days after the receipt by the department of elementary and secondary education of the request for a due process hearing, such panel member shall be chosen instead by the department of elementary and secondary education. Each of these two panel members shall be compensated pursuant to a rate set by the department of elementary and secondary education. The corporate organization of any school district that is classified as unaccredited shall lapse on June thirtieth of the second full school year of such unaccredited classification after the school year during which the unaccredited classification is initially assigned. The territory theretofore embraced within any district that lapses pursuant to this section or any portion thereof may be attached to any district for school purposes by the state board of education; but no school district, except a district classified as unaccredited pursuant to section 163.023, RSMo, and section 160.538, RSMo, shall lapse where provision is lawfully made for the attendance of the pupils of the district at another school district that is classified as provisionally accredited or accredited by the state board of education.

The special administrative board shall consist of two persons who are residents of the school district, who shall serve without compensation, and a professional administrator, who shall chair the board and shall be compensated, as determined by the state board of education, in whole or in part with funds from the district.

4.] Upon lapse of the district, the state board of education may:

[(2)] (b) Attach the territory of the lapsed district to another district or districts for school purposes; or

[(3)] (c) Establish one or more school districts within the territory of the lapsed district, with a governance structure consistent with the laws applicable to districts of a similar size, with the option of permitting a district to remain intact for the purposes of assessing, collecting, and

distributing property taxes, to be distributed equitably on a weighted average daily attendance basis, but to be divided for operational purposes, which shall take effect sixty days after the adjournment of the regular session of the general assembly next following the state board's decision unless a statute or concurrent resolution is enacted to nullify the state board's decision prior to such effective date.

The special administrative board may retain the authority granted to a board of education for the operation of the lapsed school district under the laws of the state in effect at the time of the lapse.

[5.] 3. The authority of the special administrative board shall expire at the end of the third full school year following its appointment, unless extended by the state board of education. If the lapsed district is reassigned, the special administrative board shall provide an accounting of all funds, assets and liabilities of the lapsed district and transfer such funds, assets, and liabilities of the lapsed district as determined by the state board of education.

[6.] 4. Upon recommendation of the special administrative board, the state board of education may assign the funds, assets and liabilities of the lapsed district to another district or districts. Upon assignment, all authority of the special administrative board shall transfer to the assigned districts.

[7.] 5. Neither the special administrative board nor any district or other entity assigned territory, assets or funds from a lapsed district shall be considered a successor entity for the purpose of employment contracts, unemployment compensation payment pursuant to section 288.110, RSMo, or any other purpose.

[8.] 6. If additional teachers are needed by a district as a result of increased enrollment due to the annexation of territory of a lapsed or dissolved district, such district shall grant an employment interview to any permanent teacher of the lapsed or dissolved district upon the request of such

In the case of such a district being declared unaccredited, such plan shall be presented to the voters of the district before the district lapses. In the case of such a district being declared provisionally accredited, such plan may be presented before the close of the current accreditation cycle.

(2) The plan may provide that the school district shall remain intact for the purposes of assessing, collecting and distributing taxes for support of the schools, and the governing body of the district shall develop a plan for the distribution of such taxes equitably on a per-pupil basis if the district selects this option.

(3) The makeup of the new districts shall be racially balanced as far as the proportions of students allow.

(4) If a majority of the district's voters approve the plan, the state board of education shall cooperate with the local board of education to implement the plan, which may include use of the provisions of this section to provide an orderly transition to new school districts and achievement of accredited status for such districts.

[10.] 8. In the event that a school district with an enrollment in excess of five thousand pupils lapses, no school district shall have all or any part of such lapsed school district attached without the approval of the board of the receiving school district.”; and

(2) The special administrative board shall establish student performance standards consistent with the standards established by the state board of education pursuant to section 160.514, RSMo, for preschool through grade twelve in all skill and subject areas, subject to review and approval of the state board of education for the purpose of determining whether the standards are consistent with standards established by the state board of education pursuant to section 160.514, RSMo;

2. For all tax years beginning on or after January 1, 2008, a taxpayer shall be allowed to claim a tax credit against the taxpayer's state tax liability in an amount equal to fifty percent of such taxpayer's contribution to an after school program operating within the boundaries of any school district that is classified as "unaccredited" or "provisionally accredited" by the state board of education.

3. The amount of the tax credit claimed shall not exceed the amount of the taxpayer's state tax liability for the taxable year for which the credit is claimed, and such taxpayer shall not be allowed to claim a tax credit in excess of fifty thousand dollars per taxable year. However, any tax credit that cannot be claimed in the taxable year the contribution was made may be carried over to the next four succeeding taxable years until the full credit has been claimed.

4. The department shall make every effort to ensure that the number of tax credits issued annually in conjunction with any tax credits to be carried over in any tax year shall not exceed two million dollars. Upon receipt of a contribution, the department shall issue the taxpayer making such contribution a tax credit certificate detailing the amount of the contribution or its fair market value, and the date of such contribution. The department shall provide information to the director concerning the identity of each taxpayer making a contribution who is claiming a tax credit under this section and the amount of such contribution.

5. The cumulative amount of tax credits which may be claimed by all the taxpayers

contributing in any one fiscal year shall not exceed two million dollars. Tax credits shall be issued in the order contributions are received.

6. The department and the department of revenue may promulgate rules necessary to implement the provisions of this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly under chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2007, shall be invalid and void.

(3) This section shall terminate on September first of the calendar year immediately following the calendar year in which a program authorized under this section is sunset.

160.261. 1. The local board of education of each school district shall clearly establish a written policy of discipline, including the district's determination on the use of corporal punishment and the procedures in which punishment will be

applied. A written copy of the district's discipline policy and corporal punishment procedures, if applicable, shall be provided to the pupil and parent or legal guardian of every pupil enrolled in the district at the beginning of each school year and also made available in the office of the superintendent of such district, during normal business hours, for public inspection. All employees of the district shall annually receive instruction related to the specific contents of the policy of discipline and any interpretations necessary to implement the provisions of the policy in the course of their duties, including but not limited to approved methods of dealing with acts of school violence, disciplining students with disabilities and instruction in the necessity and requirements for confidentiality.

2. The policy shall require school administrators to report acts of school violence to **all teachers at the attendance center and in addition, to** other school district employees with a need to know. For the purposes of this chapter or chapter 167, RSMo, "need to know" is defined as school personnel who are directly responsible for the student's education or who otherwise interact with the student on a professional basis while acting within the scope of their assigned duties. As used in this section, the phrase "act of school violence" or "violent behavior" means the exertion of physical force by a student with the intent to do serious physical injury as defined in subdivision (6) of section 565.002, RSMo, to another person while on school property, including a school bus in service on behalf of the district, or while involved in school activities. The policy shall at a minimum require school administrators to report, as soon as reasonably practical, to the appropriate law enforcement agency any of the following felonies, or any act which if committed by an adult would be one of the following felonies:

(1) First degree murder under section 565.020, RSMo;

566.070, RSMo;

(22) Sexual misconduct involving a child pursuant to section 566.083, RSMo; or

(23) Sexual abuse pursuant to section 566.100, RSMo;

committed on school property, including but not limited to actions on any school bus in service on behalf of the district or while involved in school activities. The policy shall require that any portion of a student's individualized education program that is related to demonstrated or potentially violent behavior shall be provided to any teacher and other school district employees who are directly responsible for the student's education or who otherwise interact with the student on an educational basis while acting within the scope of their assigned duties. The policy shall also contain the consequences of failure to obey standards of conduct set by the local board of education, and the importance of the standards to the maintenance of an atmosphere where orderly learning is possible and encouraged.

3. The policy shall provide that any student who is on suspension for any of the offenses listed in subsection 2 of this section or any act of violence or drug-related activity defined by school district policy as a serious violation of school discipline pursuant to subsection 9 of this section shall have as a condition of his or her suspension the requirement that such student is not allowed, while on such suspension, to be within one thousand feet of any [public] school **property** in the school district where such student attended school **or any activity of that district, regardless of whether or not the activity takes place on district property** unless:

(1) Such student is under the direct supervision of the student's parent, legal guardian, or custodian **and the superintendent or the superintendent's designee has authorized the student to be on school property**;

(2) Such student is under the direct

supervision of another adult designated by the student's parent, legal guardian, or custodian, in advance, in writing, to the principal of the school which suspended the student **and the superintendent or the superintendent's designee has authorized the student to be on school property**;

(3) Such student is **enrolled in and attending** an alternative school that is located within one thousand feet of a public school in the school district where such student attended school; or

(4) Such student resides within one thousand feet of any public school in the school district where such student attended school in which case such student may be on the property of his or her residence without direct adult supervision.

4. Any student who violates the condition of suspension required pursuant to subsection 3 of this section may be subject to expulsion or further suspension pursuant to the provisions of sections 167.161, 167.164, and 167.171, RSMo. In making this determination consideration shall be given to whether the student poses a threat to the safety of any child or school employee and whether such student's unsupervised presence within one thousand feet of the school is disruptive to the educational process or undermines the effectiveness of the school's disciplinary policy. Removal of any pupil who is a student with a disability is subject to state and federal procedural rights. **This section shall not limit a school district's ability to:**

(1) **Prohibit all students who are suspended from being on school property or attending an activity while on suspension;**

(2) **Discipline students for off-campus conduct that negatively affects the educational environment to the extent allowed by law.**

5. The policy shall provide for a suspension for a period of not less than one year, or expulsion, for a student who is determined to have brought a weapon to school, including but not limited to the

school playground or the school parking lot, brought a weapon on a school bus or brought a weapon to a school activity whether on or off of the school property in violation of district policy, except that:

(1) The superintendent or, in a school district with no high school, the principal of the school which such child attends may modify such suspension on a case-by-case basis; and

(2) This section shall not prevent the school district from providing educational services in an alternative setting to a student suspended under the provisions of this section.

6. For the purpose of this section, the term “weapon” shall mean a firearm as defined under 18 U.S.C. 921 and the following items, as defined in section 571.010, RSMo: a blackjack, a concealable firearm, an explosive weapon, a firearm, a firearm silencer, a gas gun, a knife, knuckles, a machine gun, a projectile weapon, a rifle, a shotgun, a spring gun or a switchblade knife; except that this section shall not be construed to prohibit a school board from adopting a policy to allow a Civil War reenactor to carry a Civil War era weapon on school property for educational purposes so long as the firearm is unloaded. The local board of education shall define weapon in the discipline policy. Such definition shall include the weapons defined in this subsection but may also include other weapons.

7. All school district personnel responsible for the care and supervision of students are authorized to hold every pupil strictly accountable for any disorderly conduct in school or on any property of the school, on any school bus going to or returning from school, during school-sponsored activities, or during intermission or recess periods.

8. Teachers and other authorized district personnel in public schools responsible for the care, supervision, and discipline of schoolchildren, including volunteers selected with reasonable care by the school district, shall not be civilly liable

when acting in conformity with the established [policy of discipline] **policies** developed by each board [under this section], **including but not limited to policies of student discipline** or when reporting to his or her supervisor or other person as mandated by state law acts of school violence or threatened acts of school violence, within the course and scope of the duties of the teacher, authorized district personnel or volunteer, when such individual is acting in conformity with the established policies developed by the board. Nothing in this section shall be construed to create a new cause of action against such school district, or to relieve the school district from liability for the negligent acts of such persons.

9. Each school board shall define in its discipline policy acts of violence and any other acts that constitute a serious violation of that policy. Acts of violence as defined by school boards shall include but not be limited to exertion of physical force by a student with the intent to do serious bodily harm to another person while on school property, including a school bus in service on behalf of the district, or while involved in school activities. School districts shall for each student enrolled in the school district compile and maintain records of any serious violation of the district's discipline policy. Such records shall be made available to teachers and other school district employees with a need to know while acting within the scope of their assigned duties, and shall be provided as required in section 167.020, RSMo, to any school district in which the student subsequently attempts to enroll.

10. Spanking **or the use of force to protect persons or property**, when administered by [certificated] personnel of a school district in a reasonable manner in accordance with the local board of education's written policy of discipline, is not abuse within the meaning of chapter 210, RSMo. The provisions of sections 210.110 to 210.165, RSMo, notwithstanding, the **children's** division [of family services] shall not have jurisdiction over or investigate any report of

alleged child abuse arising out of or related to any spanking administered in a reasonable manner by any [certificated] school personnel pursuant to a written policy of discipline established by the board of education of the school district. Upon receipt of any reports of child abuse by the division of family services pursuant to sections 210.110 to 210.165, RSMo, which allegedly involves personnel of a school district, the division of family services shall notify the superintendent of schools of the district or, if the person named in the alleged incident is the superintendent of schools, the president of the school board of the school district where the alleged incident occurred. If, after an initial investigation, the superintendent of schools or the president of the school board finds that the report involves an alleged incident of child abuse other than the administration of a spanking **or the use of force to protect persons or property** by [certificated] school personnel pursuant to a written policy of discipline or [a] **that the** report was made for the sole purpose of harassing a public school employee, the superintendent of schools or the president of the school board shall immediately refer the matter back to the **children's** division [of family services] and take no further action. In all matters referred back to the **children's** division [of family services], the division [of family services] shall treat the report in the same manner as other reports of alleged child abuse received by the division. If the report pertains to an alleged incident which arose out of or is related to a spanking **or the use of force to protect persons or property** administered by [certificated] personnel of a school district pursuant to a written policy of discipline or a report made for the sole purpose of harassing a public school employee, a notification of the reported child abuse shall be sent by the superintendent of schools or the president of the school board to the juvenile officer of the county in which the alleged incident occurred. The report shall be jointly investigated by the juvenile officer or a law enforcement officer designated by the

juvenile officer and the superintendent of schools or, if the subject of the report is the superintendent of schools, by the juvenile officer or a law enforcement officer designated by the juvenile officer and the president of the school board or such president's designee. The investigation shall begin no later than forty-eight hours after notification from the **children's** division [of family services] is received, and shall consist of, but need not be limited to, interviewing and recording statements of the child and the child's parents or guardian within two working days after the start of the investigation, of the school district personnel allegedly involved in the report, and of any witnesses to the alleged incident. The juvenile officer or a law enforcement officer designated by the juvenile officer and the investigating school district personnel shall issue separate reports of their findings and recommendations after the conclusion of the investigation to the school board of the school district within seven days after receiving notice from the **children's** division [of family services]. The reports shall contain a statement of conclusion as to whether the report of alleged child abuse is substantiated or is unsubstantiated. The school board shall consider the separate reports and shall issue its findings and conclusions and the action to be taken, if any, within seven days after receiving the last of the two reports. The findings and conclusions shall be made in substantially the following form:

(1) The report of the alleged child abuse is unsubstantiated. The juvenile officer or a law enforcement officer designated by the juvenile officer and the investigating school board personnel agree that the evidence shows that no abuse occurred;

(2) The report of the alleged child abuse is substantiated. The juvenile officer or a law enforcement officer designated by the juvenile officer and the investigating school district personnel agree that the evidence is sufficient to support a finding that the alleged incident of child abuse did occur;

(3) The issue involved in the alleged incident of child abuse is unresolved. The juvenile officer or a law enforcement officer designated by the juvenile officer and the investigating school personnel are unable to agree on their findings and conclusions on the alleged incident.

11. The findings and conclusions of the school board shall be sent to the **children's** division [of family services]. If the findings and conclusions of the school board are that the report of the alleged child abuse is unsubstantiated, the investigation shall be terminated, the case closed, and no record shall be entered in the **children's** division [of family services'] central registry. If the findings and conclusions of the school board are that the report of the alleged child abuse is substantiated, the **children's** division [of family services] shall report the incident to the prosecuting attorney of the appropriate county along with the findings and conclusions of the school district and shall include the information in the division's central registry. If the findings and conclusions of the school board are that the issue involved in the alleged incident of child abuse is unresolved, the **children's** division [of family services] shall report the incident to the prosecuting attorney of the appropriate county along with the findings and conclusions of the school board, however, the incident and the names of the parties allegedly involved shall not be entered into the central registry of the **children's** division [of family services] unless and until the alleged child abuse is substantiated by a court of competent jurisdiction.

12. Any superintendent of schools, president of a school board or such person's designee or juvenile officer who knowingly falsifies any report of any matter pursuant to this section or who knowingly withholds any information relative to any investigation or report pursuant to this section is guilty of a class A misdemeanor.

13. In order to ensure the safety of all students, should a student be expelled for bringing a weapon to school, violent behavior, or for an act

of school violence, that student shall not, for the purposes of the accreditation process of the Missouri school improvement plan, be considered a dropout or be included in the calculation of that district's educational persistence ratio.

Affiliation status recognizes a relationship between the charter school and the college or university for purposes of teacher training and staff development, curriculum and assessment development, use of physical facilities owned by or rented on behalf of the college or university, and other similar purposes. The primary campus of the college or university must be located within the county in which the school district lies wherein the charter

Such amount shall not be withheld when the sponsor is a school district or the state board of education. The state board shall notify each sponsor of the standards for sponsorship of charter schools, delineating both what is mandated by statute and what best practices dictate. The state board, after a public hearing, may require remedial action for a sponsor that it finds has not fulfilled its obligations of sponsorship, such remedial actions including withholding the sponsor's funding and suspending for a period of up to one year the sponsor's authority to sponsor a school that it currently sponsors or to sponsor any additional school. If the state board removes the authority to sponsor a currently operating charter school, the state board shall become the interim sponsor of the school for a period of up to three years until the school finds a new sponsor or until the charter contract period lapses.

160.660. 1. On or before July 1, 2001, the state board of education shall add to any school facilities and safety criteria developed for the Missouri school improvement program provisions that require:

federal, state and local school violence prevention programs and resources available to students, teachers or staff in the district; and

(2) Each school district to fully utilize all such programs and resources that the local school board or its designee determines are necessary and cost-effective for the school district.

2. On or before July 1, 2009, the state board of education shall add to any school facilities and safety criteria developed for the Missouri school improvement program provisions that suggest that the drills required pursuant to the standard for safe facilities occur at least annually and require that all staff receive sufficient training on the security and crisis management plan to ensure familiarity with the plan details is maintained throughout the school year.

3. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. those phrases are defined in section 578.421, RSMo, and shall include related training for school district employees directly responsible for the education of students concerning violence prevention and early identification of and intervention in violent behavior. The state board of education shall adopt such program or programs by rule as approved for use in Missouri public schools. The program or programs of instruction shall encourage nonviolent conflict resolution of problems facing youth; present alternative constructive activities for the students; encourage community participation in program instruction, including but not limited to parents and law enforcement officials; and shall be administered as appropriate for different grade levels and shall not be offered for academic credit.

Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2007, shall be invalid and void.

Such increase shall be between three thousand dollars and five thousand dollars more than the starting salary for a teacher in the district, as determined by the district.

2. In order to attract and retain teachers who are willing to submit to assessment in exchange for agreed upon salary increases and modifications, any applicant for a teaching position at a school within the district or a teacher currently employed as such within the district may enter into an agreement with the district that sets forth the following:

the students at the end of the school year. Such assessments shall be in accordance with the assessments required by section 162.1159 and shall determine the grade level, in monthly increments, at which the student is proficient. At the conclusion of the academic year, the school district shall determine the average increase or decrease in the proficiency of the students taught by the teacher over the course of the academic year. For each month, in excess of twelve months, that the average grade level of the students has increased over the academic, the salary of the teacher for the upcoming academic year shall be increased by one thousand dollars.

(21) Sexual misconduct involving a child pursuant to section 566.083, RSMo; or

(22) Sexual abuse pursuant to section 566.100, RSMo.

2. The notification shall be made orally or in writing, in a timely manner, no later than five days following the filing of the petition. If the report is made orally, written notice shall follow in a timely manner. The notification shall include a complete description of the conduct the pupil is alleged to have committed and the dates the conduct occurred but shall not include the name of any victim. Upon the disposition of any such case, the juvenile office or prosecuting attorney or their designee shall send a second notification to the superintendent providing the disposition of the case, including a brief summary of the relevant finding of facts, no later than five days following the disposition of the case.

3. The superintendent or the designee of the superintendent shall report such information to **all** teachers **at the student's attendance center** and **to any** other school district employees with a need to know while acting within the scope of their assigned duties. Any information received by school district officials pursuant to this section shall be received in confidence and used for the limited purpose of assuring that good order and discipline is maintained in the school. This information shall not be used as the sole basis for not providing educational services to a public school pupil.

4. The superintendent shall notify the appropriate division of the juvenile or family court upon any pupil's suspension for more than ten days or expulsion of any pupil that the school district is aware is under the jurisdiction of the court.

5. The superintendent or the superintendent's designee may be called to serve in a consultant capacity at any dispositional proceedings pursuant

to section 211.031, RSMo, which may involve reference to a pupil's academic treatment plan.

6. Upon the transfer of any pupil described in this section to any other school district in this state, the superintendent or the superintendent's designee shall forward the written notification given to the superintendent pursuant to subsection 2 of this section to the superintendent of the new school district in which the pupil has enrolled. Such written notification shall be required again in the event of any subsequent transfer by the pupil.

7. As used in this section, the terms "school" and "school district" shall include any charter, private or parochial school or school district, and the term "superintendent" shall include the principal or equivalent chief school officer in the cases of charter, private or parochial schools.

8. The superintendent or the designee of the superintendent or other school employee who, in good faith, reports information in accordance with the terms of this section and section 160.261, RSMo, shall not be civilly liable for providing such information.

167.161. 1. The school board of any district, after notice to parents or others having custodial care and a hearing upon charges preferred, may suspend or expel a pupil for conduct which is prejudicial to good order and discipline in the schools or which tends to impair the morale or good conduct of the pupils. In addition to the authority granted in section 167.171, a school board may authorize, by general rule, the immediate removal of a pupil upon a finding by the principal, superintendent, or school board that the pupil poses a threat of harm to such pupil or others, as evidenced by the prior conduct of such pupil. Prior disciplinary actions shall not be used as the sole basis for removal, suspension or expulsion of a pupil. Removal of any pupil who is a student with a disability is subject to state and federal procedural rights. At the hearing upon any such removal, suspension or expulsion, the board shall consider the evidence and statements that the

parties present and may consider records of past disciplinary actions, criminal court records or juvenile court records consistent with other provisions of the law, or the actions of the pupil which would constitute a criminal offense. The board may provide by general rule not inconsistent with this section for the procedure and conduct of such hearings. After meeting with the superintendent or his designee to discuss the expulsion, the parent, custodian or the student, if at least eighteen years of age, may, in writing, waive any right to a hearing before the board of education.

2. The school board of any district, after notice to parents or others having custodial care and a hearing upon the matter, may suspend **or expel** a pupil upon a finding that the pupil has been charged, convicted or pled guilty in a court of general jurisdiction for the commission of a felony criminal violation of state or federal law. At a hearing required by this subsection, the board shall consider statements that the parties present. The board may provide for the procedure and conduct of such hearings.

3. The school board shall make a good-faith effort to have the parents or others having custodial care present at any such hearing. Notwithstanding any other provision of law to the contrary, student discipline hearings or proceedings related to the rights of students to attend school or to receive academic credit shall not be required to comply with the requirements applicable to contested case hearings as provided in chapter 536, RSMo, provided that appropriate due process procedures shall be observed which shall include the right for a trial de novo by the circuit court.

167.164. 1. Any suspension **or expulsion** issued [pursuant to] **by a public school district under** section 167.161[, or this section[, or expulsion pursuant to section 167.161.] shall not relieve the state or the suspended student's parents or guardians of their responsibilities to educate the student. School districts are encouraged to provide

an in-school suspension system and to search for other acceptable discipline alternatives prior to using suspensions of more than ten days or expelling a student from the school. Each school district or special school district constituting the domicile of any child for whom alternative education programs are provided or procured under this section shall pay toward the per pupil costs for alternative education programs for such child. A school district which is not a special school district shall pay an amount equal to the average sum produced per child by the local tax effort of the district of domicile. A special school district shall pay an amount not to exceed the average sum produced per child by the local tax efforts of the domiciliary districts. When educational services have been provided by the school district or special school district in which a child actually resides, other than the district of domicile, the amounts as provided in subsection 2 of this section for which the domiciliary school district or special school district is responsible shall be paid by such district directly to the serving district. The school district, or special school district, as the case may be, shall send a written voucher for payment to the regular or special district constituting the domicile of the child served and the domiciliary school district or special school district receiving such voucher shall pay the district providing or procuring the services an amount not to exceed the average sum produced per child by the local tax efforts of the domiciliary districts. In the event the responsible district fails to pay the appropriate amount to the district within ninety days after a voucher is submitted, the state department of elementary and secondary education shall deduct the appropriate amount due from the next payments of any state financial aid due that district and shall pay the same to the appropriate district.

2. A school district may contract with other political subdivisions, public agencies, not-for-profit organizations, or private agencies for the provision of alternative education services for students whose demonstrated disruptive behavior

indicates that they cannot be adequately served in the traditional classroom setting. Such contracting may be included as part of a grant application pursuant to section 167.335 or conducted independent of the provisions of section 167.335.

167.335. 1. The state board of education shall establish a program to award grants to school districts that apply for assistance in providing alternative educational opportunities for students whose demonstrated disruptive behavior indicates that they cannot be adequately served in the traditional classroom setting. The board shall solicit applications from school districts and shall make grants from funds appropriated for that purpose in such amounts and on such terms as it determines best encourages the development of alternative education programs throughout the state. The board shall give preference to applications that demonstrate a need for alternative education services and stress:

(1) A comprehensive, kindergarten through grade twelve approach to preventing problems that result in the need for alternative education services;

(2) Rigorous instruction in core academic disciplines;

(3) Activities designed to enable the student to better perform in the regular classroom and to transition students back to the regular classroom when merited by their performance;

(4) A student-centered approach whereby activities are designed to meet the particular needs of individual students; and

(5) Collaboration with existing community-based service providers, such as cooperative education programs, school to work programs, parents- as-teachers programs, programs developed by the department of economic development and programs developed by local service delivery agencies, and other governmental and private agencies to address student needs beyond those traditionally addressed by schools.

2. School districts may submit joint applications and are encouraged to pursue regional approaches to alternative education where warranted. Area vocational learning centers shall be eligible to submit applications and are encouraged to pursue grants to expand and enhance existing alternative education programs established pursuant to sections 167.320 to 167.332, provided that any additional activities are compatible with subdivisions (1) to (5) of subsection 1 of this section.

3. In selecting school districts for grant awards, the state board of education shall promulgate selection priority criteria that give preference to districts that meet any of the following criteria:

(1) Joint applications and regional approaches to school safety;

(2) Regular and timely meetings of education and social service and law enforcement personnel; or

(3) Use of techniques developed or promulgated by the Missouri Center for Safe Schools at the University of Missouri-Kansas City or other safe school methods recognized by the state board of education.

The state board of education shall develop a method to evaluate applications for preventative approaches and ensure that a portion of grant funds are awarded to districts that are not in crisis mode.

4. The state board of education shall adopt rules necessary to implement the grant program established pursuant to this section, provided that no rule or portion of a rule promulgated pursuant to this section shall become effective unless it has been promulgated pursuant to the provisions of section 536.024, RSMo.

167.621. 1. Persons providing health services under sections 167.600 to 167.621 shall obtain authorization from a parent or guardian of the child

before providing services as provided by section 431.061, RSMo.

2. No employee of any school district may be required to administer medication or medical services for which the employee is not qualified according to standard medical practices. No **unqualified** employee who refuses to [violate this provision] **administer medication or medical services** shall be subject to any disciplinary action for such refusal. Nothing herein shall be construed to prevent any employee from providing routine first aid, provided that any employee shall be held harmless **and immune** from any liability if such employee is following a proper procedure adopted by the local school board.

3. Any qualified employee shall be held harmless and immune from any civil liability for administering medication or medical services in good faith and according to standard medical practices.

167.624. Each school board in the state, if the school district does not presently have a program as described below, may develop and implement a program to train the students **and employees** of the district in the administration of cardiopulmonary resuscitation and other lifesaving methods, as they determine best, and may consult the department of public safety, the state fire marshal's office, the local fire protection authorities, and others as the board sees fit. The board may make completion of the program a requirement for graduation. **Any trained employee shall be held harmless and immune from any civil liability for administering cardiopulmonary resuscitation and other lifesaving methods in good faith and according to standard medical practices.**

167.627. 1. For purposes of this section, the following terms shall mean:

(1) "Medication", any medicine prescribed or ordered by a physician for the treatment of asthma or anaphylaxis, including without limitation inhaled bronchodilators and auto-injectible

epinephrine;

(2) "Self-administration", a pupil's discretionary use of medication prescribed by a physician or under a written treatment plan from a physician.

2. Each board of education and its employees and agents in this state shall grant any pupil in the school authorization for the possession and self-administration of medication to treat such pupil's **chronic health condition, including but not limited to** asthma or anaphylaxis if:

(1) A licensed physician prescribed or ordered such medication for use by the pupil and instructed such pupil in the correct and responsible use of such medication;

(2) The pupil has demonstrated to the pupil's licensed physician or the licensed physician's designee, and the school nurse, if available, the skill level necessary to use the medication and any device necessary to administer such medication prescribed or ordered;

(3) The pupil's physician has approved and signed a written treatment plan for managing **the pupil's chronic health condition, including** asthma or anaphylaxis episodes [of the pupil] and for medication for use by the pupil. Such plan shall include a statement that the pupil is capable of self-administering the medication under the treatment plan;

(4) The pupil's parent or guardian has completed and submitted to the school any written documentation required by the school, including the treatment plan required under subdivision (3) of this subsection and the liability statement required under subdivision (5) of this subsection; and

(5) The pupil's parent or guardian has signed a statement acknowledging that the school district and its employees or agents shall incur no liability as a result of any injury arising from the self-administration of medication by the pupil or the administration of such medication by school

staff. Such statement shall not be construed to release the school district and its employees or agents from liability for negligence.

3. An authorization granted under subsection 2 of this section shall:

(1) Permit such pupil to possess and self-administer such pupil's medication while in school, at a school-sponsored activity, and in transit to or from school or school-sponsored activity; and

(2) Be effective only for the same school and school year for which it is granted. Such authorization shall be renewed by the pupil's parent or guardian each subsequent school year in accordance with this section.

4. Any current duplicate prescription medication, if provided by a pupil's parent or guardian or by the school, shall be kept at a pupil's school in a location at which the pupil or school staff has immediate access in the event of an asthma or anaphylaxis emergency.

5. The information described in subdivisions (3) and (4) of subsection 2 of this section shall be kept on file at the pupil's school in a location easily accessible in the event of an [asthma or anaphylaxis] emergency.

167.630. 1. Each school board may authorize a school nurse licensed under chapter 335, RSMo, who is employed by the school district and for whom the board is responsible for to maintain an adequate supply of prefilled auto syringes of epinephrine with fifteen-hundredths milligram or three-tenths milligram delivery at the school. The nurse shall recommend to the school board the number of prefilled epinephrine auto syringes that the school should maintain.

2. To obtain prefilled epinephrine auto syringes for a school district, a prescription written by a licensed physician, a physician's assistant, or nurse practitioner is required. For such prescriptions, the school district shall be designated as the patient, the nurse's name shall be

required, and the prescription shall be filled at a licensed pharmacy.

3. A school nurse **or other school employee trained by and supervised by the nurse** shall have the discretion to use an epinephrine auto syringe on any student the school nurse **or trained employee** believes is having a life-threatening anaphylactic reaction based on the [nurse's] training in recognizing an acute episode of an anaphylactic reaction.

168.133. 1. The school district shall ensure that a criminal background check is conducted on any person employed after January 1, 2005, authorized to have contact with pupils and prior to the individual having contact with any pupil. Such persons include, but are not limited to, administrators, teachers, aides, paraprofessionals, assistants, secretaries, custodians, cooks, and nurses. The school district shall also ensure that a criminal background check is conducted for school bus drivers. The district may allow such drivers to operate buses pending the result of the criminal background check. For bus drivers, the background check shall be conducted on drivers employed by the school district or employed by a pupil transportation company under contract with the school district.

2. In order to facilitate the criminal history background check on any person employed after January 1, 2005, the applicant shall submit two sets of fingerprints collected pursuant to standards determined by the Missouri highway patrol. One set of fingerprints shall be used by the highway patrol to search the criminal history repository and the family care safety registry pursuant to sections 210.900 to 210.936, RSMo, and the second set shall be forwarded to the Federal Bureau of Investigation for searching the federal criminal history files.

3. The applicant shall pay the fee for the state criminal history record information pursuant to section 43.530, RSMo, and sections 210.900 to 210.936, RSMo, and pay the appropriate fee

determined by the Federal Bureau of Investigation for the federal criminal history record when he or she applies for a position authorized to have contact with pupils pursuant to this section. The department shall distribute the fees collected for the state and federal criminal histories to the Missouri highway patrol.

4. The school district may adopt a policy to provide for reimbursement of expenses incurred by an employee for state and federal criminal history information pursuant to section 43.530, RSMo.

5. If, as a result of the criminal history background check mandated by this section, it is determined that the holder of a certificate issued pursuant to section 168.021 has pled guilty or nolo contendere to, or been found guilty of a crime or offense listed in section 168.071, or a similar crime or offense committed in another state, the United States, or any other country, regardless of imposition of sentence, such information shall be reported to the department of elementary and secondary education.

6. Any school official making a report to the department of elementary and secondary education in conformity with this section shall not be subject to civil liability for such action.

7. For any teacher who is employed by a school district on a substitute or part-time basis within one year of such teacher's retirement from a Missouri school, the state of Missouri shall not require such teacher to be subject to any additional background checks prior to having contact with pupils. Nothing in this subsection shall be construed as prohibiting or otherwise restricting a school district from requiring additional background checks for such teachers employed by the school district.

8. **A criminal background check and fingerprint collection conducted under subsections 1 and 2 of this section shall be valid for a period of one year and transferrable from one school district to another district. A**

teacher's change in type of certification shall have no effect on the transferability of such records.

9. Nothing in this section shall be construed to alter the standards for suspension, denial, or revocation of a certificate issued pursuant to this chapter.

[9.] 10. The state board of education may promulgate rules for criminal history background checks made pursuant to this section. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date, or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after January 1, 2005, shall be invalid and void.

168.350. 1. The department of elementary and secondary education shall develop standards for high-quality mentoring for beginning teachers and beginning principals no later than June 30, 2008. The standards shall be applicable to all public schools.

2. Such standards shall be established for both of the required years of mentoring under subsection 3 of section 168.021 and shall be based upon, but not be limited to, the following principles:

(2) Guidance and support are required for all beginning teachers, regardless of when they enter the profession;

(3) Communication between mentors and

The retirement allowance of a member whose age at retirement is sixty years or more and whose creditable service is five years or more, or whose sum of age and creditable service equals eighty years or more, or who has attained age fifty-five and whose creditable service is twenty-five years or more or whose creditable

service is thirty years or more regardless of age, may be the sum of the following items, not to exceed one hundred percent of the member's final average salary:

(1) Two and five-tenths percent of the member's final average salary for each year of membership service;

(2) Six-tenths of the amount payable for a year of membership service for each year of prior service not exceeding thirty years.

In lieu of the retirement allowance otherwise provided in subdivisions (1) and (2) of this subsection, a member may elect to receive a retirement allowance of:

(3) Between July 1, 1998, and July 1, [2008] **2013**, two and four-tenths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-nine years or more but less than thirty years, and the member has not attained age fifty-five;

(4) Between July 1, 1998, and July 1, [2008] **2013**, two and thirty-five-hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-eight years or more but less than twenty-nine years, and the member has not attained age fifty-five;

(5) Between July 1, 1998, and July 1, [2008] **2013**, two and three-tenths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-seven years or more but less than twenty-eight years, and the member has not attained age fifty-five;

(6) Between July 1, 1998, and July 1, [2008] **2013**, two and twenty-five-hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-six years or more but less than twenty-seven years, and the member has not attained age fifty-five;

(7) Between July 1, 1998, and July 1, [2008] **2013**, two and two-tenths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-five years or more but less than twenty-six years, and the member has not attained age fifty-five;

(8) Between July 1, 2001, and July 1, [2008] **2013**, two and fifty-five hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is thirty-one years or more regardless of age.

2. In lieu of the retirement allowance provided in subsection 1 of this section, a member whose age is sixty years or more on September 28, 1975, may elect to have the member's retirement allowance calculated as a sum of the following items:

(1) Sixty cents plus one and five-tenths percent of the member's final average salary for each year of membership service;

(2) Six-tenths of the amount payable for a year of membership service for each year of prior service not exceeding thirty years;

(3) Three-fourths of one percent of the sum of subdivisions (1) and (2) of this subsection for each month of attained age in excess of sixty years but not in excess of age sixty-five.

3. (1) In lieu of the retirement allowance provided either in subsection 1 or 2 of this section, collectively called "option 1", a member whose creditable service is twenty-five years or more or who has attained the age of fifty-five with five or more years of creditable service may elect in the member's application for retirement to receive the actuarial equivalent of the member's retirement allowance in reduced monthly payments for life during retirement with the provision that:

Option 2. Upon the member's death the reduced retirement allowance shall be continued throughout the life of and paid to such person as

has an insurable interest in the life of the member as the member shall have nominated in the member's election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance will be increased to the amount the retired member would be receiving had the retired member elected option 1;

OR

Option 3. Upon the death of the member three-fourths of the reduced retirement allowance shall be continued throughout the life of and paid to such person as has an insurable interest in the life of the member and as the member shall have nominated in an election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance will be increased to the amount the retired member would be receiving had the member elected option 1;

OR

Option 4. Upon the death of the member one-half of the reduced retirement allowance shall be continued throughout the life of, and paid to, such person as has an insurable interest in the life of the member and as the member shall have nominated in an election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance shall be increased to the amount the retired member would be receiving had the member elected option 1;

OR

Option 5. Upon the death of the member prior to the member having received one hundred twenty monthly payments of the member's reduced allowance, the remainder of the one hundred twenty monthly payments of the reduced allowance shall be paid to such beneficiary as the member shall have nominated in the member's election of the option or in a subsequent nomination. If there is no beneficiary so nominated

who survives the member for the remainder of the one hundred twenty monthly payments, the total of the remainder of such one hundred twenty monthly payments shall be paid to the estate of the last person to receive a monthly allowance. If the total of the one hundred twenty payments paid to the retired individual and the beneficiary of the retired individual is less than the total of the member's accumulated contributions, the difference shall be paid to the beneficiary in a lump sum;

OR

Option 6. Upon the death of the member prior to the member having received sixty monthly payments of the member's reduced allowance, the remainder of the sixty monthly payments of the reduced allowance shall be paid to such beneficiary as the member shall have nominated in the member's election of the option or in a subsequent nomination. If there is no beneficiary so nominated who survives the member for the remainder of the sixty monthly payments, the total of the remainder of such sixty monthly payments shall be paid to the estate of the last person to receive a monthly allowance. If the total of the sixty payments paid to the retired individual and the beneficiary of the retired individual is less than the total of the member's accumulated contributions, the difference shall be paid to the beneficiary in a lump sum.

(2) The election of an option may be made only in the application for retirement and such application must be filed prior to the date on which the retirement of the member is to be effective. If either the member or the person nominated to receive the survivorship payments dies before the effective date of retirement, the option shall not be effective, provided that:

(a) If the member or a person retired on disability retirement dies after acquiring twenty-five or more years of creditable service or after attaining the age of fifty-five years and acquiring five or more years of creditable service and before retirement, except retirement with

disability benefits, and the person named by the member as the member's beneficiary has an insurable interest in the life of the deceased member, the designated beneficiary may elect to receive either survivorship benefits under option 2 or a payment of the accumulated contributions of the member. If survivorship benefits under option 2 are elected and the member at the time of death would have been eligible to receive an actuarial equivalent of the member's retirement allowance, the designated beneficiary may further elect to defer the option 2 payments until the date the member would have been eligible to receive the retirement allowance provided in subsection 1 or 2 of this section;

(b) If the member or a person retired on disability retirement dies before attaining age fifty-five but after acquiring five but fewer than twenty-five years of creditable service, and the person named as the member's beneficiary has an insurable interest in the life of the deceased member, the designated beneficiary may elect to receive either a payment of the member's accumulated contributions, or survivorship benefits under option 2 to begin on the date the member would first have been eligible to receive an actuarial equivalent of the member's retirement allowance, or to begin on the date the member would first have been eligible to receive the retirement allowance provided in subsection 1 or 2 of this section.

4. If the total of the retirement or disability allowance paid to an individual before the death of the individual is less than the accumulated contributions at the time of retirement, the difference shall be paid to the beneficiary of the individual, or to the (1) surviving spouse, (2) surviving children in equal shares, (3) surviving parents in equal shares, or (4) estate of the individual in that order of precedence. If an optional benefit as provided in option 2, 3 or 4 in subsection 3 of this section had been elected, and the beneficiary dies after receiving the optional benefit, and if the total retirement allowance paid

to the retired individual and the beneficiary of the retired individual is less than the total of the contributions, the difference shall be paid to the (1) surviving spouse, (2) surviving children in equal shares, (3) surviving parents in equal shares, or (4) estate of the beneficiary, in that order of precedence, unless the retired individual designates a different recipient with the board at or after retirement.

5. If a member dies before receiving a retirement allowance, the member's accumulated contributions at the time of the death of the member shall be paid to the beneficiary of the member or, if there is no beneficiary, to the (1) surviving spouse, (2) surviving children in equal shares, (3) surviving parents in equal shares, or (4) to the estate of the member in that order of precedence; except that, no such payment shall be made if the beneficiary elects option 2 in subsection 3 of this section, unless the beneficiary dies before having received benefits pursuant to that subsection equal to the accumulated contributions of the member, in which case the amount of accumulated contributions in excess of the total benefits paid pursuant to that subsection shall be paid to the (1) surviving spouse, (2) surviving children in equal shares, (3) surviving parents in equal shares, or (4) estate of the beneficiary, in that order of precedence.

6. If a member ceases to be a public school employee as herein defined and certifies to the board of trustees that such cessation is permanent, or if the membership of the person is otherwise terminated, the member shall be paid the member's accumulated contributions with interest.

7. Notwithstanding any provisions of sections 169.010 to 169.141 to the contrary, if a member ceases to be a public school employee after acquiring five or more years of membership service in Missouri, the member may at the option of the member leave the member's contributions with the retirement system and claim a retirement allowance any time after reaching the minimum

age for voluntary retirement. When the member's claim is presented to the board, the member shall be granted an allowance as provided in sections 169.010 to 169.141 on the basis of the member's age, years of service, and the provisions of the law in effect at the time the member requests the member's retirement to become effective.

8. The retirement allowance of a member retired because of disability shall be nine-tenths of the allowance to which the member's creditable service would entitle the member if the member's age were sixty, or fifty percent of one-twelfth of the annual salary rate used in determining the member's contributions during the last school year for which the member received a year of creditable service immediately prior to the member's disability, whichever is greater, except that no such allowance shall exceed the retirement allowance to which the member would have been entitled upon retirement at age sixty if the member had continued to teach from the date of disability until age sixty at the same salary rate.

9. Notwithstanding any provisions of sections 169.010 to 169.141 to the contrary, from October 13, 1961, the contribution rate pursuant to sections 169.010 to 169.141 shall be multiplied by the factor of two-thirds for any member of the system for whom federal Old Age and Survivors Insurance tax is paid from state or local tax funds on account of the member's employment entitling the person to membership in the system. The monetary benefits for a member who elected not to exercise an option to pay into the system a retroactive contribution of four percent on that part of the member's annual salary rate which was in excess of four thousand eight hundred dollars but not in excess of eight thousand four hundred dollars for each year of employment in a position covered by this system between July 1, 1957, and July 1, 1961, as provided in subsection 10 of this section as it appears in RSMo, 1969, shall be the sum of:

(1) For years of service prior to July 1, 1946, six-tenths of the full amount payable for years of

membership service;

(2) For years of membership service after July 1, 1946, in which the full contribution rate was paid, full benefits under the formula in effect at the time of the member's retirement;

(3) For years of membership service after July 1, 1957, and prior to July 1, 1961, the benefits provided in this section as it appears in RSMo, 1959; except that if the member has at least thirty years of creditable service at retirement the member shall receive the benefit payable pursuant to that section as though the member's age were sixty-five at retirement;

(4) For years of membership service after July 1, 1961, in which the two-thirds contribution rate was paid, two-thirds of the benefits under the formula in effect at the time of the member's retirement.

10. The monetary benefits for each other member for whom federal Old Age and Survivors Insurance tax is or was paid at any time from state or local funds on account of the member's employment entitling the member to membership in the system shall be the sum of:

(1) For years of service prior to July 1, 1946, six-tenths of the full amount payable for years of membership service;

(2) For years of membership service after July 1, 1946, in which the full contribution rate was paid, full benefits under the formula in effect at the time of the member's retirement;

(3) For years of membership service after July 1, 1957, in which the two-thirds contribution rate was paid, two-thirds of the benefits under the formula in effect at the time of the member's retirement.

11. Any retired member of the system who was retired prior to September 1, 1972, or beneficiary receiving payments under option 1 or option 2 of subsection 3 of this section, as such option existed prior to September 1, 1972, will be

eligible to receive an increase in the retirement allowance of the member of two percent for each year, or major fraction of more than one-half of a year, which the retired member has been retired prior to July 1, 1975. This increased amount shall be payable commencing with January, 1976, and shall thereafter be referred to as the member's retirement allowance. The increase provided for in this subsection shall not affect the retired member's eligibility for compensation provided for in section 169.580 or 169.585, nor shall the amount being paid pursuant to these sections be reduced because of any increases provided for in this section.

12. If the board of trustees determines that the cost of living, as measured by generally accepted standards, increases two percent or more in the preceding fiscal year, the board shall increase the retirement allowances which the retired members or beneficiaries are receiving by two percent of the amount being received by the retired member or the beneficiary at the time the annual increase is granted by the board with the provision that the increases provided for in this subsection shall not become effective until the fourth January first following the member's retirement or January 1, 1977, whichever later occurs, or in the case of any member retiring on or after July 1, 2000, the increase provided for in this subsection shall not become effective until the third January first following the member's retirement, or in the case of any member retiring on or after July 1, 2001, the increase provided for in this subsection shall not become effective until the second January first following the member's retirement. Commencing with January 1, 1992, if the board of trustees determines that the cost of living has increased five percent or more in the preceding fiscal year, the board shall increase the retirement allowances by five percent. The total of the increases granted to a retired member or the beneficiary after December 31, 1976, may not exceed eighty percent of the retirement allowance established at retirement or as previously adjusted by other subsections. If the cost of living increases less than five percent, the

board of trustees may determine the percentage of increase to be made in retirement allowances, but at no time can the increase exceed five percent per year. If the cost of living decreases in a fiscal year, there will be no increase in allowances for retired members on the following January first.

13. The board of trustees may reduce the amounts which have been granted as increases to a member pursuant to subsection 12 of this section if the cost of living, as determined by the board and as measured by generally accepted standards, is less than the cost of living was at the time of the first increase granted to the member; except that, the reductions shall not exceed the amount of increases which have been made to the member's allowance after December 31, 1976.

14. Any application for retirement shall include a sworn statement by the member certifying that the spouse of the member at the time the application was completed was aware of the application and the plan of retirement elected in the application.

15. Notwithstanding any other provision of law, any person retired prior to September 28, 1983, who is receiving a reduced retirement allowance under option 1 or option 2 of subsection 3 of this section, as such option existed prior to September 28, 1983, and whose beneficiary nominated to receive continued retirement allowance payments under the elected option dies or has died, shall upon application to the board of trustees have his or her retirement allowance increased to the amount he or she would have been receiving had the option not been elected, actuarially adjusted to recognize any excessive benefits which would have been paid to him or her up to the time of application.

16. Benefits paid pursuant to the provisions of the public school retirement system of Missouri shall not exceed the limitations of Section 415 of Title 26 of the United States Code except as provided pursuant to this subsection. Notwithstanding any other law to the contrary, the

board of trustees may establish a benefit plan pursuant to Section 415(m) of Title 26 of the United States Code. Such plan shall be created solely for the purpose described in Section 415(m)(3)(A) of Title 26 of the United States Code. The board of trustees may promulgate regulations necessary to implement the provisions of this subsection and to create and administer such benefit plan.

17. Notwithstanding any other provision of law to the contrary, any person retired before, on, or after May 26, 1994, shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging, and upon request shall give written or oral opinions to the board in response to such requests. As compensation for such duties the person shall receive an amount based on the person's years of service so that the total amount received pursuant to sections 169.010 to 169.141 shall be at least the minimum amounts specified in subdivisions (1) to (4) of this subsection. In determining the minimum amount to be received, the amounts in subdivisions (3) and (4) of this subsection shall be adjusted in accordance with the actuarial adjustment, if any, that was applied to the person's retirement allowance. In determining the minimum amount to be received, beginning September 1, 1996, the amounts in subdivisions (1) and (2) of this subsection shall be adjusted in accordance with the actuarial adjustment, if any, that was applied to the person's retirement allowance due to election of an optional form of retirement having a continued monthly payment after the person's death. Notwithstanding any other provision of law to the contrary, no person retired before, on, or after May 26, 1994, and no beneficiary of such a person, shall receive a retirement benefit pursuant to sections 169.010 to 169.141 based on the person's years of service less than the following amounts:

(1) Thirty or more years of service, one thousand two hundred dollars;

(2) At least twenty-five years but less than thirty years, one thousand dollars;

(3) At least twenty years but less than twenty-five years, eight hundred dollars;

(4) At least fifteen years but less than twenty years, six hundred dollars.

18. Notwithstanding any other provisions of law to the contrary, any person retired prior to May 26, 1994, and any designated beneficiary of such a retired member who was deceased prior to July 1, 1999, shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement or aging and upon request shall give written or oral opinions to the board in response to such requests. Beginning September 1, 1996, as compensation for such service, the member shall have added, pursuant to this subsection, to the member's monthly annuity as provided by this section a dollar amount equal to the lesser of sixty dollars or the product of two dollars multiplied by the member's number of years of creditable service. Beginning September 1, 1999, the designated beneficiary of the deceased member shall as compensation for such service have added, pursuant to this subsection, to the monthly annuity as provided by this section a dollar amount equal to the lesser of sixty dollars or the product of two dollars multiplied by the member's number of years of creditable service. The total compensation provided by this section including the compensation provided by this subsection shall be used in calculating any future cost-of-living adjustments provided by subsection 12 of this section.

19. Any member who has retired prior to July 1, 1998, and the designated beneficiary of a deceased retired member shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging, and upon request shall give written or oral opinions to the board in response to such requests. As compensation for such duties the person shall receive a payment equivalent to eight

and seven-tenths percent of the previous month's benefit, which shall be added to the member's or beneficiary's monthly annuity and which shall not be subject to the provisions of subsections 12 and 13 of this section for the purposes of the limit on the total amount of increases which may be received.

20. Any member who has retired shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging, and upon request shall give written or oral opinions to the board in response to such request. As compensation for such duties, the beneficiary of the retired member, or, if there is no beneficiary, the (1) surviving spouse, (2) surviving children in equal shares, (3) surviving parents in equal shares, or (4) estate of the retired member, in that order of precedence, shall receive as a part of compensation for these duties a death benefit of five thousand dollars.

21. Any member who has retired prior to July 1, 1999, and the designated beneficiary of a retired member who was deceased prior to July 1, 1999, shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging, and upon request shall give written or oral opinions to the board in response to such requests. As compensation for such duties, the person shall have added, pursuant to this subsection, to the monthly annuity as provided by this section a dollar amount equal to five dollars times the member's number of years of creditable service.

22. Any member who has retired prior to July 1, 2000, and the designated beneficiary of a deceased retired member shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging, and upon request shall give written or oral opinions to the board in response to such requests. As compensation for such duties, the person shall receive a payment equivalent to three and five-tenths percent of the previous

month's benefit, which shall be added to the member or beneficiary's monthly annuity and which shall not be subject to the provisions of subsections 12 and 13 of this section for the purposes of the limit on the total amount of increases which may be received.

23. Any member who has retired prior to July 1, 2001, and the designated beneficiary of a deceased retired member shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging, and upon request shall give written or oral opinions to the board in response to such requests. As compensation for such duties, the person shall receive a dollar amount equal to three dollars times the member's number of years of creditable service, which shall be added to the member's or beneficiary's monthly annuity and which shall not be subject to the provisions of subsections 12 and 13 of this section for the purposes of the limit on the total amount of increases which may be received.

169.466. 1. Any retired member with fifteen or more years of creditable service at retirement receiving [a pension] **retirement benefits** on August 28, 1997, shall receive on January first of each year, commencing on January 1, 1998, an increase in the amount of [pension] **benefits** received by the retired member pursuant to sections 169.410 to 169.540 during the preceding year of one hundred percent of the increase in the consumer price index calculated in the manner provided in this section; except that, no such increase in [pension] **retirement** benefits shall be paid for any year if such increase in the consumer price index is less than one percent. Such annual [pension] **retirement benefit** increase, however, shall not exceed three percent [and the total increases in the amount of pension benefits received by any retired member shall not, in the aggregate, exceed ten percent of the pension benefits such retired member received during the year preceding January first of the first year the retired member is entitled to receive an increase

pursuant to this section]. A retired member qualified to receive an annual [pension] **retirement benefit** increase pursuant to this section shall not be eligible to receive an additional benefit until the January first after the first anniversary of the date on which he or she commenced receiving [a pension] **retirement benefits** pursuant to sections 169.410 to 169.540. Benefits shall not be decreased in the case of a decrease in the consumer price index for any year.

2. For the purpose of this section, any increase in the consumer price index shall be determined by the board of trustees in November of each year based on the consumer price index for the twelve-month period ended on September thirtieth of such year over the consumer price index for the twelve-month period ended on September thirtieth of the year immediately prior thereto. Any increase so determined shall be applied by the board of trustees in calculating increases in [pension] **retirement** benefits that become payable pursuant to this section for the twelve-month period beginning on the January first immediately following such determination.

3. An annual increase in [pension] **retirement** benefits, if any, shall be payable monthly with monthly installments of other [pension] **retirement** benefits pursuant to sections 169.410 to 169.540.

169.471. 1. The board of education is authorized from time to time, in its discretion, to increase the [pension] **retirement** benefits now or hereafter provided pursuant to sections 169.410 to 169.540 and to adopt and implement additional [pension] **retirement** benefits and plans, including without limitation, early retirement plans, deferred retirement option plans and cost-of-living adjustments, but excluding compensation to retired members pursuant to section 169.475, and for such purpose the contribution rate of members of the retirement system may be increased to provide part of the cost thereof, subject to the following conditions:

(1) Any such increase in [pension] **retirement** benefits and additional [pension] **retirement** benefits and plans shall be approved by the board of trustees;

(2) The board of trustees shall have presented to the board of education the projected increases in rates of contribution which will be required to be made by members and the board of education to the retirement system to pay the cost of such increases in [pension] **retirement** benefits and additional [pension] **retirement** benefits and plans; and

(3) Any increase in the contribution rate of members of the retirement system shall be approved by the board of trustees and shall be deducted from the compensation of each member by the employing board and transferred and credited to the individual account of each member from whose compensation the deduction was made, and shall be administered in accordance with sections 169.410 to 169.540; provided that, any such increase in the members' contribution rate shall not exceed one-half of one percent of compensation in any year for such increases to [pension] **retirement** benefits and additional [pension] **retirement** benefits and plans adopted during such year by the board of education pursuant to this section, and all such increases in the members' contribution rate shall, in the aggregate, not exceed two percent of compensation.

2. The board of trustees is authorized from time to time, in its discretion, to increase the retirement benefits, now or hereinafter provided under sections 169.410 to 169.540, and to adopt and implement additional retirement benefits for persons who have retired, including cost-of-living adjustments, provided that the board of trustees finds the additional benefit will not require an increase in the contribution rate required by the members, will not increase the contribution required from the board of education, and is actuarially sound. In the event

the board of trustees authorizes an increase under this section, it shall certify in writing to the board of education the findings, including but not limited to all actuarial assumptions, upon which the board of trustees determined that the increase in benefits would result in no increase in contributions by members or the board of education.

169.670. 1. The retirement allowance of a member whose age at retirement is sixty years or more and whose creditable service is five years or more, or whose sum of age and creditable service equals eighty years or more, or whose creditable service is thirty years or more regardless of age, shall be the sum of the following items:

(1) For each year of membership service, one and sixty-one hundredths percent of the member's final average salary;

(2) Six-tenths of the amount payable for a year of membership service for each year of prior service;

(3) Eighty-five one-hundredths of one percent of any amount by which the member's average compensation for services rendered prior to July 1, 1973, exceeds the average monthly compensation on which federal Social Security taxes were paid during the period over which such average compensation was computed, for each year of membership service credit for services rendered prior to July 1, 1973, plus six-tenths of the amount payable for a year of membership service for each year of prior service credit;

(4) In lieu of the retirement allowance otherwise provided by subdivisions (1) to (3) of this subsection, between July 1, 2001, and July 1, [2008] **2013**, a member may elect to receive a retirement allowance of:

(a) One and fifty-nine hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-nine years or more but less than thirty years and the member has not attained the

age of fifty-five;

(b) One and fifty-seven hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-eight years or more but less than twenty-nine years, and the member has not attained the age of fifty-five;

(c) One and fifty-five hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-seven years or more but less than twenty-eight years and the member has not attained the age of fifty-five;

(d) One and fifty-three hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-six years or more but less than twenty-seven years and the member has not attained the age of fifty-five;

(e) One and fifty-one hundredths percent of the member's final average salary for each year of membership service, if the member's creditable service is twenty-five years or more but less than twenty-six years and the member has not attained the age of fifty-five; and

(5) In addition to the retirement allowance provided in subdivisions (1) to (3) of this subsection, a member retiring on or after July 1, 2001, whose creditable service is thirty years or more or whose sum of age and creditable service is eighty years or more, shall receive a temporary retirement allowance equivalent to eight-tenths of one percent of the member's final average salary multiplied by the member's years of service until such time as the member reaches the minimum age for Social Security retirement benefits.

2. If the board of trustees determines that the cost of living, as measured by generally accepted standards, increases five percent or more in the preceding fiscal year, the board shall increase the retirement allowances which the retired members or beneficiaries are receiving by five percent of the

amount being received by the retired member or the beneficiary at the time the annual increase is granted by the board; provided that, the increase provided in this subsection shall not become effective until the fourth January first following a member's retirement or January 1, 1982, whichever occurs later, and the total of the increases granted to a retired member or the beneficiary after December 31, 1981, may not exceed eighty percent of the retirement allowance established at retirement or as previously adjusted by other provisions of law. If the cost of living increases less than five percent, the board of trustees may determine the percentage of increase to be made in retirement allowances, but at no time can the increase exceed five percent per year. If the cost of living decreases in a fiscal year, there will be no increase in allowances for retired members on the following January first.

3. The board of trustees may reduce the amounts which have been granted as increases to a member pursuant to subsection 2 of this section if the cost of living, as determined by the board and as measured by generally accepted standards, is less than the cost of living was at the time of the first increase granted to the member; provided that, the reductions shall not exceed the amount of increases which have been made to the member's allowance after December 31, 1981.

4. (1) In lieu of the retirement allowance provided in subsection 1 of this section, called "option 1", a member whose creditable service is twenty-five years or more or who has attained age fifty-five with five or more years of creditable service may elect, in the application for retirement, to receive the actuarial equivalent of the member's retirement allowance in reduced monthly payments for life during retirement with the provision that:

Option 2. Upon the member's death, the reduced retirement allowance shall be continued throughout the life of and paid to such person as has an insurable interest in the life of the member as the member shall have nominated in the

member's election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance will be increased to the amount the retired member would be receiving had the member elected option 1;

OR

Option 3. Upon the death of the member three-fourths of the reduced retirement allowance shall be continued throughout the life of and paid to such person as has an insurable interest in the life of the member and as the member shall have nominated in an election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance will be increased to the amount the retired member would be receiving had the member elected option 1;

OR

Option 4. Upon the death of the member one-half of the reduced retirement allowance shall be continued throughout the life of, and paid to, such person as has an insurable interest in the life of the member and as the member shall have nominated in an election of the option, and provided further that if the person so nominated dies before the retired member, the retirement allowance shall be increased to the amount the retired member would be receiving had the member elected option 1;

OR

Option 5. Upon the death of the member prior to the member having received one hundred twenty monthly payments of the member's reduced allowance, the remainder of the one hundred twenty monthly payments of the reduced allowance shall be paid to such beneficiary as the member shall have nominated in the member's election of the option or in a subsequent nomination. If there is no beneficiary so nominated who survives the member for the remainder of the one hundred twenty monthly payments, the reserve

for the remainder of such one hundred twenty monthly payments shall be paid to the estate of the last person to receive a monthly allowance. If the total of the one hundred twenty payments paid to the retired individual and the beneficiary of the retired individual is less than the total of the member's accumulated contributions, the difference shall be paid to the beneficiary in a lump sum;

OR

Option 6. Upon the death of the member prior to the member having received sixty monthly payments of the member's reduced allowance, the remainder of the sixty monthly payments of the reduced allowance shall be paid to such beneficiary as the member shall have nominated in the member's election of the option or in a subsequent nomination. If there is no beneficiary so nominated who survives the member for the remainder of the sixty monthly payments, the reserve for the remainder of such sixty monthly payments shall be paid to the estate of the last person to receive a monthly allowance. If the total of the sixty payments paid to the retired individual and the beneficiary of the retired individual is less than the total of the member's accumulated contributions, the difference shall be paid to the beneficiary in a lump sum;

OR

Option 7. A plan of variable monthly benefit payments which provides, in conjunction with the member's retirement benefits under the federal Social Security laws, level or near-level retirement benefit payments to the member for life during retirement, and if authorized, to an appropriate beneficiary designated by the member. Such a plan shall be actuarially equivalent to the retirement allowance under option 1 and shall be available for election only if established by the board of trustees under duly adopted rules.

(2) The election of an option may be made only in the application for retirement and such

application must be filed prior to the date on which the retirement of the member is to be effective. If either the member or the person nominated dies before the effective date of retirement, the option shall not be effective, provided that:

(a) If the member or a person retired on disability retirement dies after attaining age fifty-five and acquiring five or more years of creditable service or after acquiring twenty-five or more years of creditable service and before retirement, except retirement with disability benefits, and the person named by the member as the member's beneficiary has an insurable interest in the life of the deceased member, the designated beneficiary may elect to receive either survivorship payments under option 2 or a payment of the member's accumulated contributions. If survivorship benefits under option 2 are elected and the member at the time of death would have been eligible to receive an actuarial equivalent of the member's retirement allowance, the designated beneficiary may further elect to defer the option 2 payments until the date the member would have been eligible to receive the retirement allowance provided in subsection 1 of this section.

(b) If the member or a person retired on disability retirement dies before attaining age fifty-five but after acquiring five but fewer than twenty-five years of creditable service, and the person named as the beneficiary has an insurable interest in the life of the deceased member or disability retiree, the designated beneficiary may elect to receive either a payment of the person's accumulated contributions, or survivorship benefits under option 2 to begin on the date the member would first have been eligible to receive an actuarial equivalent of the person's retirement allowance, or to begin on the date the member would first have been eligible to receive the retirement allowance provided in subsection 1 of this section.

5. If the total of the retirement or disability allowances paid to an individual before the

person's death is less than the person's accumulated contributions at the time of the person's retirement, the difference shall be paid to the person's beneficiary or, if there is no beneficiary, to the (1) surviving spouse, (2) surviving children in equal shares, (3) surviving parents in equal shares, or (4) person's estate in that order of precedence; provided, however, that if an optional benefit, as provided in option 2, 3 or 4 in subsection 4, had been elected and the beneficiary dies after receiving the optional benefit, then, if the total retirement allowances paid to the retired individual and the individual's beneficiary are less than the total of the contributions, the difference shall be paid to the (1) surviving spouse, (2) surviving children in equal shares, (3) surviving parents in equal shares, or (4) estate of the beneficiary, in that order of precedence, unless the retired individual designates a different recipient with the board at or after retirement.

6. If a member dies before receiving a retirement allowance, the member's accumulated contributions at the time of the member's death shall be paid to the member's beneficiary or, if there is no beneficiary, to the (1) surviving spouse, (2) surviving children in equal shares, (3) surviving parents in equal shares, or (4) to the member's estate; provided, however, that no such payment shall be made if the beneficiary elects option 2 in subsection 4 of this section, unless the beneficiary dies before having received benefits pursuant to that subsection equal to the accumulated contributions of the member, in which case the amount of accumulated contributions in excess of the total benefits paid pursuant to that subsection shall be paid to the (1) surviving spouse, (2) surviving children in equal shares, (3) surviving parents in equal shares, or (4) estate of the beneficiary, in that order of precedence.

7. If a member ceases to be an employee as defined in section 169.600 and certifies to the board of trustees that such cessation is permanent or if the person's membership is otherwise terminated, the person shall be paid the person's

accumulated contributions with interest.

8. Notwithstanding any provisions of sections 169.600 to 169.715 to the contrary, if a member ceases to be an employee as defined in section 169.600 after acquiring five or more years of creditable service, the member may, at the option of the member, leave the member's contributions with the retirement system and claim a retirement allowance any time after the member reaches the minimum age for voluntary retirement. When the member's claim is presented to the board, the member shall be granted an allowance as provided in sections 169.600 to 169.715 on the basis of the member's age and years of service.

9. The retirement allowance of a member retired because of disability shall be nine-tenths of the allowance to which the member's creditable service would entitle the member if the member's age were sixty.

10. Notwithstanding any provisions of sections 169.600 to 169.715 to the contrary, any member who is a member prior to October 13, 1969, may elect to have the member's retirement allowance computed in accordance with sections 169.600 to 169.715 as they existed prior to October 13, 1969.

11. Any application for retirement shall include a sworn statement by the member certifying that the spouse of the member at the time the application was completed was aware of the application and the plan of retirement elected in the application.

12. Notwithstanding any other provision of law, any person retired prior to August 14, 1984, who is receiving a reduced retirement allowance under option 1 or 2 of subsection 4 of this section, as the option existed prior to August 14, 1984, and whose beneficiary nominated to receive continued retirement allowance payments under the elected option dies or has died, shall upon application to the board of trustees have the person's retirement allowance increased to the amount the person

would have been receiving had the person not elected the option, actuarially adjusted to recognize any excessive benefits which would have been paid to the person up to the time of the application.

13. Benefits paid pursuant to the provisions of the public education employee retirement system of Missouri shall not exceed the limitations of Section 415 of Title 26 of the United States Code, except as provided under this subsection. Notwithstanding any other law, the board of trustees may establish a benefit plan under Section 415(m) of Title 26 of the United States Code. Such plan shall be credited solely for the purpose described in Section 415(m)(3)(A) of Title 26 of the United States Code. The board of trustees may promulgate regulations necessary to implement the provisions of this subsection and to create and administer such benefit plan.

14. Any member who has retired prior to July 1, 1999, and the designated beneficiary of a deceased retired member upon request shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging. As compensation for such duties the person shall receive a payment equivalent to seven and four-tenths percent of the previous month's benefit, which shall be added to the member's or beneficiary's monthly annuity and which shall not be subject to the provisions of subsections 2 and 3 of this section for the purposes of the limit on the total amount of increases which may be received.

15. Any member who has retired prior to July 1, 2000, and the designated beneficiary of a deceased retired member upon request shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging. As compensation for such duties the person shall receive a payment equivalent to three and four-tenths percent of the previous month's benefit, which shall be added to the member's or beneficiary's monthly annuity and which shall not be subject to the provisions of

subsections 2 and 3 of this section for the purposes of the limit on the total amount of increases which may be received.

16. Any member who has retired prior to July 1, 2001, and the designated beneficiary of a deceased retired member upon request shall be made, constituted, appointed and employed by the board as a special consultant on the matters of education, retirement and aging. As compensation for such duties the person shall receive a payment equivalent to seven and one-tenth percent of the previous month's benefit, which shall be added to the member's or beneficiary's monthly annuity and which shall not be subject to the provisions of subsections 2 and 3 of this section for the purposes of the limit on the total amount of increases which may be received.

190.092. 1. A person or entity who acquires an automated external defibrillator shall ensure that:

(1) Expected defibrillator users receive training by the American Red Cross or American Heart Association in cardiopulmonary resuscitation and the use of automated external defibrillators, or an equivalent nationally recognized course in defibrillator use and cardiopulmonary resuscitation;

(2) The defibrillator is maintained and tested according to the manufacturer's operational guidelines;

(3) Any person who renders emergency care or treatment on a person in cardiac arrest by using an automated external defibrillator activates the emergency medical services system as soon as possible; and

(4) Any person or entity that owns an automated external defibrillator that is for use outside of a health care facility shall have a physician review and approve the clinical protocol for the use of the defibrillator, review and advise regarding the training and skill maintenance of the intended users of the defibrillator and assure proper review of all situations when the

The Senate met pursuant to adjournment.

President Kinder in the Chair.

Reverend Carl Gauck offered the following prayer:

“Comfort ye, comfort ye my people, says your God.” (Isaiah 40:1)

Merciful God, we hear Your words of care and need what You want to give as the tension grows among us and hard work may not be completed and lonely hours seem wasted and cannot be recalled. Yet we trust You will be with us and guide us through these closing days and our efforts bear good fruits. And we pray that You will comfort our neighbors in Kansas whose homes were destroy and lives lost and be with those who in St. Joseph and along the Missouri river whose property and lives are threatened and destroy. It is truly a time when we need Your comfort O God. In Your Holy Name we pray. Amen.

“142.031. 1. As used in this section the following terms shall mean:

(1) “Biodiesel”, fuel as defined in ASTM Standard D-6751 or its subsequent standard specifications for biodiesel fuel (B100) blend stock for distillate fuels;

(2) “Missouri qualified biodiesel producer”, a facility that produces biodiesel, is registered with the United States Environmental Protection Agency according to the requirements of 40 CFR 79, and:

(a) Is at least fifty-one percent owned by agricultural producers who are residents of this state and who are actively engaged in agricultural production for commercial purposes; or

(b) At least eighty percent of the feedstock used by the facility originates in the state of Missouri. For purposes of this section, “feedstock” means [a Missouri agricultural product as defined in section 348.400, RSMo] **an agricultural, horticultural, viticultural, vegetable, aquacultural, livestock, forestry, or poultry product either in its natural or processed state.**

2. The “Missouri Qualified Biodiesel Producer Incentive Fund” is hereby created and subject to appropriations shall be used to provide economic subsidies to Missouri qualified biodiesel producers pursuant to this section. The director of the department of agriculture shall administer the fund pursuant to this section.

3. A Missouri qualified biodiesel producer shall be eligible for a monthly grant from the fund provided that one hundred percent of the feedstock originates in the United States. However, the director may waive the feedstock requirements on a month-to-month basis if the facility provides verification that adequate feedstock is not available. A Missouri qualified biodiesel producer shall only be eligible for the grant for a total of sixty months unless such producers during the sixty months fail, due to a lack of appropriations, to receive the full amount from the fund for which the producers were eligible, in which case such producers shall continue to be eligible for up to twenty-four additional months or until they have received the maximum amount of funding for which such producers were eligible during the original sixty-month time period. The amount of the grant is determined by calculating the

estimated gallons of qualified biodiesel produced during the preceding month from [Missouri agricultural products] **feedstock**, as certified by the department of agriculture, and applying such figure to the per-gallon incentive credit established in this subsection. Each Missouri qualified biodiesel producer shall be eligible for a total grant in any fiscal year equal to thirty cents per gallon for the first fifteen million gallons of qualified biodiesel produced from [Missouri agricultural products] **feedstock** in the fiscal year plus ten cents per gallon for the next fifteen million gallons of qualified biodiesel produced from [Missouri agricultural products] **feedstock** in the fiscal year. All such qualified biodiesel produced by a Missouri qualified biodiesel producer in excess of thirty million gallons shall not be applied to the computation of a grant pursuant to this subsection. The department of agriculture shall pay all grants for a particular month by the fifteenth day after receipt and approval of the application described in subsection 4 of this section.

4. In order for a Missouri qualified biodiesel producer to obtain a grant from the fund, an application for such funds shall be received no later than fifteen days following the last day of the month for which the grant is sought. The application shall include:

(1) The location of the Missouri qualified biodiesel producer;

(2) The average number of citizens of Missouri employed by the Missouri qualified biodiesel producer in the preceding month, if applicable;

(3) The number of bushel equivalents of Missouri [agricultural commodities] **feedstock and out-of-state feedstock** used by the Missouri qualified biodiesel producer in the production of biodiesel in the preceding month;

(4) The number of gallons of qualified biodiesel the producer manufactures during the month for which the grant is applied;

(5) A copy of the qualified biodiesel producer license required pursuant to subsection 5 of this section, name and address of surety company, and amount of bond to be posted pursuant to subsection 5 of this section; and

(6) Any other information deemed necessary by the department of agriculture to adequately ensure that such grants shall be made only to Missouri qualified biodiesel producers.

5. The director of the department of agriculture, in consultation with the department of revenue, shall promulgate rules and regulations necessary for the administration of the provisions of this section.

6. Any rule or portion of a rule, as that term is defined in section 536.010, RSMo, that is created under the authority delegated in this section shall become effective only if it complies with and is subject to all of the provisions of chapter 536, RSMo, and, if applicable, section 536.028, RSMo. This section and chapter 536, RSMo, are nonseverable and if any of the powers vested with the general assembly pursuant to chapter 536, RSMo, to review, to delay the effective date or to disapprove and annul a rule are subsequently held unconstitutional, then the grant of rulemaking authority and any rule proposed or adopted after August 28, 2002, shall be invalid and void.

7. This section shall expire on December 31, 2009. However, Missouri qualified biodiesel producers receiving any grants awarded prior to December 31, 2009, shall continue to be eligible for the remainder of the original sixty-month time period under the same terms and conditions of this section unless such producer during such sixty months failed, due to a lack of appropriations, to receive the full amount from the fund for which he or she was eligible. In such case, such producers shall continue to be eligible for up to twenty-four additional months or until they have received the maximum amount of funding for which they were eligible during the original sixty-month time period.”; and

SENATE COMMITTEE SUBSTITUTE FOR HOUSE CONCURRENT RESOLUTION NO. 20

WHEREAS, in May 2005, the United States Congress enacted the REAL ID Act of 2005 as part of the Emergency Supplemental Appropriations Act for Defense, the Global War on Terror, and Tsunami Relief Act (PL 109-13), which was signed by President Bush on May 11, 2005, and which becomes effective May

11, 2008; and

WHEREAS, some of the requirements of the REAL ID Act are that states shall:

(1) Issue a driver's license or state identification card in a uniform format, containing uniform information, as prescribed by the federal Department of Homeland Security;

(2) Verify the issuance, validity, and completeness of all primary documents used to issue a driver's license, such as those showing that the bearer is a United States citizen or a lawful alien, a lawful refugee, or a person holding a valid visa;

(3) Provide for secure storage of all primary documents that are used to issue a federally approved driver's license or state identification card;

(4) Provide fraudulent document recognition training to all persons engaged in issuing driver's licenses or state identification cards; and

(5) Issue a driver's license or state identification card in a prescribed format if it is a license or card that does not meet the criteria provided for a federally approved license or identification card; and

WHEREAS, use of the federal minimum standards for state driver's licenses and state-issued identification cards will be necessary for any type of federally regulated activity for which an identification card must be displayed, including flying in a commercial airplane, making transactions with a federally licensed bank, entering a federal building, or making application for federally supported public assistance benefits, including Social Security; and

WHEREAS, some of the intended privacy requirements of the REAL ID Act, such as the use of common machine-readable technology and state maintenance of a database that can be shared with the United States government and agencies of other states, may actually make it more likely that a federally required driver's license or state identification card, or the information about the bearer on which the license or card is based, will be stolen, sold, or otherwise used for purposes that were never intended or that are criminally related than if the REAL ID Act had not been enacted; and

WHEREAS, these potential breaches in privacy that could result directly from compliance with the REAL ID Act may violate the right to privacy secured in the Missouri Constitution, for thousands of residents of Missouri; and

WHEREAS, the American Association of Motor Vehicle Administrators, the National Governors' Association, and the National Conference of State Legislatures have estimated, in an impact analysis dated September 2006, that the cost to the states to implement the REAL ID Act will be more than \$11 billion over 5 years, and it is estimated that the implementation of the REAL ID Act will cost Missouri millions to fully implement the Act, none of such costs being paid for by the federal government; and

WHEREAS, for all of these reasons, the American

Association of Motor Vehicle Administrators, the National Governors' Association, and the National Conference of State Legislatures, in a letter dated March 17, 2005, to the majority and minority leaders of the United States Senate, opposed the adoption of the REAL ID Act, but the opposition of those groups, and the groups' request that Congress rely on driver's license security provisions already passed by Congress in the Intelligence Reform and Terrorism Prevention Act of 2004, was largely ignored by Congress; and
